Reluctant Dreamer:

Reluctant Dreamer Dixie Browning, 1986 Assimilation Catherine S. Ramírez, 2020-10-27 For over a hundred years the story of assimilation has animated the nation building project of the United States And still today the dream or demand of a cultural melting pot circulates through academia policy institutions and mainstream media outlets Noting society's many exclusions and erasures scholars in the second half of the twentieth century persuasively argued that only some social groups assimilate Others they pointed out are subject to racialization In this bold discipline traversing cultural history Catherine Ram rez develops an entirely different account of assimilation Weaving together the legacies of US settler colonialism slavery and border control Ram rez challenges the assumption that racialization and assimilation are separate and incompatible processes In fascinating chapters with subjects that range from nineteenth century boarding schools to the contemporary artwork of undocumented immigrants this book decouples immigration and assimilation and probes the gap between assimilation and citizenship It shows that assimilation is not just a process of absorption and becoming more alike Rather assimilation is a process of racialization and subordination and of power and inequality The Documented Child Maya Socolovsky, 2025-02-04 Immigration is at once a personal immediate and urgent issue that plays a central role in the United States perception of itself In The Documented Child scholar Maya Socolovsky demonstrates how the portrayal of Latinx children has shifted over the first two decades of the twenty first century in literary texts aimed at children and young adults and looks at how these shifts map onto broader changes in immigration policy and discourse Through a critical inquiry into picture books and middle grade and young adult literature Socolovsky argues that the literary documentations of and for U S Latinx children have shifted over the decades from an emphasis on hybrid transnationalism to that of a more American oriented self Socolovsky delves into texts written from 1997 to 2020 a period marked by tremendous changes in U S immigration policies amplified discourses around nationhood and an increasingly militarized border The author shows how children's and young adult books have shifted their depictions of the border personal and national identity and sovereignty For students scholars and educators of Latinx studies and children's literature this work shows how the creators of children's literature reflect new strategies for representing the undocumented Latinx child protagonist While earlier books document the child as a transnational sometimes global subject later books document her as both a transnational and U S national subject The Documented Child explores this change as a necessary survival strategy reflecting current awareness that cultural hybridity and transnational identity are not sufficient stand ins for the stability and security of legal personhood
