Remaking Men Jung Spirituality And Social Change:

Remaking Men David John Tacey, 1997 In *Remaking Men* Tacey critically evaluates the use of Jungian psychology in studies of masculinity. It brings together social and psychological approaches to masculinity for the first time. Remaking Men David Tacey, 2013-10-23 The nature of masculinity is a popular subject for contemporary authors either treated critically from a sociological standpoint or analysed from a psychological and spiritual perspective. In *Remaking Men* David Tacey argues that we must strive to bridge the gap between these separate traditions; masculinity should neither be hijacked by the spiritual Jung-influenced men's movement nor discussed merely as a product of socio-political forces. Examining his own and other men's experience in a critical and lively discourse, he evades the simplistic optimism of the inner journey approach and the chronic pessimism of contemporary academic arguments. This is a fascinating and very accessible look at masculinity for those who want to explore self and society with intelligence and soul.

Edge of the Sacred - Jung, Psyche, Earth David Tacey, Does earth have spirit or soul? This is a question being asked ever more frequently, especially by those interested in the future of the natural world and the development of consciousness. The alchemists said the greater part of the soul is outside the body and indigenous cultures have felt that soul or spirit resides in Nature and the physical environment. Such notions have been dismissed by modernity as illusions, but we are beginning to have second thoughts about the animation of the earth. Science and rationality have not taught us how to love or care for the earth, and in the modern era the environment has been disrespected. The mythic bonds to Nature such as those found in Aboriginal Australian cultures appear to have real survival value because they bind us to the earth in a meaningful way. When these bonds are destroyed by excessive rationality or a collapse of cultural mythology, we are left alone outside the community of Nature and in an alienated state. In this state we do real damage to the environment because it is no longer part of our spiritual body or moral responsibility. Jung was one of the first thinkers of our time to consider the psychic influence of the earth and the conditioning of the mind by place. Inspired by his writings and those of James Hillman, the field of ecopsychology has arisen as a powerful new area of inquiry.

Edge of the Sacred: Jung, Psyche, Earth contributes to global ecopsychology from an Australian perspective. *Crossing into Manhood: A Men's Studies Curriculum* Christopher P. Mason, 2006 Many scholars have documented and decried the crisis in American masculinity. There is a preponderance of evidence showing that males suffer from many physical, emotional, and social ills due to the gender scripts with which they were raised and which continue to govern men's lives. Throughout the millennia and across cultures, initiation rites of passage have been utilized as an effective means of transitioning young males into manhood. Modern culture suffers from a dearth of rites of passage, leaving many boys stuck in puerile attitudes and behaviors and unable to make a wholesome transition into mature masculinity. *Crossing into Manhood* is a much-needed guide on assisting late adolescent boys transition into manhood; it proposes a school-based curriculum and rite of passage paradigm to help young men make the difficult passage into manhood. Utilizing resources from diverse academic disciplines

Numen, Old Men Joseph Gelfer,2016-09-17 Since the early 1990s there have been various movements designed to encourage masculine spirituality All these movements share a concern that spirituality has become too feminine and that men s experiences of the spiritual are being marginalized The task of masculine spirituality is to promote authentic masculine characteristics within a spiritual context *Numen Old Men* examines these characteristics to argue that masculine spirituality is thinly veiled patriarchy The mythopoetic evangelical and Catholic men s movements are shown to promote a hetero patriarchal spirituality by appealing to either combative and oppressive neo Jungian archetypes or biblical models of man as the leader of the family *Numen Old Men* examines spiritualities that aim to honour and transcend both the masculine and feminine and offers gay spirituality as an example of masculine spirituality that resists patriarchy **The Spirituality Revolution** David John Tacey,2004 *The Spirituality Revolution* addresses the major social issue of spirituality which requires immediate attention if we are to creatively respond to spiralling outbreaks of depression suicide addiction and psychological

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Facing Patriarchy Professor Bob Pease, 2019-10-15 Facing Patriarchy challenges current thinking about men's violence against women Drawing upon radical and intersectional feminist theory and critical masculinity studies the book locates men's violence within the structures and processes of patriarchy Addressing the limitations of current violence prevention policies Bob Pease argues that a nuanced conceptualisation of patriarchy that accounts for a variety of patriarchal structures intersections with other forms of inequality patriarchal ideologies men's peer group relations men's sexist practices and the construction of patriarchal subjectivities is required to understand the links between gender and men's violence against women Pease shows that men's violence against women needs to be understood in the context of

other forms of men's violence including violence against boys and other men in the involvement of men in wars and conflicts between nations and men's ecologically destructive practices which constitute a form of slow violence. With crucial implications for priorities in violence prevention, gender equality promotion and in strategies for engaging men in this work, *Facing Patriarchy* offers new hope for the elimination of men's violence. This is an essential book for scholars, practitioners, activists and policy makers involved in violence prevention in national and international contexts.

Integral Voices on Sex, Gender, and Sexuality Sarah E. Nicholson, Vanessa D. Fisher, 2014-07-16. Brings the insights of Integral Theory to the consideration of sex, gender and sexuality. This volume takes a unique approach to the question of what it is to be a gendered sexual self in a postmodern world, offering insights informed by the Integral paradigm of theory and practice. With the inquiry into sex, gender and sexuality having become so broad and diverse within both academia and popular culture, the Integral approach can help sift through and make sense of the cacophony of theories and agendas that seek to stake their ground in this collective conversation. Informed by the work of thinkers such as Sri Aurobindo, Gregory Bateson, Jean Gebser, Ervin Laszlo and most directly Ken Wilber, the Integral approach acknowledges and works with multiple and contradictory experiences, theories and realities. Dealing with a variety of topics including feminism, the men's movement, sexual identity, queer history and spirituality, the work's contributors speak from across the spectrum of personal and political backgrounds, academic and practitioner orientations and male and female perspectives. The combination of voices aims to bring forward a more complex and integrated understanding of what it means to be woman, man, human. Sarah Nicholson and Vanessa Fisher have put together a fascinating multilayered look at the interface of Integral Theory and contemporary gender studies. These articles tackle significant issues, raise courageous questions and further the conversation in valuable ways. The Vision Thing Thomas Singer, 2014-01-14. Contemporary politics goes on at a mythic level. This is the provocative argument put forward in this unique book, which results from the collaboration of practising politicians, organisational and political consultants, scholars of mythology and culture and Jungian analysts from several countries. The first part of the book focuses on leadership and vision and features a reflection on myth and leadership by former U.S. Senator Bill Bradley. The second part deals with the way the theme of the one and the many works itself out in politics today. From the perspective of the many, there are chapters on factionalism, ethnic strife, genocide and multiculturalism. From the perspective of the one, there are chapters on the economic myth and gender politics, showing how these bring coherence to today's confused political scene, culminating in the suggestion that the modern political psyche is itself in the midst of a rite of passage. The relevance of the book to the practice and study of politics, mainstream and marginal, cannot be overemphasised, and the book will provide stimulating reading for practitioners and students in these areas as well as for those engaged in psychological work such as therapy, counselling or analysis.
