Aschheim, 2001-02 The nineteenth and twentieth century relationship between European culture German history and the Jewish experience produced some of the West's most powerful and enduring intellectual creations and perhaps in subtly paradoxical and interrelated ways our century's darkest genocidal moments In Times of Crisis explores the flashpoints of this vexed relationship mapping the coordinates of a complex triangular encounter of immense historical import In essays that range from the question of Nietzsche's legacy to the controversy over Daniel Goldhagen's Hitler's Willing Executioners the distinguished historian Steven E Aschheim presents this encounter as an ongoing dialogue between two evolving cultural identities He touches on past dimensions of this exchange such as the politics of Weimar Germany and on present dilemmas of grasping and representing it such as the Israeli discourse on the Holocaust His work inevitably traces the roots and ramifications of Nazism but at the same time brings into focus historical circumstances and contemporary issues often overshadowed or distorted by the Holocaust These essays reveal the ubiquitous charged inscriptions of Nazi genocide within our own culture and illuminate the projects of some later thinkers and historians from Hannah Arendt to George Mosse to Saul Friedlander who have wrestled with its problematics and sought to capture its essence From the

broadly historical to the personal from the politics of Weimar Germany to the experience of growing up German Jewish in South Africa the essays expand our understanding of German Jewish history in particular but also of historical processes in general Response ,1993 *Biographies, Legal Cases, and Political Transitions* Carol Anne Heimer,1999 **The Algeria Hotel** Adam Nossiter,2001 The Algeria Hotel in Vichy was the sight of the Gestapo Headquarters in World War II an emblem of the French cohabitation with the worst excesses of Nazism This book aims to lift the veil of amnesia now shrouding France s collective memory of such collusion in Bordeaux Vichy and Tulle The Theater of Politics Eric B. Gorham,2000-01-19 For Hannah Arendt creating a durable civil public world was of utmost importance Though many have discussed Arendt s relevance to the contemporary work of politics Eric Gorham is the first to examine her ideas of the space of appearance in the context of the university classroom In *The Theater of Politics* Gorham examines in detail Arendt s dramaturgical theory of politics and her method of political criticism and maintains that politics can be observed in the classroom in which students are future political actors and spectators in training Using Arendt as a theoretical platform Gorham offers innovative ideas for politicizing the classroom and for reconceptualizing faculty and student community service If professors and administrators can imagine their tasks in light of lessons learned from classical theater then students will benefit from a renewed emphasis on teaching Gorham moves to redraw the basis of political citizenship criticizing arguments offered by civic republican and communitarian theorists and crafting a richer more judicious concept of citizenship one that can be learned and practiced in the political science classroom in particular and in the university in general Shadows of the Shoah Victor J. Seidler,2000-03 How can we make sense of being born and growing up in the shadows of the Shoah without being able to speak about the unspeakable terror that killed so many in our families As the second generation we were rarely to hear stories of love and loss or to participate in the mourning of so many who had been brutally murdered Rather we were to grow up normally and to learn to turn our backs on the past as we struggled towards future identities while imagining ourselves like everyone else Fearful of difference we were often ambivalent about Jewish identities that could threaten a sense of Englishness Exploring the painful dynamics of personal identity and belonging Victor Jeleniewski Seidler shares the difficulties of memory How is it possible ever really to belong and feel safe and yet remember what happened to Jewish families in Poland How can one remember without feeling overwhelmed by the terror Crossing boundaries in a journey to Poland enabled the author to rethink a relationship between Judaism and modernity as well as to reflect on the painful histories between Poles and Jews Questions about memory identity and belonging touch the lives of many people who live in the shadows of historical trauma Learning to think in new ways about the Shoah as a defining crisis within modernity Seidler also helps us imagine an ethics for a postmodern time **NATO and Germany** Stanford M. Lyman,1995 How both NATO and Germany managed to maintain themselves in a state of dynamic equilibrium throughout the era of the Cold War illustrates the concept of international organization called cooptation which Lyman helped to define and expand
