Pickering, 1980-03-06 This 1980 book contains a selection of twelve essays spanning the period 1953 1977 three of which are translated The essays in the volume concern medieval ideas of fate fortune and history and the persuasive influence of the Consolation of Philosophy of Boethius Der von Kurenberg Gayle Agler-Beck, 1978-01-01 Der von Kurenberg was one of the first named poets to write in Middle High German language This study presents a modified diplomatic edition of the fifteen strophes text by Der von Kurenberg It offers a commentary on the original text and discusses the literary and interpretative problems connected with the poet's work *Remembering in a World of Forgetting* William Stoddart, 2007-11-29 This book contains a wide ranging selection of writings by perennialist author William Stoddart that expose the many false ideologies of postmodernism forgetting and call for a return to traditional religion especially in its mystical dimensions remembering

Yehuda Amichai Nili Scharf Gold, 2019-04-15 Yehuda Amichai is one of the twentieth century's and Israel's leading poets In this remarkable book Nili Scharf Gold offers a profound reinterpretation of Amichai's early works and reconstructs his poetic biography Her close reading of his oeuvre untapped notebooks and a cache of unpublished letters to a woman identified as Ruth Z that Gold discovered convincingly demonstrates how the poet's German past infused his work despite his attempts to conceal it as he adopted an Israeli identity Reconsidering Gender, Time and Memory in Medieval Culture

Elizabeth Cox, Liz Herbert McAvoy, Roberta Magnani, 2015 A consideration of the ways in which the past was framed and remembered in the pre modern world The training and use of memory was crucial in medieval culture given the limited literacy at the time but to date very little thought has been given to the complex and disparate ways in which the theory and practices of memory interacted with the inherently unstable concepts of time and gender at the time The essays in this volume drawing on approaches from applied poststructural and queer theory among others reassess those ideologies meanings and responses generated by the workings of memory within and over time Ultimately they argue for the inherent instability of the traditional gender time memory matrix within which men are configured as the recorders of history and women as the repositories of a more inchoate familial and communal knowledge showing the Middle Ages as a locus for a far more fluid conceptualization of time and memory than has previously been considered Elizabeth Cox is Lecturer in Old

Collective Memory & the Historical Past Jeffrey Andrew Barash, 2016-11-25 Barash seeks to safeguard history from mythology deep and wide ranging yet the author's prose is clear and accessible Highly recommended Choice There is one critical way we honor great tragedies by never forgetting Collective remembrance is as old as human society itself serving as an important source of social cohesion yet as Jeffrey Andrew Barash shows in this book it has served novel roles in a modern era otherwise characterized by discontinuity and dislocation Drawing on recent theoretical explorations of collective memory he elaborates an important new philosophical basis for it one that unveils profound limitations to its scope in relation to the historical past Crucial to Barash's analysis is a look at the radical transformations that symbolic configurations of collective memory have undergone with the rise of new technologies of mass communication He provocatively demonstrates how such technologies capacity to simulate direct experience especially via the image actually makes more palpable collective memory's limitations and the opacity of the historical past which always lies beyond the reach of living memory Thwarting skepticism however he eventually looks to literature specifically writers such as Walter Scott Marcel Proust and W G Sebald to uncover subtle nuances of temporality that might offer inconspicuous emblems of a past historical reality A highly insightful and erudite book on the complex relationship of the past to the present It raises a host of important questions about memory and history *Journal of the History of Ideas*

Oral Poetics and Cognitive Science Mihailo Antovic, Cristóbal Pagán Cánovas, 2016-08-22 What can oral poetic traditions teach us about language and the human mind Oral Poetics has produced insights relevant not only for the study of traditional poetry but also for our general understanding of language and cognition formulaic style as a product of rehearsed improvisation the thematic structuring of traditional narratives or the poetic use of features from everyday speech among many others The cognitive sciences have developed frameworks that are crucial for research on oral poetics such as construction grammar or conversation analysis The key for connecting the two disciplines is their common focus on usage and performance This collection of papers explores how some of the latest research on language and cognition can contribute to advances in oral studies At the same time it shows how research on verbal art in its natural oral medium can lead to new insights in semantics pragmatics or multimodal communication The ultimate goal is to pave the way towards a Cognitive Oral Poetics a new interdisciplinary field for the study of oral poetry as a window to the mind *A Companion to Middle High German Literature to the 14th century* Francis Gentry, 2002-12-01 This volume is a guide to medieval German literature from its beginnings in the eighth century to the fourteenth century It will escort the motivated student and

The 'Jewish Question' in German Literature, 1749-1939 Ritchie Robertson, 2001-10-18 The Jewish Question in German Literature 1749 1939 is an erudite and searching literary study of the uneasy position of the Jews in Germany and Austria from the first pleas for Jewish emancipation during the Enlightenment to the eve of the Holocaust Trying to avoid hindsight and drawing on a wide range of literary texts Ritchie Robertson offers a close examination of attempts to construct a Jewish identity suitable for an increasingly secular world He examines both literary portrayals of Jews by Gentile writers whether antisemitic friendly or ambivalent and efforts to reinvent Jewish identities by the Jews themselves in response to antisemitism culminating in Zionism No other study by a single author deals with German Jewish relations so comprehensively and over such a long period of literary history Robertson s new work will prove stimulating for anyone interested in the modern Jewish experience as well as for scholars and students of German fiction prose and political culture

Mitchell, 2018-11-19 In recent years the field of Memory Studies has emerged as a key approach in the Humanities and Social Sciences and has increasingly shown its ability to open new windows on Nordic Studies as well The entries in this book document the work to date of this approach on the pre-modern Nordic world mainly the Viking Age and the Middle Ages but including as well both earlier and later periods Given that Memory Studies is an ever expanding critical strategy the approximately eighty contributors in this volume also discuss the

potential for future research in this area Topics covered range from texts to performance to visual and other aspects of material culture all approached from within an interdisciplinary framework International specialists coming from such relevant fields as archaeology mythology history of religion folklore history law art literature philology language and mediality offer assessments on the relevance of Memory Studies to their disciplines and show it at work in case studies Finally this handbook demonstrates the various levels of culture where memory had a critical impact in the pre modern North and how deeply embedded the role of memory is in the material itself

Singing the Past Karl Reichl, 2000 Oral epic poetry is still performed by Turkic singers in Central Asia On trips to the region Karl Reichl collected heroic poems from the Uzbek Kazakh and Karakalpak oral traditions Through a close analysis of these Turkic works he shows that they are typologically similar to heroic poetry in Old English Old High German and Old French and that they can offer scholars new insights into the oral background of these medieval texts Reichl draws on his research in Central Asia to discuss questions regarding performance as well as the singers training role in society and repertoire He asserts that heroic poetry and epic are primarily concerned with the interpretation of the past in song the courageous deeds of ancestors the search for tribal and societal roots and the definition and transmission of cultural values Reichl finds that in these traditions the heroic epic is part of a generic system that includes historical and eulogistic poetry as well as heroic lays a view that has diachronic implications for medieval poetry Singing the Past reminds readers that because much medieval poetry was composed for oral recitation both the Turkic and the medieval heroic poems must always be appreciated as poetry in performance as sound listened to as words spoken or sung
