REMINISCENCES OF SAMUEL TAYLOR Joseph 1770-1853 Cottle, 2016-08-29 **Reminiscences of Samuel Taylor Coleridge and Robert Southey (Classic Reprint)** Joseph Cottle, 2018-01-12 Excerpt from *Reminiscences of Samuel Taylor Coleridge and Robert Southey* There is scarcely an individual whose life if justly delineated would not present much whence others might derive instruction. If this be applicable to the multitude how much more essentially true is it in reference to the ethereal spirits endowed by the Supreme with a lavish portion of intellectual strength as well as with proportionate capacities for doing good. How serious therefore is the obligation to fidelity when the portraiture of a man is to be presented like Samuel Taylor Coleridge in whom such diversified and contrary qualities alternately predominated. Yet all the advantages to be derived from him and similar instructors of mankind must result from a faithful exhibition of the broad features of their earthly conduct and character so that they might stand out as landmarks and pharos towers to guide or warn or encourage all succeeding voyagers on the Ocean of Life. Taking a historical view, Humberto Garcia combines a rereading of eighteenth-century and Romantic-era British literature with original research on Anglo-Islamic relations. He finds that far from being considered foreign by the era's thinkers, Islamic republicanism played a defining role in Radical Enlightenment debates most significantly during the Glorious Revolution, French Revolution, and other moments of acute constitutional crisis, as well as in national and political debates about England and its overseas empire. Garcia shows that writers such as Edmund Burke, Lady Mary Wortley Montagu, Samuel Taylor Coleridge, Robert Southey, and Percy and Mary Shelley not only were influenced by international events in the Muslim world but also saw in that world and its history a viable path to interrogate, contest, and redefine British concepts of liberty. This deft exploration of the forgotten moment in early modern history when intercultural exchange between the Muslim world and Christian West was common resituates English literary and intellectual history in the wider context of the global eighteenth century. The direct challenge it poses to the idea of an exclusionary Judeo-Christian Enlightenment serves as an important revision to post-9/11 narratives about a historical clash between Western democratic values and Islam. *English Romantic Writers and the West Country* N. Roe, 2010-05-28 Long confounded with a monolithic British entity or misrepresented as Lakers and Cockneys, the diverse regional forms of English Romanticism are ripe for reassessment. Ranging west of a line between the Wye at Tintern and Jane Austen's Chawton, this book offers a first reconfiguration of Romantic culture in terms of English regional identity. **Romantic Marginality** Alex Watson, 2015-10-06 This is the first critical study of Romantic-era annotation or marginalia: footnotes, endnotes, glossaries, which formed a vital site of literary interaction.
