Sephardic Jews in America Aviva Ben-Ur, 2009-02-01 A significant number of Sephardic Jews tracing their remote origins to Spain and Portugal immigrated to the United States from Turkey Greece and the Balkans from 1880 through the 1920s joined by a smaller number of Mizrahi Jews arriving from Arab lands Most Sephardim settled in New York establishing the leading Judeo Spanish community outside the Ottoman Empire With their distinct languages cultures and rituals Sephardim and Arab speaking Mizrahim were not readily recognized as Jews by their Ashkenazic coreligionists At the same time they forged alliances outside Jewish circles with Hispanics and Arabs with whom they shared significant cultural and linguistic ties The failure among Ashkenazic Jews to recognize Sephardim and Mizrahim as fellow Jews continues today More often than not these Jewish communities are simply absent from portrayals of American Jewry Drawing on primary sources such as the Ladino Judeo Spanish press archival documents and oral histories *Sephardic Jews in America* offers the first book length academic treatment of their history in the United States from 1654 to the present focusing on the age of mass immigration

Becoming Jewish Netanel Fisher, Tudor Parfitt, 2016-12-14 One of the most striking contemporary religious phenomena is the world wide fascination with Judaism Traditionally few non Jews converted to the Jewish faith but today millions of people throughout the world are converting to Judaism and are identifying as Jews or Israelites In this volume leading scholars of issues related to conversion Judaising movements and Judaism as a New Religious Movement discuss and explain this global movement towards identification with the Jewish people from Germany and Poland to China and Nigeria

Latina/o y Musulmán Hjamil A. Martínez-Vázquez, 2010-01-01 Latinas/os are the fastest growing minoritized ethnic group in the United States and Islam is one of the fastest growing religions in the United States It is therefore no surprise that the Latina/o Muslim population is one of the fastest growing communities in the United States As a minority within a minority the ways in which U S Latina/o Muslims construct their identity is not only interesting in itself but also of interest for how they challenge traditional understandings of U S Latina/o identities This book explores the process of conversion of U S Latina/o Muslims and how it becomes the foundation for the re construction of their U S Latina/o identities Furthermore since Latina/o religious experience in the United States up until now has largely assumed

Christianity as the de facto religion Latina o y Musulman brings a whole new angle to studies in this area Martinez Vazquez lays the broader analytical foundation for how the religious experiences of non Christian U S Latinas os shape the process of identity construction

The Converso's Return Dalia Kandiyoti, 2020-08-04 Five centuries after the forced conversion of Spanish and Portuguese Jews to Catholicism stories of these conversos descendants uncovering long hidden Jewish roots have come to light and taken hold of the literary and popular imagination This seemingly remote history has inspired a wave of contemporary writing involving hidden artifacts familial whispers and secrets and clandestine Jewish ritual practices pointing to a past that had been presumed dead and buried The Converso s Return explores the cultural politics and literary impact of this reawakened interest in converso and crypto Jewish history ancestry and identity and asks what this fascination with lost and found heritage can tell us about how we relate to and make use of the past Dalia Kandiyoti offers nuanced interpretations of contemporary fictional and autobiographical texts about crypto Jews in Cuba Mexico New Mexico Spain France the Ottoman Empire and Turkey These works not only imagine what might be missing from the historical archive but also suggest an alternative historical consciousness that underscores uncommon convergences of and solidarities within Sephardi Christian Muslim converso and Sabbatean histories Steeped in diaspora Sephardi transamerican Iberian and world literature studies The Converso s Return illuminates how the converso narrative can enrich our understanding of history genealogy and collective memory

Decolonizing Epistemologies Ada María Isasi-Díaz, Eduardo Mendieta, 2012 This anthology gathers the work of three generations of Latina o theologians and philosopher who have taken up the task of decolonizing epistemology by transforming their respective disciplines from the standpoint liberation thought and of what has been called the decolonial turn in social theory theology and philosophy At the heart of this collection is the unveiling of subjugated knowledge elaborated by Latina o scholars who take seriously their social location and that of their communities of accountability and how these impact the development of a different episteme Refusing to continue to allow to be made invisible by the dominant discourse this group of scholars show the unsuspecting and original ways in which Latina o social and historical loci in the US are generative places for the creation of new matrixes of knowledge The book articulates a new point of departure for the self understanding of Latinas os for other marginalized and oppress groups and for all those seeking to engage the move beyond coloniality as it continues to be present in this age of globalization

Mishpachah Leonard J. Greenspoon, 2016-10-15 Dictionary definitions of the term mishpachah are seemingly straightforward A Jewish family or social unit including close and distant relatives sometimes also close friends As accurate as such definitions are they fail to capture the diversity and vitality of real flesh and blood Jewish families Families have been part of Jewish life for as long as there have been Jews It is useful to recall that the family is the basic narrative building block of the stories in the biblical book of Genesis which can be interpreted in the light of ancient literary traditions archaeological discoveries and rabbinic exegesis Rabbinic literature also is filled with discussions about interactions rancorous as well as amicable between parents

and among siblings Sometimes harmony characterizes relations between the parent and the child as often alas there is conflict The rabbis always aware of the realities of life chide and advise as best they can For the modern period the changing roles of males and females in society at large have contributed to differing expectations as to their roles within the family The relative increase in the number of adopted children from both Jewish and non Jewish backgrounds and more recently the shifting reality of assisted reproductive technologies and the possibility of cloning human embryos all raise significant moral and theological questions that require serious consideration Through the studies brought together in this volume more than a dozen scholars look at the Jewish family in wide variety of social historical religious and geographical contexts In the process they explore both diverse and common features in the past and present and they chart possible courses for Jewish families in the future

Desaturated Soul Gloria Golden, 2009-11 Ever since my teenage years I've had a great desire to travel and find adventure Using the camera to attain these goals I have had some of the greatest adventures of my life My life has been forever by the cultural influences and people I've encountered in my travels The images I've taken are magical to me and it is my hope that viewers will observe the uniqueness in each one This goal is the basis for the collection *Desaturated Soul* Loneliness is a common motif in portraits and landscapes I took most of the photographs during the last ten years a period of great change in my life My children were on their own and I had more free time Feelings of loneliness sometimes crept into my world Photography filled that void and brought me great joy Black and white photography is soulful and exudes emotion It's another language with a special beauty of its own Such fundamentally different images as portraits landscapes and the surreal are included in the book By combining photographs with text I've attempted to create a specific mood Exposing my soul to the world has been exhilarating yet at the same time a bit frightening However these visuals and the written word complement each other and comprise the final work Drawing on inspiration from the photographs I am highly motivated to write Instinct is the tool that tells me whether or not to commit to a photograph Something strikes me in an instant and I'm ready to go My goal is to capture the feeling of the moment so as to evoke the viewer's emotional reaction The photographer is much like a psychologist studying the complexity of human nature and understanding human emotion My response to mannequin photography is much the same as my response to human photography Although the mannequins are not real I see something in their faces or an expression that seems real Giving them life through photography is quite exciting Feelings for particular landscapes operate in a similar fashion There's a gut feeling to photograph something I feel in the depths of my soul I feel the sun and the lay of the land The cliff dwellings for example bring to mind the Ancients the Anasazi who left the areas where they once thrived The reasons for their departure are unknown and their lifestyle must have been remarkable Photographing up close creates a personal connection between the photographer and the subject An observer might take a second look as he studies the image In that way he is also taking a second look at the artist who projects his personality onto the work When reaching into a person's soul with the camera's lens one feels his strength or weakness To feel the beauty and

spirit of the land creates excitement in landscape photography I would like to touch people and have them feel as they have never felt before Some might feel a connection to the biker s strength or to the love surrounding eighty two year old Maria The photographs introduce thought provoking ideas allowing the viewer to form a greater understanding of his or her own feelings Capturing only a small portion of what the world has to offer is my accomplishment Given that there are so many more unique faces and places to see there is much work to be done My goal is to continue exploring the unusual and exotic with the camera

God's Jury Cullen Murphy,2018-06-01 From Torquemada to Guant namo and beyond Cullen Murphy finds the inquisitorial impulse alive and only too well in our world Jane Mayer author of Dark Money Established by the Catholic Church in 1231 the Inquisition continued in one form or another for almost seven hundred years Though associated with the persecution of heretics and Jews and with burning at the stake its targets were more numerous its techniques were more ambitious and its effect on history has been greater than many understand The Inquisition pioneered surveillance censorship and scientific

interrogation As time went on its methods and mindset spread far beyond the Church to become tools of secular persecution Traveling from freshly opened Vatican archives to the detention camps of Guantamo to the filing cabinets of the Third Reich the author of *Are We Rome* masterfully traces the social legal and political evolution of the Inquisition and the inquisitorial process from its origins in late medieval Christian France to its eerily familiar secular cousin in the modern world *San Francisco Chronicle* God's Jury is a reminder and we need to be constantly reminded that the most dangerous people in the world are the righteous and when they wield real power look out Murphy wears his erudition lightly writes with quiet wit and has a delightful way of seeing the past in the present Mark Bowden author of *Hue 1968* Beautifully written very smart and devilishly engaging *The Boston Globe* [The Chamberlain Key](#) Timothy P.
