Remorse And Reparation:

Remorse and Reparation Murray Cox,1999 Remorse or rather the lack of it frequently features in banner headlines But there is little systematic study of this important inter disciplinary topic whose relevance has extensive social ramifications The complex relationship between remorse shame guilt and attempts at reparation are discussed in this authoritative work

Remorse and Reparation Cox,2014-05-14 Remorse or rather lack of it frequently features in banner headlines However there is little systematic study of this important interdisciplinary topic whose relevance has extensive social ramifications This volume is the first comprehensive attempt to bring together both forensic clinicians and those working within the criminal justice system Discussed are questions like Is there a correlation between the experience of remorse and a diminished likelihood of re offending and What is the complex relationship between remorse shame guilt and attempts at reparation

Remorse Michael Proeve,Steven Tudor,2016-04-08 Remorse is a powerful important and yet academically neglected emotion This book one of the very few extended examinations of remorse draws on psychology law and philosophy to present a unique interdisciplinary study of this intriguing emotion The psychological chapters examine the fundamental nature of remorse its interpersonal effects and its relationship with regret guilt and shame A practical focus is also provided in an examination of the place of remorse in psychotherapeutic interventions with criminal offenders The book s jurisprudential chapters explore the problem of how offender remorse is proved in court and the contentious issues concerning the effect that remorse and its absence should have on sentencing criminal offenders The legal and psychological perspectives are then interwoven in a discussion of the role of remorse in restorative justice In *Remorse Psychological and Jurisprudential Perspectives* Proeve and Tudor bring together insights of neighbouring disciplines to advance our understanding of remorse It will be of interest to theoreticians in psychology law and philosophy and will be of benefit to practising psychologists and lawyers

Love, Guilt, and Reparation, and Other Works, 1921-1945 Melanie Klein,1977

The Moral Psychology of Regret Anna Gotlib,2019-10-21 What kind of an emotion is regret What difference does it make whether how and why we experience it and how does this experience shape our current and future thoughts decisions goals Under what conditions is regret appropriate Is it always one kind of experience or does it vary based on who is doing the regretting and why How is regret different from other backward looking emotions In *The Moral Psychology of Regret* scholars from several disciplines including philosophy gender studies disability studies law and neuroscience come together to address these and other questions related to this ubiquitous emotion that so many of us seem to dread And while regret has been somewhat under theorized as a subject worthy of serious and careful attention this volume is offered with the intent of expanding the discourse on regret as an emotion of great moral significance that underwrites how we understand ourselves and each other

Good and Evil Raimond Gaita,2004 Raimond Gaita s *Good and Evil* is one of the most important original and provocative books on the nature of morality to have been published in recent years It is essential reading for

anyone interested in what it means to talk about good and evil Gaita argues that questions about morality are inseparable from the preciousness of each human being an issue we can only address if we place the idea of remorse at the centre of moral life Drawing on an astonishing range of thinkers and writers including Plato Wittgenstein George Orwell and Primo Levi Gaita also reflects on the place of reason and truth in morality and ultimately how questions about good and evil are connected to the meaning of our lives This revised edition of Good and Evil includes a substantial new preface and afterword by the author

The Criminal Law's Person Claes Lernestedt, Matt Matravers, 2022-02-10 The state's use of the threat and imposition of punishments to regulate conduct is thought or at least said by many to be legitimised by the idea that the criminal law's burdens only fall on those who are blameworthy for their conduct However the formal concept of blameworthiness needs to be made substantive This puts various ideas regarding the criminal law's person at the heart of debates about blame guilt and responsibility How is the criminal law's person constructed by whom and with what disciplinary norms How is it threatened by new knowledge and how do those threats play out amongst the various stakeholders who claim the criminal law's person as theirs To address these and cognate questions this volume brings together an international group of academics to engage with the criminal law's person from a range of disciplinary perspectives

Identity, Narcissism, and the Other Jean Arundale, 2018-03-09 Practitioners of psychoanalysis find three central themes to be recurrent and ubiquitous in every analysis firstly issues around identity the struggle to know the self to understand the self and to be the self in an authentic way Intricately entangled with self identity is the problem of narcissism essentially viewed as a defensive retreat to a mental state characterized by an unconscious belief in the special value of the self and the diminution of the Other However there are a multitude of inherent anxieties involved in close and intimate relationships As Freud pointed out even in our most intimate relationships there is an element of hostility Threats to both the self and other and various anxieties around libidinal contact will be examined in this book using case material and the relationship between these three important themes identity narcissism and the other separate but interconnected will be explored

Pathways to Reconciliation Cleo Fleming, 2016-12-05 Reconciliation what makes it possible what impedes it how to foster and promote it and how to build the social conditions in which it can flourish These are pressing questions for an increasingly significant concept in community and international relations This book is a creative engagement with the central terms of reconciliation forgiveness nationhood conflict resolution justice and memory and with approaches to questions of listening and understanding the other It is premised on the view that an essential pathway to the achievement of reconciliation lies in developing and disseminating critical concepts that capture the nuances of practice Drawing on fields in the social sciences and humanities including post structuralism hermeneutics subaltern studies and social theory and elaborated in relation to contemporary sites of conflict and peace making this collection brings together a unique range of perspectives on the complex issue of reconciliation while offering responses to the key questions being asked of it today

Criminal Justice and The Ideal Defendant in the Making of Remorse and Responsibility Stewart Field, Cyrus

Tata, 2023-05-18 This book investigates how defendants are assessed by criminal justice decisionmakers such as judges lawyers probation officers parole board members and those involved in restorative justice What attitudes and emotions are defendants expected to show How are these expectations communicated The book argues that defendants at various stages of the criminal justice process are expected to show a more or less free acceptance of guilt and individual responsibility along with a display of appropriate emotions ideally including genuine remorse It examines why such expressions of individual responsibility and remorse are so important to decision makers and the state With contributors from across the world the book opens new comparative possibilities and research agendas *Sermons Preached in St. Paul's Cathedral* Joseph Barber

Lightfoot, 1891 Socioemotional Development Ross A. Thompson, 1990-01-01 Variations in childhood development are nowhere more conspicuous or important than in the development and expression of emotions A child's capacity to understand another's feelings to experience guilt or shame to manipulate others emotionally to anticipate the response of parents to displays of anger of distress to exercise emotional control all of these are aspects of socioemotional development A concern with it is reflected in the efforts of researchers to understand the long term consequences of the parent infant attachment the effects of maltreatment on young children the influence of congenital disorders on their social and emotional functioning and the origins of depression Thus the topic of socioemotional development has far reaching and fascinating applications to everyday life as the essays in this volume reveal In *Socioemotional Development* leading scholars approach the topic from diverse perspectives summarizing findings and discussing original research They also address a number of broad developmental concerns What are the lasting effects of early influence What can account for the long term consistency of individual characteristics What are the origins of psychological disorders To what extent is emotional experience socially constructed How does biology affect emotion The contributors and their works are Carol Z Malatesta *The Role of Emotions in the Development and Organization of Personality* Inge Bretherton *Open Communication and Internal Working Models Their Role in the Development of Attachment Relationships* Carolyn Saarni *Emotional Competence How Emotions and Relationships Become Integrated* Carolyn Zahn-Waxler and Grazyna Kochanska *The Origins of Guilt* Dante Cicchetti *The Organization and Coherence of Socioemotional Cognitive and Representational Development* Illustrations through a *Developmental Psychopathology Perspective on Down's Syndrome and Child Maltreatment* *Guilt* Salman

Akhtar, 2012-12-22 In this elegantly written book eight distinguished psychoanalysts address the ubiquitous phenomenon of guilt They describe the childhood experiences that form the bedrock of this emotion and delineate various types of guilt including pre-oedipal guilt oedipal guilt survivor guilt separation guilt induced guilt and so on Noting that guilt by itself is neither good nor bad these master clinicians highlight the adverse e.g. self-punishment masochism irritability and potentially positive e.g. reparation helpfulness towards others outcomes of guilt They critically assess previously published findings

review diverse theories and offer illustrative material from treatment of children and adults As a result **Guilt Origins Manifestations and Management** is replete with clinical pearls and highly useful tips for the management of patients driven by feelings of guilt and remorse

A Severe Mercy Mark J. Boda, 2009-06-30 The biblical theological approach Boda takes in this work is canonical thematic tracing the presentation of the theology of sin and its remedy in the canonical form and shape of the Old Testament The hermeneutical foundations for this enterprise have been laid by others in past decades especially by Brevard Childs in his groundbreaking work But **A Severe Mercy** also reflects recent approaches to integrating biblical understanding with other methodologies in addition to Childs's Thus it enters the imaginative space of the ancient canon of the Old Testament in order to highlight the word views and literary shapes of the texts taken individually and as a whole collection For the literary shape of the individual texts it places the word views of the dominant expressions and images as well as various passages in the larger context of the biblical books in which they are found For the literary shape of the texts as a collection it identifies key subthemes and traces their development through the Old Testament canon The breadth of Boda's study is both challenging and courageous resulting in the first comprehensive examination of the topic in the 21st century

Psychological Bulletin, 1907 Caste, Conversion, A Colonial Conspiracy Pt Satish K. Sharma MBCS FRSA, 2021-10-30 Every Hindu walks through life carrying a subliminal guilt that his or her ancestors were caste discriminators and every devout Christian walks tall and proud in the knowledge that his or her ancestors helped to free the crushed downtrodden from the depraved Hindoo caste system and being an accepted truth no one questions it any more What if they are both victims of the same deception of the same multigenerational fraud Almost everyone has heard of the Ancient Hindu Caste system and how horrible it is but what if it wasn't ancient and it wasn't Hindu Almost everyone on the planet knows that the colonialist erasure of indigenous languages and ideas was a horrific chapter in human history but what if it's not over what if it's morphed in to a new form just as devastating and destructive and what if the Caste issue holds the key to revealing it In 2016 the British Hindu community was rocked when it became the target of demonisation and dehumanisation by anti Hindu Anglican Evangelists Allegations were made that caste discrimination was not a relic of history but was present and not only present but rife amongst the British Indian community The author Pt Satish K Sharma a Dharmic Scholar and Theologian and a long serving community worker undertook the task of determining the real history of Caste and of establishing its presence or absence in the 21st century Britain The revelations contained in this work were the revelations which incinerated the false claims which had been levelled revealed the hidden hand behind the anti Hindu media campaign but also provided the context and framework with which this long running civilisational wound could heal This book is essential reading for every Hindu AND every Christian if Caste related suffering is to stop

Understanding And Forgiveness **The Repairable and the Irreparable** Johann Michel,2022-12-19 Since the mid twentieth century Western societies have seen an unprecedented increase in movements demands and policies in favor of reparations The historical catastrophes that shook the last century are both the immediate origin of this groundswell and its founding paradigm The Repairable and the Irreparable Being Human in the Age of Vulnerability places reparation within a wider contemporary context and describes it in its full anthropological depth Repair is a global phenomenon that does not present itself in a unified way Ideas of repair and reparation are expressed at different levels for instance one can mend a damaged object heal a wound redress an injury or make amends for an offence Johann Michel explores how repair and reparation tell us about human beings natural vulnerability our moral fallibility and our social incompleteness but also about the many capabilities we draw upon to mitigate these shortcomings It is from the heart of human finitude that repair and reparation draw meaning and the irreparable whether due to time or to a debt that can never be repaid haunt any policy of reparation Such are the challenges to be addressed by a philosophy of repair and reparation constructed in renewed dialogue with the social sciences *Working with Parents Makes Therapy Work* Kerry Kelly Novick,Jack Novick,2011-05-05 *Working With Parents Makes Therapy Work* demonstrates the crucial role of parent work in child and adolescent therapy The Novicks suggest that restoring the parent child relationship contributes to long lasting therapeutic change in children and adolescents With a multitude of vivid clinical examples the authors provide a practical guide to clinical techniques for integrating parent work with individual child and adolescent treatment *Working With Parents Makes Therapy Work*

demonstrates that parents and therapists can form a strong alliance to support the child's healthy development. Kerry and Jack Novick apply their revised models of the therapeutic alliance and two systems of self-regulation to help parents from evaluation to termination and beyond. The book covers a wide range of situations for instance work with fathers addressing problems of divorce and diverse family structures and many modes of communicating with parents. Family secrets and loyalty conflicts, what happens when parents are troubled, the importance of parents in the lives of teenagers, these are all discussed in detail. Privacy and secrecy are defined and differentiated to clarify the meaning and importance of genuine confidentiality.

Intergroup Relations Sabine Otten, Kai Sassenberg, Thomas Kessler, 2009-06-09 This volume gives a survey of the most recent developments and trends in intergroup research. Diverging from classical approaches that looked at diverse needs and motives, positive distinctiveness, belongingness etc., the present book focuses not only on the question what motivates intergroup behaviour but especially on how the motivation of intergroup behaviour functions. The book focuses on the role of emotion and motivation in the development of intergroup conflict, social exclusion, tolerance and other group-related phenomena. The sections demonstrate how classical theories in the field have been further developed, enriched and more sophisticatedly tested over the years and summarise research on affect and memory. They also develop a group-based self-regulation approach, examine several specific emotions as motivational forces of intergroup behaviour and look at factors of intergroup relations that lead to social change. The chapters are short and easy to comprehend, summaries referring to a broad range of original work, providing a useful resource for advanced students of Social Psychology and researchers in the field of intergroup relations.
