Remote Viewers The Secret History Of Americas Psychic Spies:

Remote Viewers Jim Schnabel, 2011-04-20 Remote Viewers is a tale of the Pentagon's attempts to develop the perfect tool for espionage psychic spies. These psychic spies or remote viewers were able to infiltrate any target, elude any form of security and never risk scratch. For twenty years the government selected civilian and military personnel for psychic ability, trained them and put them to work full time at taxpayers expense against real intelligence targets. The results were so astonishing that the program soon involved more than a dozen separate agencies including the CIA, the Defense Intelligence Agency, the National Security Council, the FBI, the National Security Agency, the Secret Service, the Navy, the Army, the Air Force, the Joint Chiefs of Staff, the Drug Enforcement Agency, the US Customs Service, the US Special Forces Command and at least one Pentagon drug interaction task force. Most of this material is still officially classified. After three years of research with access to numerous sources in the intelligence community including the remote viewers themselves, science writer Jim Schnabel reveals the secret details of the strangest chapter in the history of espionage. The Trickster and the Paranormal George P. Hansen, 2001-08-20 Paranormal and supernatural events have been reported for millennia. They have fostered history's most important cultural transformations, e.g. via the miracles of Moses, Jesus, Mohammed. Paranormal phenomena are frequently portrayed in the world's greatest art and literature as well as in popular TV shows and movies. Most adults in the U.S. believe in them. Yet they have a marginal place in modern culture. No university departments are devoted to studying psychic phenomena. In fact, a panoply of scientists now aggressively denounces them. These facts present a deeply puzzling situation. But they become coherent after pondering the trickster figure, an archaic being found worldwide in mythology and folklore. The trickster governs paradox and the irrational, but his messages are concealed. This book draws upon theories of the trickster from anthropology, folklore, sociology, semiotics and literary criticism. It examines psychic phenomena and UFOs and explains why they are so problematical for science. Face To Face With The Unknown Sherry Hansen Steiger, 2001-04-15 The line that divides fiction from fact is not always as clear as it may seem. Two plus two equals four, right? But what if just once two plus two equaled five? Hard to believe. Absolutely. But for the young people whose stories are related here, that is exactly what happened. Each of them experiences something that simply could not be explained. For instance, two boys forced to spend the night in their car during a bad storm learn the next morning that an eyewitness swears he saw four burly men inside their car scare off a gang. But who were the men? The boys were alone that night. Another time, a teen on the way home from a date comes upon strange alien forms in the road ahead. He chases after them only to discover humanoid imprints in the grass. Not even the local sheriff can explain it. Mysterious sightings, alien encounters, guardian angels, ghostly hauntings, bizarre visitations. In dozens of stories, teens relate real life experiences with the unknown. **Historical Dictionary of United States Intelligence** Michael A. Turner, 2014-10-08 While the United States has had some kind of intelligence capability throughout its history, its intelligence apparatus is young, dating only to the period immediately after

World War II Yet in that short a time it has undergone enormous changes from the labor intensive espionage and covert action establishment of the 1950s to a modern enterprise that relies heavily on electronic data technology satellites airborne collection platforms and unmanned aerial vehicles to name a few This second edition covers the history of United States intelligence and includes several key features Chronology Introductory essay Appendixes Bibliography Over 600 cross referenced entries on key events issues people operations laws regulations This book is an excellent access point for members of the intelligence community students scholars and historians legal experts and general readers wanting to know more about the history of U S intelligence

Technologies for Intuition Alaina Lemon, 2018 Cold War paranoia can only partly describe or explain the 20th century dreams of telepathy The nightmare shades of mind control and crowd frenzy have long alternated with the pastels of love and collective effervescence Both extremes materialized over time along tangled circuits of wars events and interactions staged across borders since at least the 19th century The Cold War and its fences fed fascination with the workings and the failures of contact and communication Opposed sides accused each other of jamming media and spinning propaganda even while they mirrored fantasies of connection This book contrasts and connects Russian and American channels and means to check channels with special attention to intersections of the telepathic with the theatrical It theorizes links between historically layered struggles over technologies for intuition and dominant models of communication commonsense or theoretical It demonstrates that theories resting on models of individual sincerity and of dyadic communication warp understandings of the USSR and Russia and thus of the USA as well It proposes that attention to the means of making and checking contact that is to the phatic functions in language offers a way out of the impasses and paradoxes of paranoia Provided by publisher

The Force Is With Us Thomas Walker, 2014-03-17 Inspired by encounters with his son from beyond the grave Tom Walker went searching for answers He discovered that paranormal phenomena have not only been exhaustively studied but that scientific evidence exists to support it He uncovered numerous scientific studies involving telepathy clairvoyance precognition and psychokinesis as well as government funded scientists who proved their validity Through his research Walker eventually came to the belief that there is a force in the world that makes things happen The force an energy field that permeates the universe forms and sustains all things and is the basis behind paranormal phenomena and alternative forms of healing He describes his provocative conclusions in this book Making compelling connections between ideas like the Great Void and dark matter between Ch i and quantum fields Walker argues that it is our connection with the higher planes of consciousness the fundamental quantum reality that truly makes up the world

One Mind Larry Dossey, MD, 2014-10-07 In *One Mind* New York Times best selling author Larry Dossey M D proposes an inspiring view of consciousness that may reshape our destiny Dossey's premise is that all individual minds are part of an infinite collective dimension of consciousness he calls the One Mind This state which we can all access explains phenomena as diverse as epiphanies creative breakthroughs premonitions of danger or disaster near death experiences communication with other species and with the dead reincarnation the movement of herds flocks and schools and remote healing Dossey presents his theory in easily digestible bite sized vignettes Through engaging stories fascinating research and brilliant insights from great thinkers throughout history readers will explore the outer reaches of human consciousness discover a new way to interpret the great mysteries of our experience and learn how to develop the empathy necessary to engender more love peace and collective awareness The result is a rich new understanding of what it means to be human and a renewed hope that we can successfully confront the challenges we face at this crossroads in human history Even before publication *One Mind* drew praise from the finest minds of our time It has been heralded as landmark a brilliant synthesis a magnum opus a feast of ideas compelling gripping and a major shift in our understanding of consciousness *How the Hippies Saved Physics* David Kaiser, 2012-07-16 *How the Hippies Saved Physics* gives us an unconventional view of some unconventional people engaged early in the fundamentals of quantum theory Great fun to read Anton Zeilinger Nobel laureate in physics The surprising story of eccentric young scientists among them Nobel laureates John Clauser and Alain Aspect who stood up to convention and changed the face of modern physics Today quantum information theory is among the

most exciting scientific frontiers attracting billions of dollars in funding and thousands of talented researchers But as MIT physicist and historian David Kaiser reveals this cutting edge field has a surprisingly psychedelic past How the Hippies Saved Physics introduces us to a band of freewheeling physicists who defied the imperative to shut up and calculate and helped to rejuvenate modern physics For physicists the 1970s were a time of stagnation Jobs became scarce and conformity was encouraged sometimes stifling exploration of the mysteries of the physical world Dissatisfied underemployed and eternally curious an eccentric group of physicists in Berkeley California banded together to throw off the constraints of the physics mainstream and explore the wilder side of science Dubbing themselves the Fundamental Fysiks Group they pursued an audacious speculative approach to physics They studied quantum entanglement and Bell's Theorem through the lens of Eastern mysticism and psychic mind reading discussing the latest research while lounging in hot tubs Some even dabbled with LSD to enhance their creativity Unlikely as it may seem these iconoclasts spun modern physics in a new direction forcing mainstream physicists to pay attention to the strange but exciting underpinnings of quantum theory A lively entertaining story that illuminates the relationship between creativity and scientific progress How the Hippies Saved Physics takes us to a time when only the unlikely heroes could break the science world out of its rut

Radical Transformation Imants Barušs, 2021-01-28 In Radical Transformation Imants Barušs leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves If consciousness has nonlocal properties then how are boundaries between events established If consciousness directly modulates physical manifestation then what is the scope of such modulation If consciousness continues after physical death then how much interference is there from non physical entities As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises The author leads the reader through discussions of meaning radical transformation and subtle activism revealing the unexpected interplay of consciousness and reality along the way

The Divine Matrix Gregg Braden, 2010 THE DIVINE MATRIX Are the miracles that we see in the

quantum world actually showing us our greatest possibilities rather than our scientific limits Could the spontaneous healing of disease an instant connection with everyone and everything and even time travel be our true heritage in the universe There is a place where all things begin the place of pure energy that simply is In this quantum incubator for reality everything is possible In 1944 Max Planck the father of quantum theory shocked the world by saying that this matrix is where the birth of stars the DNA of life and everything between originates Recent discoveries reveal dramatic evidence that Planck's matrix The Divine Matrix is real It is this missing link in our understanding that provides the container for the universe the bridge between our imagination and our reality and the mirror in our world for what we create in our beliefs To unleash the power of this matrix in our lives we must understand how it works and speak the language that it recognizes For more than 20 years Gregg Braden a former senior aerospace computer systems designer has searched for the understanding to do just that From the remote monasteries of Egypt Peru and Tibet to the forgotten texts that were edited by the early Christian church the secret of the Divine Matrix was left in the coded language of our most cherished traditions It is verified in today's science In this paradigm shattering book Gregg shares what he's found Through 20 keys of conscious creation we're shown how to translate the miracles of our imagination into what is real in our lives With easy to understand science and real life stories Gregg shows us that we're limited only by our beliefs and what we once believed is about to change

Havana Syndrome Armin Krishnan, 2025-09-04 Havana Syndrome is most likely caused by unknown types of directed energy weapons either of the acoustic or electromagnetic variety The technology for such weapons has been under development since at least the 1960s The first covert attacks on U S diplomats may go back to that time when the phenomenon was called the Moscow Signal Havana Syndrome A Threat to National Security covers the history of anti personnel directed energy weapons DEW from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward The book examines the publicly known details of Havana Syndrome and provides some analysis of the U S government investigations into Havana Syndrome with respect to what has been declassified The most likely perpetrators are the Russian or Chinese governments as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare to speculate about the true purpose of these mysterious attacks

Conjunction.World Elly Flippen, 2024-10-05 A must read I cannot recommend highly enough Bring a lot of highlighters This book has been blowing me away I d say it s a must read So far it has validated certain thoughts I ve had and experienced regarding OBE NDE UAPs the cover up our history consciousness and brought new ideas forward Very well written and organized with detailed footnotes with references You could almost use it like a guidebook in research It s amazing how much we actually have in common with one another My uncle the renowned Ingo Swann was a man of mystery and intrigue As one of the US Government s top psychic spies he held secrets that few knew and even fewer understood One day he confided in me with a hushed tone and a glint in his eye We are not alone on this planet This wasn t entirely new to me I had encountered numerous inexplicable events but I couldn t believe they were actually real It just seemed too impossible Years later however my curiosity drove me to learn more Amidst this learning adventure I stumbled upon a declassified briefing from 1973 stating a group of Nazis was to blame for releasing an arcane terror upon the world Unless one is deeply rooted in the essence of the divine the paper concludes they will not survive this perilous journey into the ominous world of existence In other words if you want to survive in the actual reality we live in you better be well equipped with some heavy duty light protection After that moment my inquisitiveness was sparked I dove in headfirst compiling theories about non human entities From potential extraterrestrial origins to interdimensional beings I unraveled a complex narrative about advanced technology that could account for the anomalous aerial and aquatic vehicles we have witnessed But my explorations didn t end there I also embarked on a journey to understand the evolution of Remote Viewing also known as psychic spying Along the way I discovered fascinating connections between Remote Viewing UFO bases and encounters with non human beings I then found myself venturing into

mysterious lands shrouded in secrecy Places where barriers and gateways intertwined where haunted spaces lingered and temporal distortions shifted reality I encountered apparitions witnessed unexplainable events and had enigmatic experiences with UFOs UAPs which I began to view as vision quests As my investigation progressed I uncovered hidden secrets about our world first hand accounts of untold tales from the lands where reality blends with the unknown the places where the mirror has cracks
