Pantalla is an innovative textbook for advanced students of Hispanic studies which merges the studies of canonical literary works and their film adaptations. Students are guided through key literary masterpieces spanning from the Renaissance to the present day while at the same time interpreting their film versions. This parallel approach encourages students to develop their analytical skills as they master the terminology of contemporary studies in literature and cinema. Exploring complete works by both male and female authors and directors from Argentina, Chile, Colombia, Costa Rica, Mexico, and Spain, *Letras Hispánicas en la Gran Pantalla* allows students discover the astounding diversity of the Spanish speaking world in a unique and engaging way.

**Travellers and Cosmographers** Joan-Pau Rubiés, 2023-06-14 Joan Pau Rubi s brings together here eleven studies published between 1991 and 2005 that illuminate the impact of travel writing on the transformation of early modern European culture. The new worlds that European navigation opened up at the turn of the 16th century elicited a great deal of curiosity and were the subject of a vast range of writings, much of them with an empirical basis albeit often subtly fictionalized. In the context of intense literary and intellectual activity that characterized the Renaissance, the encounters generated by European colonial activities in fact produced a remarkable variety of images of human diversity. Some of these images were conditioned by the actual dynamics of cross cultural encounters overseas, but many others were elaborated in Europe by cosmographers, historians, and philosophers pursuing their own moral and political agendas. As the studies included here show, the combined effect was in the long term dramatic, interacting with the impact of humanism and of insurmountable religious divisions, travel writing decisively contributed to the transformation of European culture towards the concerns of the Enlightenment. The essays illuminate this process through a combination of general discussions and the contextual analysis of particular texts and debates ranging from the earliest ethnographies produced by merchants travelling to Asia with Vasco da Gama to the writings of Jesuit missionaries researching idolatry in India and China or thinkers like Hugo Grotius seeking to explain the origin of the American Indians.

**The eternity of change: adaptation and legal-institutional reform in situations of redefinition of the State in Spain (1476-1917)** Manuela Fernández Rodríguez, 2024-07-31 This book is a comprehensive exploration of the evolution of laws and institutions in Spain from the reign of the Catholic Monarchs to the dawn of the twentieth century, delving into the rich history of a country that has undergone major transformations over the centuries. The first chapters focus on the transition from medieval to modern times, a period marked by the reign of the Catholic Monarchs. The War of the Castilian Succession, the peace treaties with Portugal, and the incorporation of the Kingdom of Granada are examined in depth. This analysis is not limited to historical facts but also addresses the military, administrative, and cultural consequences of these events. An intermediate chapter deals with dynastic changes and the religious paradigm in the 18th century. The last part deals with the 19th and early 20th centuries. It describes the process of the restoration of the Ancien Régime and the very important consequences this had in terms of the preservation of public order. Then, from a liberal perspective, the integration of revolutionary myths into the institutions of the

time is exemplified This part culminates with a detailed study of the liberal revolts and late absolutism providing a unique insight into this tumultuous period of Spanish history It closes with an analysis of the crisis of the turnist system of the Restoration the effects of the First World War in Spain and the phenomenon of military juntism which provides a valuable insight into the challenges and changes that Spain faced during this period Manuela Fern ndez Rodr guez is a tenured lecturer at the Universidad Rey Juan Carlos in the area of History of Law and Institutions Among the lines of research she has worked on throughout her academic career are those related to security public order and the enjoyment of rights and freedoms in contemporary times Most of her publications focus on the Spanish field although she is also well versed in the institutional framework of the European Union and gamification as co director of the Master s Degree on Gamification Game based Learning and Serious Games at the Universidad Rey Juan Carlos
