Renaissance Of American Medicine A Century Of New Learning And Caring:

The Renaissance of American Medicine Alan C. Mermann, 2001 Mermann is a longtime physician with a keen interest in the history of his profession In this work he looks at the accepted bases of medical practice in the US between 1830 and 1920 While the period saw impressive scientific advances many physicians of the time resisted change and Mermann places an emphasis on men and women who saw a need for improvement through education and intelligent criticism of method and professional status He traces the history of medicine in the Colonial era sets the stage for the changes that would follow and provides biographical essays on 11 famous and more obscure physicians Jacob Bigelow John Young Bassett Henry Ingersoll Bowditch John Hoskins Griscom Oliver Wendell Holmes Elizabeth Blackwell William Henry Holcombe Mary Putnam Jacobi William James Richard Clarke Cabot and Alice Hamilton Annotation copyrighted by Book News Inc Portland OR

The Politics of Public Health in the United States Kant Patel, Mark E Rushefsky, 2015-05-20 Our public health system is primarily concerned with the promotion of health and the prevention of disease But while everyone may agree with these goals in principle in practice public health is a highly contentious policy arena that is inevitably entangled with sensitive issues ranging from occupational safety and environmental hazards to health education immunization and treatment of addiction and sexually transmitted disease Today however concern for protecting the population against bio terrorism and new epidemics such as SARS is tipping the balance back toward increased support for public health This book focuses on the politics policies and methodologies of public health and the twenty first century challenges to the public health system of the United States It explores the system's relatively weak position in the American political culture medical establishment and legal system scientific and privacy issues in public health and the challenges posed by ecological risk and the looming threat of bio terrorist attack Each chapter includes study questions The volume also includes a chronology of major laws and events in public health policy along with an extensive bibliography
