result ever if still only at local levels Meanwhile Jacob Zuma's embattled presidency marred by allegations of corruption and political cronyism sent South Africa's international image plummeting alongside the Rand the national currency This volume sheds light on the current difficulties and discusses future prospects The new South Africa is a country in dire need for change

The African and Conscientization Christian C. Anyanwu, 2012-01-10 The withdrawal of imperial colonizers from Africa in the second half of the 20th century precipitated the need for newly independent African nations to establish political economic and social structures that would ensure the development of cohesive stable and functional nations While Africans yearned for independence once granted the challenges of nation building became apparent immediately Nigeria like many African nations has stumbled through the early postcolonial period with no clear post colonial direction dashing the hopes of its people and undermining confidence in its future This book makes the case that the protracted decades of underdevelopment in Africa and especially Nigeria is traceable to a crisis of leadership that has crystallized in the institutionalization of organized corruption as part of its professional ethos It argues that as a direct consequence of such practices over several decades the population has been dehumanized The situation of Africa in general and Nigeria in particular has been deemed so inimical and colossal that Justice Oputa's panel advised a program of moral action from kindergarten right through to the entire polity Report of the Human Rights Violations Investigation Commission 2002 This is an indictment on the Nigerian population and rightly so because for more than 40 years after independence the country has been through a spiraling crisis in leadership and corruption such that massive looting of the national treasure is unprecedented in the history of developing countries So many attempts have been made in search of national ideology that might spur development This writer is proposing in this vein the implementation of a Conscientization philosophy similar to Paulo Freire's as a viable ideology that would arrest and reverse the deteriorating situation Freire's thought was influenced largely by socio Economic and political situations in Brazil These same ugly and dehumanizing conditions are now generally characteristic of Nigeria Hence Freire's education as practice of freedom is very relevant to the Nigerian situation This dissertation elaborates how to develop and implement the Conscientization philosophy and shows why it would be extraordinarily appropriate in Nigeria in such a way as to contribute to the good society

The Pitfalls of Liberal Democracy and Late Nationalism in South Africa M. Muiu, 2008-12-08 This book compares African and Afrikaner nationalisms to demonstrate that the transition from apartheid to liberal democracy in South Africa was a neo colonial settlement that left the economy and the military and security sectors under the control of the white minority while increasing wide socioeconomic disparities between rich and poor

Foreign Policy in Post-Apartheid South Africa Adekeye Adebajo, Kudrat Virk, 2017-12-18 South Africa is the most industrialized power in Africa It was rated the continent's largest economy in 2016 and is the only African member of the G20 It is also the only strategic partner of the EU in Africa Yet despite being so strategically and economically significant there is little scholarship that focuses on South Africa as a

Contemporary Issues in Africa's Development Ehimika A. Ifidon, Richard A. Olaniyan, 2018-04-18 This volume reports on the state of crisis in Africa in the early twenty first century Africa on the eve of the independence revolution was the continent of hope and high expectations By the third decade of independence optimism had been replaced by dismay African states had been beset by ethno political squabbles military rule civil wars Islamic and insurgent movements extreme poverty and disease With the ascent of redemocratization in the 1990s and of new pan Africanism derived from the formation of the African Union Africa appeared set to claim its vaunted destiny This book asks with hindsight to the first decade of the twenty first century how real was the renaissance in African life If the dismal African condition is a phase in the historical development of Africa this volume does not see any golden age in the past to which Africa aspires to return There is clearly a continuation and persistence of crisis with an absence of good governance personalisation of state power widespread disease and policy failure in education economy and infrastructural development Although endowed with abundant human and natural resources Africa remains the least developed and most indebted continent Whither then the African Renaissance The methodologies that underpin the contributions in this book are as diverse as the specialisations of the contributors The collection questions ideologically protected assumptions and presumptions presenting Africa as it is because it is only by knowing where Africa truly stands that a proper direction can be charted for it

Who Owns Africa? Bekeh Utietiang Ukelina, 2022-11-03 The independence of African countries from their European colonizers in the late 1950s and 1960s marked a shift in the continent's political leadership Nevertheless the economies of African nations remained tied to those of their former colonies raising questions of resource control and the sovereignty of these nation states Who Owns Africa addresses the role of foreign actors in Africa and their competing interests in exploiting the resources of Africa and its people An interdisciplinary team of scholars examines the concept of colonialism from a historical and socio political perspective They show how the language of investment development aid

mutual interest or philanthropy is used to cloak the virulent forms of exploitation on the continent thereby perpetuating a state of neocolonialism that has left many African people poor and in the margins **Deliberative Agency** Uchenna Okeja, 2022-03-15 Public deliberation highly valued by many African societies becomes the cornerstone of a new system of African political philosophy in this brilliant highly original study In **Deliberative Agency** philosopher Uchenna Okeja offers a way to construct a new political center by building it around the ubiquitous African practice of public deliberation a widely accepted means to resolve legal matters reconcile feuding groups and reestablish harmony In cities hometown associations and voluntary organizations carry out the task of fostering deliberation among African groups for different reasons In some instances the deliberation aims to settle disputes In others the aim is to decide the best action to take to address unfortunate incidents such as death Through a measured comparative analysis **Deliberative Agency** argues that the best way to reimagine and harness the idea of public deliberation based on current experiences in Africa is to see it as performance of agency Building a new political center around the practice places agency at the core of a new political life in Africa **The African Union Ten Years After** Muchie, Mammo, Lukhele-Olorunju, Phindil, Akpor, Oghenerobor B. , 2013-10-20 This book looks at the first ten years of the African Union This is the second in a series of books that will be produced each year from annual conferences held on the multi faceted issue of African liberation The key themes of the book explore ways of improving the effectiveness of the African Union fostering unity amongst African countries through entrenchment of pan Africanism and building ownership of the African Union by the African people and their communities In addition the thoughts of key figures of pan Africanism and black emancipation such as Sylvester Williams and Franz Fanon are re positioned to even greater contemporary relevance Through its promotion of Ethiopianism pan Africanism and the African renaissance we trust that this book will add new interest and a fresh perspective to how Africans move forward together into a post colonial era where policies and actions are determined by the united agency of liberated Africans the world over **The Oxford Handbook of the Sociology of Africa** R. Sooryamoorthy, Nene Ernest Khalema, 2023 The Oxford Handbook of the Sociology of Africa presents a comparative analysis of sociological thinking in Africa Focusing on examples from Africa this diverse collection presents to a broad readership an accessible comprehensive up to date and topical analysis of sociological thinking in Africa Sociological discourse about African societies has been challenging and difficult due to a lack of both comprehensive analyses and holistic sociological evidence that covers Africa from past to present This Handbook locates African sociological thinking in historical context and takes a critical look at its current manifestations across the continent **The Face of Africa** Stan Chu Ilo, 2012-12-01 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water

housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development

Routledge Handbook of Organizational Change in Africa Franca Ovadje, Samuel Aryee, 2018-08-06 Although change management and therefore effective adaptation to environmental complexity is considered a uniquely human cultural activity

the extensive change management literature is largely based on the experiences of organizations in the advanced economies of the West. As the economies of African countries become increasingly open, African organizations will need to be agile in order to adapt and grow in a dynamic global environment. Currently, there is a dearth of contextualized knowledge on change management within Africa, but this handbook aims to address this by bringing together a wide range of experts to explore organizational change and change management from an African context. The handbook adopts a multidisciplinary, historical, philosophical, processual, and strategic perspective, as well as empirical accounts of change management. It addresses such issues as: What are the external and internal pressures for change? What is the content and process of change management? What are the essentials of effective change management? How can change management be theorized from an African perspective? What sort of leadership can best align with change management demands in an African context? How do organizations build internal change management capability? It is hoped that answers to these questions contained in the handbook will provide a contextualized understanding of change management which African organizations and scholars can leverage to respond to the threats and opportunities inherent in their increasingly dynamic environment. The handbook should constitute an essential reference for academics, researchers, and advanced students of change management, development studies, and African studies, as well as practitioners.
