Rene Guenon A Teacher For Modern Times:

René Guenon Julius Evola, 1993-09-01 *The Nature of Identitarianism* Göran Dahl, 2023-07-21 The Nature of Identitarianism explores the background to this new far right movement Since its origins in France in 2003 Identitarianism has become one of the most influential far right ideologies Inspiring groups such as Generation Identity in Europe and the Alt Right in America Identitarianism has spawned a far right constellation that includes white nationalist direct action groups think tanks alternative media organizations and social media celebrities But the ideas that underpin Identitarianism are often poorly understood This book examines the movement s antecedents and intellectual lineage in the thinkers of the Conservative Revolution and the European New Right as well as the influence of far right gurus such as Francis Parker Yockey Jean Thiriart Julius Evola and Aleksandr Dugin The author also investigates how conspiracy thinking antisemitism and islamophobia feature prominently in the identitarian worldview This book will be essential reading for scholars and activists alike with an interest in race relations fascism extremism and social movements *The Only Tradition* William W. Quinn, 1997-02-06 Examines the first principles of the perennial philosophy or ancient wisdom tradition as expressed in the writings of its great exponents Rene Guenon and Ananda K Coomaraswamy and offers a critique of the West from the standpoint of traditional principles *Neoliberalism, the Security State, and the Quantification of Reality* David R. Lea, 2016-12-14 As the security state grows in power and dominance commercial and financial interests increasingly penetrate our social existence Neoliberalism the Security State and the Quantification of Reality addresses the relationship between these two trends in its discussion of neoliberalism financialization and managerialism with a particular focus on the decline of professionalism the restructuring of tertiary education and the university s abandonment of the humanities Additionally David Lea links these developments with the failings of democratic institutions the growth of the disciplinary society and the emergence of the security state which relentlessly governs by extraordinary fiat dividing disempowering and excluding Lea identifies one such linkage in the common form of rationality which underlies contemporary approaches to reality Others have noted that one of the most notable political developments of the last thirty years or so has been increasing public and governmental demand for the quantification of social phenomena Moreover A W Crosby has attributed Europe s unprecedented imperial success which began in early European Modernity to a paradigmatic shift from a qualitative world view grounded in Platonic and Neo Platonic idealism to a more quantitative world view Nevertheless this quantitative approach towards the natural and social worlds alienates humans from other species and even from ourselves and fails to represent life as we actually experience it While a quantitative world view may have facilitated imperial success and the interlocking exercise of power and authority by the state and the economically empowered this instrumental form of thinking rationales strategies and facilitates policies that restrict and vitiate individual autonomy to create a seamless controlled conformity This form of thinking that relies on the quantification of natural and social phenomena creates a value

free equivalency which at the same time invidiously divides society into the wealthy and the impoverished the advantaged and the exploited the politically included and the excluded

The Path of Cinnabar Julius Evola, 2009 Julius Evola was a renowned Dadaist artist Idealist philosopher critic of politics and Fascism mystic anti modernist and scholar of world religions Evola was all of these things but he saw each of them as no more than stops along the path to life's true goal the realisation of oneself as a truly absolute and free individual living one's life in accordance with the eternal doctrines of the Primordial Tradition Much more than an autobiography *The Cinnabar Path* in describing the course of Evola's life illuminates how the traditionally oriented individual might avoid the many pitfalls awaiting him in the modern world More a record of Evola's thought process than a recitation of biographical facts one will here find the distilled essence of a lifetime spent in pursuit of wisdom in what is surely one of his most important works

Scripture, Reason, and the Contemporary Islam-West Encounter S. Kepnes, B. Koshul, 2007-08-06 The unique essays in this collection use the underlying allegiance to scripture in Islam Judaism and Christianity to underscore the deep affinities between the three monotheistic traditions while at the same time encouraging respect for the differences between the traditions to be preserved

Class, Culture and the Agrarian Myth Tom Brass, 2014-05-15 Using examples from different historical contexts this book examines the relationship between class nationalism modernity and the agrarian myth Essentializing rural identity traditional culture and quotidian resistance both aristocratic plebeian and pastoral Darwinian forms of agrarian myth discourse inform struggles waged from above and from below surfacing in peasant movements film and travel writing Film depictions of royalty landowner and colonizer as disempowered ordinary or well disposed towards those below whose interests they share underwrite populism and nationalism Although these ideologies replaced the cosmopolitanism of the Grand Tour twentieth century travel literature continued to reflect a fear of vanishing rural otherness abroad combined with the arrival there of the mass tourist the plebeian from home

Magia Sexualis Hugh B. Urban, 2006-10-04 Sexuality and the occult arts have long been associated in the western imagination but it was not until the nineteenth century that a large and sophisticated body of literature on sexual magic the use of sex as a source of magical power emerged This book the first history of western sexual magic as a modern spiritual tradition places these practices in the context of the larger discourse surrounding sexuality in American and European society over the last 150 years to discover how sexual magic was transformed from a terrifying medieval nightmare of heresy and social subversion into a modern ideal of personal empowerment and social liberation Focusing on a series of key figures including American spiritualist Paschal Beverly Randolph Aleister Crowley Julius Evola Gerald Gardner and Anton LaVey Hugh Urban traces the emergence of sexual magic out of older western esoteric traditions including Gnosticism and Kabbalah which were progressively fused with recently discovered eastern traditions such as Hindu and Buddhist Tantra His study gives remarkable new insight into sexuality in the modern era specifically on issues such as the politics of birth control the classification of sexual deviance debates over homosexuality and feminism and the role of sexuality in our own new world

Urban, 2012 Bhadriraju Krishnamurti 1928 is Professor and Head of the department of Linguistics at Osmania University Hyderabad He received a B A Hons Degree 1948 in Telugu language and literature at Andhra University Waltair and an M A 1955 and Ph D 1957 in linguistics from the university of Pennsylvania U S A **Religion after Religion** Steven M. Wasserstrom, 1999-11-15 By the end of World War II religion appeared to be on the decline throughout the United States and Europe Recent world events had cast doubt on the relevance of religious belief and modernizing trends made religious rituals look out of place It was in this atmosphere that the careers of Scholem Eliade and Corbin the twentieth century s legendary scholars in the respective fields of Judaism History of Religions and Islam converged and ultimately revolutionized how people thought about religion Between 1949 and 1978 all three lectured to Carl Jung s famous Eranos circle in Ascona Switzerland where each in his own way came to identify the symbolism of mystical experience as a central element of his monotheistic tradition In this the first book ever to compare the paths taken by these thinkers Steven Wasserstrom explores how they overturned traditional approaches to studying religion by de emphasizing law ritual and social history and by extolling the role of myth and mysticism The most controversial aspect of their theory of religion Wasserstrom argues is that it minimized the binding character of moral law associated with monotheism The author focuses on the lectures delivered by Scholem Eliade and Corbin to the Eranos participants but also shows how these scholars generated broader interest in their ideas through radio talks poetry novels short stories autobiographies and interviews He analyzes their conception of religion from a broadly integrated comparative perspective sets their distinctive thinking into historical and intellectual context and interprets the striking success of their approaches *Dreamer of the Day* Kevin Coogan, 1999 Francis Parker Yockey a lawyer and former war crimes prosecutor was one of the most enigmatic figures inside the far right in both Europe and America While he is best known today for his book Imperium a huge tome often described as a Mein Kampf for modern day neo Nazis his life remains a mystery Pursued by the U S Government for almost a decade Yockey was arrested by the FBI in 1960 Shortly after his capture he was found dead in his jail cell An autopsy showed that the 43 year old mystery man had swallowed a cyanide capsule Yockey s story takes us into the heart of the postwar Fascist International a shadow Reich composed of spies conspirators and occultists **Iranian Intellectuals and the West** Mehrzad Boroujerdi, 1996-11-01 Mehrzad Boroujerdi challenges the way many Americans perceive present day Iran as well as how Iranians view the West He examines the works of thinkers seminal in defining modern Iran virtually unknown in the U S and concludes that Islam was not the primary source of their inspiration Their efforts forge an authentic national identity lay at the heart of Iranian thought These intellectuals both religious and secular appropriated Islam as the vehicle through which they could most effectively challenge or accommodate modernity and Westernization Through such a fitting appropriation Boroujerdi asserts could modern Iranian thinkers lay the foundation for a nativist vision of an unsullied culture seemingly free of Western influence Drawing on the

works of Michel Foucault and Edward Said this book explore how Iranians use their own misunderstandings about the West to form their own identity and in return how Westerns describe Iran in negative terms to help them reaffirm the superiority of their own culture Boroujerdi also argues that Iranian intellectuals have been deeply indebted to Western thought which has served as the cultural reference through which they continue to struggle with issues of identity and selfhood
