Department of the Army, 1969 *Land Rights and Minorities* Roger Plant, 1994-07-01 LAND A QUESTION OF SURVIVAL The process of territorial seizure and loss began centuries ago and continues today Foreign occupation colonisation resettlement nationalisation large scale infrastructural development and wider economic forces have undermined and in some cases obliterated the land security of the world's vulnerable minorities Land is now a key issue in minority claims for protection While some minorities seek restoration of lands lost in the past others struggle to avert future dispossession or demand equality of rights with dominant majorities LAND RIGHTS AND MINORITIES written by the specialist author and consultant Roger Plant addresses the current predicament of the world's minorities with regard to access to and use of land and other natural resources It emphasises the law and policy framework for the recognition of minority land rights and the available procedures through which minorities may formulate their claims Drawing on examples from Africa the Americas Asia Australasia Europe and the Middle East the report demonstrates that the legacy of past discrimination must be addressed through affirmative action and that newly evolving policies should take into account the security of currently or potentially disadvantaged groups Some minorities are in danger of imminent extinction others pursue their demands with vigour Accepting the global imperative of environmentally sustainable land use and management this authoritative Minority

Rights Group report shows how vulnerable minorities will require a range of strategies and responses to ensure their territorial security and ultimately their survival Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Twentieth Century Russia Donald Treadgold,2018-05-04 Donald Treadgold was one of the most distinguished Russian historians of his generation His Twentieth Century Russia a standard text in colleges and universities for several decades has been regularly revised and expanded to reflect new events and scholarship The present revision by Professor Herbert Ellison contains a major chapter on the Yeltsin era and brings the Russian story to the final year of the century Twice in the twentieth century the collapse of the Russian state and empire has been followed by an effort to build a democracy on the Western model The first effort succumbed within a few months to Lenin's communist revolution whose ideas and institutions dominated the history of Russia and eventually much of the world during the succeeding seventy four years In August 1991 an attempt by Soviet leaders to suppress democratic and nationalist movements unleashed by the Gorbachev reforms and already victorious in Eastern Europe precipitated instead an anti communist revolution under the leadership of Boris Yeltsin The revolution and the sweeping transformation that followed are treated in the new edition which assesses the aims and scope of the first decade of Russia's second revolution The transformation included a new constitutional structure two fully democratic parliamentary elections and a presidential election with another of each soon to come a vigorous revival of political parties and political debate and major questions about Russia's political future Against the broad background of the Russian experience over a turbulent century it raises the major questions What are the prospects for Russian democracy Why are the communists following an anti communist revolution the most powerful parliamentary party in Russia's new parliament and what is their impact Why has the conversion to a market economy proved so difficult and painful and what are its prospects How has Russia related to the new states that were once fellow republics of the USSR Why has the foreign policy of the new Russian democracy moved from a vision of partnership with the US to a reality of conflict and confrontation

Twentieth Century Russia poses these questions and many more for the student and the general reader alike against the fascinating background of Russia's experience before during and since the era of communist rule exploring the roots of current developments in the communist and pre communist past

Karen Baker,2013-08-30 Indelible events are often stamped into the consciousness of a nation These events shape individuals and often entire societies in the way they view social cultural political ethical and especially spiritual realities The deportation of entire ethnic groups of the North Caucasus region of southern Russia was an immense operation of the Soviet government

during World War II The Balkarians or Balkars were forcibly taken from their native homelands and deported to distant lands within the Soviet Union They remained in exile for thirteen years The third generation of Balkars since that horrible experience continues to live in the shadow of the atrocities committed against their people This book applies comprehensive research to the facts of the deportation More importantly it examines lingering resentments and current sentiments of the Balkarians through extensive personal interviews with those who experienced the deportation In Karen s many interviews woven throughout the book we learn of several Balkarians who come to faith because of the Deportation such as Ibrahim Gelastanov Ibrahim recounts his memories about the deportation years He cried as he recalled the details of his mother s death within twenty four hours of arriving in a special settlement where she died of starvation Ibrahim tells of the horrors of his capture the fifteen day train ride the forty eight hour boat ride the twenty four hour walk to an unknown destination and the starvation and indignities that he suffered But Ibrahim always attributes his deportation as the means to his salvation into God s family He was the first Balkarian Christian and he remained the lone Balkar Christian for thirty six years The tiny region of Balkaria is tucked into the largest mountain range of Europe the Caucasus Mountains in southern Russia The Balkarians live in the shadow of unthinkable cruelty by the Stalin regime the deportation of their entire people group The deportation was concealed until the late twentieth century due to the secrecy of communism It was also hidden behind the terrors that occurred in Europe during World War II The Balkars have suffered greatly in the last century and they desperately need the peace of God in their hearts This book will bring awareness to the Caucasus peoples and bring more involvement in promoting the work of the Gospel in this unstable area to the unreached peoples [The China Weekly Review](#) ,1928 **Millard's Review of the Far East** ,1928 Vol 34 includes Special tariff conference issue Nov 6 1925
