Russia The Land:

Russia, the Land of the Great White Czar Edith Caroline Phillips, 1904 **Russia - The Land** Greg Nickles, 2000
Introduces the land of Russia including the country's geography history industry agriculture and wildlife Land Reform in Russia, 1906-1917 Judith Pallot, 1999-05-20 Since the collapse of the USSR there has been a growing interest in the Stolypin Land Reform as a possible model for post Communist agrarian development Using recent theoretical and empirical advances in Anglo American research Dr Pallot examines how peasants throughout Russia received interpreted and acted upon the government's attempts to persuade them to quit the commune and set up independent farms She shows how a majority of peasants failed to interpret the Reform in the way its authors had expected with outcomes that varied both temporally and geographically The result challenges existing texts which either concentrate on the policy side of the Reform or if they engage with its results use aggregated official statistics which this text argues are unreliable indicators of the pre revolutionary peasants reception of the Reform *Russia's Agriculture in Transition* Zvi Lerman, 2008-01-01 This book explores the development of factor markets in Russian agriculture during the transition to a market economy identifying the impact of existing constraints on agricultural growth **Russia's Policy Challenges** Stephen K. Wegren, 2016-07-08 Designed for use in courses on contemporary Russia this volume explores Russia's policy dilemmas in three realms international security socio political and socio economic In each of these categories Russia faces daunting problems none of which is likely to be resolved quickly or easily Yet over the longer term the extent to which policymakers are successful in dealing with these challenges will go far in determining Russia's future place in the world how Russians will live and what kind of country Russia becomes Each expertly authored chapter outlines the nature of one major issue traces its evolution and policy developments under the Yeltsin and Putin presidencies and evaluates the effectiveness and prospects of efforts to come to grips with the challenge **Inside Putin's Russia** Andrew Jack, 2005-12-15 Written by Andrew Jack the Moscow Bureau Chief of the Financial Times here is a revealing look at the meteoric rise of Vladimir Putin and his first term as president of Russia Drawing on interviews with Putin himself and with a number of the country's leading figures as well as many ordinary Russians Jack describes how the former KGB official emerged from the shadows of the Soviet secret police and lowly government jobs to become the most powerful man in Russia The author shows how Putin has defied domestic and foreign expectations presiding over a period of strong economic growth significant restructuring and rising international prestige Yet Putin himself remains a man of mystery and contradictions Personally he is the opposite of Boris Yeltsin A former judo champion he is abstemious healthy and energetic but also evasive secretive and cautious Politically he has pursued a predominantly pro western foreign policy and liberal economic reforms but has pursued a hardline war in Chechnya and introduced tighter controls over parliament and the media and his opponents moves which are reminiscent of the Soviet era Through it all Putin has united Russian society and maintained extraordinarily high popularity Jack concludes

that Putin's liberal authoritarianism may be unpalatable to the West but is probably the best that Russia can do at this point in her history. Inside Putin's Russia digs behind the rumors and speculation illuminating Putin's character and the changing nature of the Russia he rules. Andrew Jack sheds light on Putin's thinking style and effectiveness as president. With Putin's second term just beginning this invaluable book offers important insights for anyone interested in the past, present and future of Russia.

Russia's Economic Transitions Nicolas Spulber, 2003-04-10. Russia's Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000. The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations. The second, following the Communist revolution of 1917, brought to power a system of state ownership and administration, a sui generis type of war economy state capitalism subjecting the economy's development to central commands. The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership. The three transitions originated within different settings but with a similar primary goal, namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development. The treatment's originality, impartiality and historical breadth have cogent economic, social and political relevance.

Russia, 1905-07: The Roots of Otherness Teodor Shanin, 1986-07-07. New Russia begins in 1905-07. A revolution which failed was also a moment of truth. By proceeding in a way unexpected by supporters and adversaries alike, it offered a dramatic corrective to their understanding of Russia. In what followed, Russian history was to be dominated by the transforming efforts of monarchists who learnt that only revolution from above could save their tsardom, and by Marxists who, under the impact of revolution which failed, looked anew at Russia and their Marxism. On the opposing sides of the political scale, Stolypin and Lenin came to share a new image of Russia, recognisable today as one of a developing society and to act upon that. While Russia began a new century with a revolution, it is equally true that a new century in world history began with the Russian revolution of 1905-07. Since then, a new type of society and of revolution have been evident throughout the world. Most of the theoretical tools to grasp those environments and changes were first set in Russia of the period described. The book begins with the forces and elements which came together in the 1905-07 revolution. It then presents and analyses the urban struggle, the still little known peasant war, and the relations between those two confrontations. It proceeds to the conclusions drawn from the revolution by the different social classes, parties and leaders, and the way this has shaped Russia's future and consequently of the world today, defining also economics and agrarian reforms, developmentism and communism, liberation struggles and anti-insurgencies.

The Military and Society in Russia, 1450-1917 Eric Lohr, Marshall Poe, 2002-11-01. This book explores the interaction of the Russian military and society in the early modern and modern period. In contrast to straightforward military histories, the volume is concerned with the myriad political, economic and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I. The book begins with an attempt by the editors to provide a

large frame in which to place the various contributions What follows are three topical sections including 22 detailed often archival based monographic articles The first section concerns The Military and Society in Muscovy the second section focuses on The Military and Society in Imperial Russia The third part analyzes Patriotism Nationality Religion and the Military

Handbook of Research on Globalized Agricultural Trade and New Challenges for Food Security Erokhin, Vasili, Gao, Tianming, 2019-10-25

Free trade promotes economic growth through international competition and the efficient allocation of resources while also helping to stabilize food supplies between countries that have an overabundance of product and countries that have a shortage However sudden price surges can threaten the social cohesion of developing countries and may lead to malnutrition and stunted growth Balancing trade liberalization and protectionism is imperative for the provision of food security for all The Handbook of Research on Globalized Agricultural Trade and New Challenges for Food Security is an essential publication that seeks to improve food security food independence and food sovereignty in the conditions of globalized agricultural trade and addresses the contemporary issues of agricultural trade including major commodities and food products traded between major countries directions of trade and trends The book also examines the effects of tariff escalations administrative restrictions other forms of trade protectionism on food security and the emerging trade tensions between major actors such as the US China the EU and Russia Featuring research on topics including plant fertility dietary diversity and protectionism this book is ideally designed for government officials policymakers agribusiness managers

stakeholders international tradesmen researchers industry professionals academicians and students Rediscovering Russia in Asia Stephen Kotkin, David Wolff, 2015-03-04 This work presents a trans Siberian expedition to rediscover the peoples cultures and riches of Russia s eastern frontiers It addresses such questions as who are the people of the region have they a distinct culture and does the area have a future as part of the Pacific Rim **Legal Impediments to Effective Rural Land Relations in Eastern Europe and Central Asia** Roy L. Prosterman, Timothy M. Hanstad, 1999-01-01 Excessive concentration of land ownership as is feared by many transition governments has not been a feature of land markets where they have been allowed to function relatively freely and where land has been allocated in kind to households and individuals The World Bank has long been active in the Europe and Central Asia region in monitoring and evaluating land reform developments and supporting the development of land markets Bank efforts to date have made a significant impact in our client countries and studies produced by the Bank have been used as impartial references on this subject by both international organizations and the countries themselves This report was developed as a result of these efforts It focuses on The principal issues faced by the transition economies of Eastern Europe and the Former Soviet Union The potential approaches for resolving specific problem issues **The Origins of Cultural Differences and Their Impact on Management** Jack Scarborough, 1998-02-18 In cross cultural settings the author suggests it is not enough to know that behavior differs across cultures but also how differences in values drive behaviors To truly understand the differences among cultures one must understand their origins how they emerged on the world stage the various economic political physical social and religious forces that shaped them This is a unique book in that it traces the antecedents of people s behavior and shows readers why cultures differ and includes suggestions for adjusting to these differences Engrossing and revealing Scarborough s book will be essential for corporate management and others involved in international commerce but also for their counterparts in the public sector who also understand why it is necessary to get along with people from other cultures in the pursuit of mutually beneficial goals Scarborough says There may be no greater more significant void in the knowledge of educated adults than cross cultural understanding My book advances that understanding by explaining the reasons why behavior attitudes beliefs and values differ across specific cultures Its premise is that people who interact with others with different cultural backgrounds whether in international or culturally diverse domestic settings are much better prepared if they understand the reasons why people act talk think and feel as they do Instead of being left with just lessons on behavior to be learned by rote readers will be able to rely on a substantive understanding of the cultures and societies in which they find themselves as well as their own good common sense and in this way work more productively and harmoniously with their counterparts abroad **Reports of the Immigration Commission** United States. Immigration Commission (1907-1910), 1911
