Parliament. House of Lords. European Union Committee, 2015 The continuing crisis in Ukraine means that the EU's relationship with Russia has reached a critical juncture and that the EU and

its Member States need fundamentally to reassess it In this report the Committee considers the factors that have contributed to the decline in the EU Russia relationship attempt to draw lessons for the future and consider how the EU and its Member States should respond to a changed geopolitical landscape The Committee also asks how the EU and Member States should engage with Russia in the future based on a sober assessment of the Russia that exists today The majority of the evidence was received between July and December 2014 and the Committee wrote this report in January and February 2015 The Committee s purpose has not been to analyse events in Ukraine as they unfold but rather to consider the causes of the conflict and the implications that go beyond the immediate crisis **Russia** Laura Young,1993-09-01 Soviet Russia

,1920 **Russia's Carnival** Christoph Neidhart,2002-11-13 This colorfully drawn and acutely observed book explores Russia by engaging all our senses Today s Russia smells different from the Soviet Union The country looks and sounds different its touch is different and its food tastes different Thus Christoph Neidhart argues Russia is truly a changed country from the Soviet Union it was little more than a decade ago Russian society is rapidly urbanizing and modernizing as can be perceived by all senses including the awareness of space and the conception of time After almost a century space can be privately owned and freely traded time too has become commodified New role models and new ways to express social status are emerging Russia has become a monetized economy as the old Soviet practice of provision by networking has grown obsolete Russia thus readies itself gradually to grow into a Western style middle class society with a free market and democratic polity The author assesses these rapid changes using the evocative metaphor of the carnival to understand the chaotic inversion of the Communist structure of society He explores the transition s traps and shortcomings such as the privatization of politics and the looting of the state s assets and compares this process to the modernization Western society underwent a century earlier **Russia Before The 'Radiant Future'** Michael Confino,2011-05-01 One of the major historians of prerevolutionary Russia has collected in this volume some of his most important essays Written over a number of years these pioneering works have been revised and updated and are complemented by others being published for the first time Thematically they cover major subjects in Imperial Russian history and in historical writing such as ideas and their role in historical change the intelligentsia the nobility and peasant society and historiography The twelve essays raise cardinal questions about current scholarship on Russian history before the upheavals of 1917 and offer original interpretations that are of interest to the educated layman as well as the professional historian *Blackwood's Edinburgh Magazine* ,1880
