From Vladimir Lenin to Vladimir Putin Vladimir N. Brovkin, 2023-10-13 This book integrates Soviet and post Soviet Russian history into a coherent whole by focusing on the culture role models habits and behavior patterns that provide continuity between various political regimes systems and rulers from Vladimir Lenin to Vladimir Putin The unifying theme of all these periods is the central question of identity how the Russians have defined themselves their country and their values Why did the Bolsheviks try to erase any trace of Old Russia and with what did they try to replace it Why did Stalin wipe out the kulaks and the old Bolsheviks What were the political consequences of the Great Patriotic War on the Russians as people When post Stalin Russia slowly weakened and gave way to the humanism and Westernization that led to the collapse of the Soviet system why did the 1990s generate a resurgence of anti western nationalism And how to explain the slow and steady break with the West under President Putin This will be a core textbook for undergraduate and graduate students of Russian and European history and a valuable text for all those interested in how the Russian past influenced and shaped current
