Soviet Theatre during the Thaw Jesse Gardiner, 2022-11-03 The era known as the Thaw 1953-64 was a crucial period in the history of the Soviet Union It was a time when the legacies of Stalinism began to unravel and when brief moments of liberalisation saw dramatic changes to society By exploring theatre productions plays and cultural debates during the Thaw this book sheds light on a society in flux in which the cultural norms values and hierarchies of the previous era were being rethought Jesse Gardiner demonstrates that the revival of avant garde theatre during the Thaw was part of a broader re engagement with cultural forms that had been banned under Stalin Plays and productions that had fallen victim to the censor were revived or reinvented and their authors and directors rehabilitated alongside waves of others who had been repressed during the Stalinist purges At the same time new theatre companies and practitioners emerged who reinterpreted the stylized techniques of the avant garde for a post war generation This book argues that the revival of avant garde theatre was vital in allowing the Soviet public to reimagine its relationship to state power the West and its own past It permitted the rethinking of attitudes and prejudices and led to calls for greater cultural diversity across society Playwrights directors and actors began to work in innovative ways seeking out the theatre of the future by re engaging with the proscribed forms of the past
