**Vilnius between Nations, 1795-2000** Theodore R. Weeks, 2015-12-04 The inhabitants of Vilnius the present day capital of Lithuania have spoken various languages and professed different religions while living together in relative harmony over the years The city has played a significant role in the history and development of at least three separate cultures Polish Lithuanian and Jewish and until very recently no single cultural linguistic group composed the clear majority of its population *Vilnius between Nations 1795 2000* is the first study to undertake a balanced assessment of this particularly diverse city Theodore Weeks examines Vilnius as a physical entity where people lived worked and died as the object of rhetorical struggles between disparate cultures and as a space where the state attempted to legitimize a specific version of

cultural politics through street names monuments and urban planning In investigating these aspects Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city's identity The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities This study will appeal to scholars of Eastern Europe urban studies and multiculturalism as well as general readers interested in the region

All Russia Is Burning! Cathy A. Frierson, 2012-11-10 Rural fires were an even more persistent scourge than famine in late imperial Russia as Cathy Frierson shows in this first comprehensive study Destroying almost three billion rubles worth of property in European Russia between 1860 and 1904 accidental and arson fires acted as a brake on Russia's economic development while subjecting peasants to perennial shocks to their physical and emotional condition The fire question captured the attention of educated progressive Russians who came to perceive it as a key obstacle to Russia's becoming a modern society in the European model Using sources ranging from literary representations and newspaper articles to statistical tables and court records Frierson demonstrates the many meanings fire held for both peasants and the educated elite To peasants it was an essential source of light and warmth as well as a destructive force that regularly ignited their cramped villages of wooden thatch roofed huts Absent the rule of law they often used arson to gain justice or revenge or to exert social control over those who would violate village norms Frierson shows that the vast majority of arson cases in European Russia were not peasant against gentry acts of protest but peasant against peasant acts of self help law or plain spite Both the state and individual progressives set out to resolve the fire question and to educate cajole or coerce the peasantry into the modern world Fire insurance building codes scientific village layouts and volunteer firefighting brigades reduced the average number of buildings consumed in each blaze but none of these measures succeeded in curbing the number of fires each year More than anything else this history of fire and arson in rural European Russia is a history of their cultural meanings in the late imperial campaign for modernity Frierson shows the special associations of women with fire in rural life and in elite understanding of fire in the Russian countryside Her study of the fire question demonstrates both peasant agency in fighting fire and educated Russians hardening conviction that peasants stood in the way of Russia's advent into the company of prosperous rational civilized nations

Dmitrii Olegovich Shvidkovskii, Shvidkovsky, 2007-01-01 This is the first book to show the development of Russian architecture over the past thousand years as a part of the history of Western architecture Dmitry Shvidkovsky Russia's leading architectural historian departs from the accepted notion that Russian architecture developed independent of outside cultural influences and demonstrates that to the contrary the influence of the West extends back to the tenth century and continues into the present He offers compelling assessments of all the main masterpieces of Russian architecture and frames a radically new architectural history for Russia The book systematically analyzes Russian buildings in relation to developments in European art pointing out where familiar European features are expressed in Russian projects Special attention is directed toward decorations based on Byzantine models the heritage of Italian master builders and carvers the impact of architects and others sent by Elizabeth I the formation of the Russian Imperial Baroque the Enlightenment in Russian art and 19th and 20th century European influences With over 300 specially commissioned photographs of sites throughout Russia and western Europe this magnificent book is both beautiful and groundbreaking      **The Oxford Handbook of Communist Visual Cultures**  
Aga Skrodzka, Xiaoning Lu, Katarzyna Marciniak, 2020-04-01 Stereotypes often cast communism as a defunct bankrupt ideology and a relic of the distant past However recent political movements like Europe's anti-austerity protests the Arab Spring and Occupy Wall Street suggest that communism is still very much relevant and may even hold the key to a new idealized future In The Oxford Handbook of Communist Visual Cultures contributors trace the legacies of communist ideology in visual culture from buildings and monuments murals and sculpture to recycling campaigns and wall newspapers all of which work to make communism's ideas and values material Contributors work to resist the widespread demonization of communism demystifying its ideals and suggesting that it has visually shaped the modern world in undeniable and complex ways Together contributors answer crucial questions like What can be salvaged and reused from past communist experiments How has communism impacted the cultures of late capitalism And how have histories of communism left behind visual traces of potential utopias An interdisciplinary look at the cultural currency of communism today The Oxford Handbook of Communist Visual Cultures demonstrates the value of revisiting the practices of the past to form a better vision of the future      *Evacuee Encounters on the Soviet Home Front During the Second World War*  
Natalie Belsky, 2023-12-19 This study is the first to examine the experiences of the millions of Soviet civilians evacuated to the interior of the country during the Second World War in the context of their encounters and relations with local communities and populations across Soviet Central Asia Kazakhstan Siberia and the Urals The book considers the impact of this episode of massive population displacement across Eurasia on individuals communities and society more broadly It explores how the challenges associated with wartime displacement gave rise to tensions between evacuees and local residents These frictions in turn forced individuals to interrogate the meaning terms and limitations of citizenship and

belonging in the Soviet Union Evacuation thus played a critical role in the changing relationship between citizens and the Soviet state in the war and postwar periods Furthermore this study pays particular attention to the plight of Soviet Jewish evacuees who constitute the largest contingent of Holocaust survivors in Europe and the rise of anti-Semitism on the Soviet home front during the war This volume will be of interest to students and scholars of the Second World War migration and displacement the Holocaust Soviet Jewish history and the Soviet experience more broadly **Burundi** Rene

Lemarchand,1996-01-26 This book offers a wide ranging discussion of the roots and consequences of ethnic strife in Burundi and provides the reader with an appropriate background for an understanding of Burundi's transition to multiparty democracy and the coup and violence that followed **House Life** Donna Birdwell-Pheasant,Denise

Lawrence-Züniga,2020-06-04 This book which fills a gap on the materiality of lived relations examines households within the context of their immediate physical surroundings of home and shows how human interactions are reflected in built forms Houses are dynamic participants in family life in many ways They often pre date the origins and outlast the life spans of their inhabitants but they can exert a powerful influence on the organization of behaviors and the values of family members as well as on the forms and flows of family life across the generations Constituting wealth investment security and inheritance they are an objective in and of themselves in many domestic strategies Drawing on developments within anthropology archaeology architecture and social history the authors demonstrate through detailed case studies how household or family relations can usefully be mined to re-situate social theory in both space and time Space boundaries family cycles historic changes migration patterns ethnicity memory and gender are all interrogated for the light they shed on how people interact with the physical world around them and what this means culturally and symbolically Europe is an especially rich focus for this kind of analysis because it is distinguished by its long well documented history and a recent period of intense change
