Ruthless Leader Three Classics Of Strategy And Power:

The Ruthless Leader Alistair McAlpine, 2000-03-13 The Ruthless Leader What could a fifth century b c Chinese general s treatise on military strategy and a fifteenth century Florentine satirist philosopher s essay on how to be an effective potentate have in common with advice from a former Treasurer and Deputy Chairman of Margaret Thatcher s Conservative Party More to the point what could these texts contain that would be of value to a businessperson trying to get ahead in today s volatile globalized business world Quite a bit as it turns out The Prince The Servant and The Art of War are unrivaled sources for anyone who seeks to understand the elaborate often brutal rituals of strategic conduct in any day and age Each was written by an undeniably perceptive observer of humanity and each offers unvarnished truths about human nature especially as it expresses itself in an organization whether it be political military or corporate In each classic the author builds on his experiences to develop timeless principles for exploiting human foibles in order to promote one s own self interest while at the same time doing what is best for the organizational bottom line In the introduction to The Ruthless Leader Alistair McAlpine weaves a thematic thread that connects the important themes common to all the texts in this trilogy He mines them for their most powerful insights compares them to one another historically and topically and places them in a contemporary context that makes it easy for today s readers to understand how they apply to the day to day working of a modern business organization Call them ruthless or simply pragmatic but these classics comprise an indispensable survival guide for anyone who wants to swim with the sharks without being eaten alive Alistair McAlpine was Treasurer and Deputy Chairman of the Conservative Party for fifteen years under Margaret Thatcher Active in the worlds of commerce and the arts he is a commentator in both fields He was a regular columnist for the Spectator and Express on Sunday and a frequent contributor to a number of national newspapers He is the author of several books including The New Machiavelli Wiley and The Servant Lord McAlpine was for many years the director of his family s construction firm Sir Robert McAlpine supreme excellence consists in breaking the enemy s resistance without fighting The Ruthless Leader [The Leadership Hubris Epidemic](#) Peter Garrard, 2017-10-03 This edited collection surveys and analyses the multidimensional problem of Hubris syndrome and its deleterious effect on leadership within organisations The study develops an extended metaphor of the social and political ill of Hubris as a virulent communicable disease of dysfunctional leadership illustrating its ubiquity and potential for serious harm Taking a biological perspective to understand the possible underlying mechanisms as well as the environments in which hubris has been found to thrive contributors emphasise the notion of prevention over cure Divided into three sections The Leadership Hubris Epidemic examines psychological neuroendocrinological and neuropsychological approaches to the biology of Hubris explores factors that encourage or inhibit its growth and finally provides methods for preventing or retarding its development This book has huge interdisciplinary appeal and scholars of biology psychology sociology management and politics will find the topic extremely useful as well as anyone who is interested in the structure

Wren, R. Riggio, 2009-03-30 A collection of essays by presidents of prominent liberal arts colleges and leading intellectuals who reflect on the meaning of educating individuals for leadership and how it can be accomplished in ways consistent with the missions of liberal arts institutions *Participatory Governance* W. Robert Lovan, Michael Murray, Ron Shaffer, 2017-03-02 In recent years a new participatory governance dynamic has been redefining relationships and responsibilities in the planning and implementation of policies and programs Participatory governance not only crosses public private and associational sectors but is also intra organizational It allows for individual and collective participation and challenges longstanding norms of institutional behavior This book examines fresh evidence relating to planning conflict mediation and public decision making processes in civil society by bringing together a multi disciplinary team of practitioners and scholars from North America Europe Africa and Australia In an analysis which spans institutional perspectives and operational concerns the contributors explore the dynamics of stakeholder involvement as deliberative processes constructed around the core idea of shared responsibility The book draws out important principles as to how this diversity of engagement can translate itself into more effective public decision making **LRP**, 2001 *Islamic Public Law - Islamic Law in Theory and Practice* Ahmed Akgunduz, 2011-11-01 Islamic law contains explications and divisions that imply a classification in terms of public and private law In this book we will explain the outlines of Islamic public law e g First Chapter Islamic constitutional law al siy saḥ al shar iyyah and administrative law al siy saḥ al shar iyyah Second Chapter penal law al uq b t Third Chapter financial law zak t ushr ar j and other taxes Fourth Chapter trial law qa and Fifth Chapter international public law al siyar The fields of especially Islamic constitutional law administrative law financial law ta z r penalties and

arrangements concerning military law based on the restricted legislative authority vested by Shar'ah rules and those jurisprudential decrees based on secondary sources like customs and traditions and the public good *maslahah* all fell under what was variously called public law *al-siyasah al-shariyyah* Shar'ah policy *qanun* legal code *qanun* *mahorfuq* etc Since these laws could not go beyond Shar'ah principles either at least in theory they should not be regarded as a legal system outside of Islamic law But Islamic penal law financial law trial law and international law depend mostly on rules that are based directly on the Qur'an and the Sunnah and codified in books of *fiqh* Islamic law called Shar'ah rules *Shar'i sharf* or Shar'ah law Such rules formed 85% of the legal system In this book we will focus on some controversial problems in the Muslim world today such as the form of government in Islamic law and the relation between Islam and democracy Islamic law does not stipulate a certain method of state government nonetheless we may say that the principles it decrees and its concept of sovereignty suggest a religious republic As a matter of fact *ulaf al-Rashid* the Rightly Guided Caliphs were both caliphs and religious republican presidents We could say that this book has three main characteristics i We have tried to base our explanations directly on the primary Islamic law sources For example after reading some articles on the caliphate or *tmr* system in articles or books by some Western scholars and even by some Muslim scholars one might conclude that there are different views on these subjects among Muslim scholars This is not true Muslims have agreed on the basic rules on legal subjects but there are some conflicts regarding nuances and interpretations If one reads works by *Imam Gazzali* *Ibn Taymiyyah* *al-Mawardi* and *al-Farr* one will not find any disagreement on the main rules but there are some different interpretations of some concepts We have tried to discover where they agreed and we have sometimes pointed to where they differed ii We have researched practices of Islamic law especially legal documents in the Ottoman archives For example we explain *addi sariqa* but also mention some legal articles from the Ottoman legal codes *qanunnames* and some Shar'ah court decisions like legal decrees *ilm al-shariyyah* It is well known that nobody can understand any legal system without implementing and practicing it That also holds for Islamic law because theory alone does not yield a complete understanding of Shar'ah rules iii We have worked hard to correct some misconceptions and misunderstandings about Islamic law That is why we appeal to the primary sources For example some scholars claim that the *anaf* jurist *Imam Sara's* did not accept the idea of punishment for apostasy We have studied his work *al-Mabtasit* and found this claim to be unfounded The comparison between *tmr* and *fief* is another example because the *tmr* system is different from the *fief* system Some scholars confuse the concept of sovereignty and governance The Islamic state is not a theocratic state in the sense in which Europeans understand the term
