

Sacramento Valley Railroad

"First in the West"

In 1852, shortly after the Gold Rush, forward-thinking businessmen led by Charles Wilson incorporated the Sacramento Valley Railroad (SVRR), the first railroad west of Missouri. Wilson hired 28-year old Theodore Judah to design the alignment which runs along R Street in Sacramento and the open flat land that is today's Folsom Boulevard.

Built in 1855-1856 along the south bank of the American River with eventual plans to continue over the Sierra Nevada Mountains, the 23-mile SVRR was constructed from English iron, 5-foot gauge rails laid two blocks at a time. By January 1856, the SVRR had reached Granite City (today's Folsom), and Judah was off to larger projects with the famed Big Four and what would become the Transcontinental Railroad.

Meanwhile, passing through rich farmland and open prairie, local railroad stations were soon established along the SVRR at Routier, Mills and Citrus to enable Rancho Cordova farmers to get their produce to market.

In 1862, during the Civil War, Abraham Lincoln signed the Pacific Railroad Act, spurring the creation of the nation's first transcontinental railroad. Bypassed by the newly incorporated Central Pacific Railroad constructed from Sacramento over Donner Pass to the north, the SVRR built its final extension -- the Placerville & Sacramento Valley Railroad (built 1863-1865), from Folsom to Placerville, in a failed attempt to beat their rival over the mountains and fulfill SVRR's original vision.

Known as the Southern Pacific "Placerville Branch" since 1898, and in continuous operation since 1856, the Union Pacific Railroad still carries freight along a portion of this route. During the 1950s through the 1970s, the rail supported Cold War and Space Race efforts at both Mather AFB and Aerojet, making Rancho Cordova something of a Cold War boomtown. The historic Mills Station Building was relocated and rebuilt, and light rail transit service was opened to the Mather/Mills Station in 2002 by Sacramento Regional Transit to serve a burgeoning Rancho Cordova job center, further evolving the economic importance of rail along the Rancho Cordova Heritage Corridor.

The work engages with themes of industrialization, natural resource exploitation, and the interplay between progress and environmental degradation, situating itself firmly within the broader context of American industrial history and its implications on race and society during the late 19th and early 20th centuries. Stuart Daggett, a prominent historian of railroad history, draws upon his extensive academic background and personal interest in the American West. His passion for historical accuracy and detail is evident throughout the text as he closely examines how the Southern Pacific's development influenced settlement patterns and economic growth. Daggett's work is not merely a recounting of events; it serves as a critical reflection of how transportation networks transform landscapes and communities. This book is an essential read for anyone interested in the history of American railroads, industrialization, or the evolution of the Western United States. Frontier Comrades Jim Wilke, When Railroads Were New Charles Frederick Carter, 1909 Settlers of the American West Mary Ellen Snodgrass, 2015-03-10. Depictions of the American west in literature, art, and film perpetuate romantic stereotypes of the pioneers: the gold-crazed 49er, the intrepid sodbuster, the woodsman, the farmwife, and the lawman. This tunnel vision of American history has shortchanged the whaler, the assayer, the innkeeper, and the inventor. The westward advance of the trailblazers created demand for a gamut of unsung adventurers: surveyors, financiers, politicians, surgeons, entertainers, grocers, and midwives who built communities and businesses in the wilderness amid clashes with Indians, epidemics, floods, droughts, and outlawry. Chronicling the worthy deeds, ethnicities, languages, and lifestyles of ordinary people who survived a stirring period in American history, this book provides biographical information for hundreds of individual pioneers on the North American frontier, from the Mississippi River Valley as far west as Alaska. Appendices list pioneers by state or country of departure, destination, ethnicity, religion, and occupation. A chronology of pioneer achievements places them in perspective.
