Founding Territorial Cults in Early Japan G. Domenig,2023-12-11 The first book that deals with the territorial cults of early Japan by focusing on how such cults were founded in ownerless regions Numerous ancient Japanese myths and legends are discussed to show that the typical founding ritual was a two phase ritual that turned the territory into a horizontal microcosm complete with its own terrestrial heaven inhabited by local deities Reversing Mircea Eliade s popular thesis the author concludes that the concept of the human made horizontal microcosm is not a reflection but the source of the religious concept of the macrocosm with gods dwelling high up in the sky The open access publication of this book has been published with the support of the Swiss National Science Foundation

Being the Church Edward Rommen,2017-07-18 If the divine liturgy really is as beautiful as we claim wouldn t more people attend Wouldn t the church grow Driven by our desire for growth we count we analyze we make charts and we strategize but often with few discernible results That is probably the result of focusing on secondary

aspects of church life As we know the very existence of a church is a gift of God s presence and not the result of any particular actions taken by human beings For that reason church is primarily about being something rather than doing or achieving something So the growth of the church is not reflected in ever increasing numbers dollars and activities but rather in steadily growing conformity to the divine ideal So in order to evaluate ecclesial growth we will first have to ask what the church is supposed to be One answer to that question is captured in the four marks of the church given in the creed Oneness Holiness Catholicity and Apostolicity These four characteristics serve as a matrix or framework within which we can focus on the primary aspects of ecclesial being and help it grow and become what it was intended to be Divine Revelations and Manifestations Steven Taga Mapepa, 2018-05-26 Do you know the greatest mystery of all mysteries and the greatest secret of all secrets that is concealed in all creation that holds all the sacred secrets and mysteries of life We are all students of life learning lifes sacred secrets and mysteries in a universal class We have a lot to learn that we do not know yet The life experience is our greatest teacher who silently speaks to us Life is an adventure filled with explorations investigations and discoveries of new knowledge It is an odyssey toward the Holy Grail
