The Theology of Priesthood Donald J. Goergen, Ann Garrido, 2017-02-28 By engaging in conversation with those whose experience perspectives and theological traditions vary from their own the contributors to *The Theology of Priesthood* explore in detail the fundamental questions being asked about the ordained priesthood today Priests deacons and students of theology will find these articles an engaging means to understanding Church ministry and priesthood more deeply *The Theology of Priesthood* includes ten essays that explore facets of ordained ministry and the ministerial priesthood Paul Philibert OP begins with an overview of issues involved in the contemporary discussion on priesthood within the Roman Catholic tradition Frank Quinn OP addresses the significance of language as it pertains to priesthood and ministry and how language is manifested in rites of ordination Thomas O Meara OP situates the discussion on priesthood within the context of an expansion of ministry in the Church since Vatican II and the implications of this expansion for ministry in the future Stephen DeLeers articulates a theology of priesthood grounded in Vatican II and post Vatican II documents which focuses on the primacy of preaching Thomas Rausch SJ then takes up the issue of diversity within ministerial priesthood as he reflects on priesthood within the context of apostolic religious life Jack Risley OP returns to the question of the relationship between ordained ministry and lay ministry The final three articles reflect on ordained ministry from distinctive perspectives Benedict Ashley OP takes the Letter to the Hebrews as his starting point Paul Wesche looks at priesthood through the lens of an Eastern Orthodox priest Donald Goergen OP asks what insights African theology specifically African Christology might offer a contemporary Catholic theology of priesthood Paul Philibert OP provides a concluding reflection Donald J Goergen OP is a preacher teacher lecturer author and theologian who taught systematic theology for many years He was also previously the provincial for the Dominican friars of the Central Province He is the editor of *A Theology of Jesus* series and *Being a Priest* Today published by Liturgical Press      **Islam and the Americas** Aisha Khan, 2017-01-10 This volume edited by Aisha Khan explores Muslims lived experiences in the Western Hemisphere and the ways in which Islam has been codified in the New World by Muslim minority societies using disparate case studies from the Caribbean Suriname Brazil Mexico and others in the Atlantic World      **Roman Festivals in the Greek East** Fritz Graf, 2015-11-05 This book explores how festivals of Rome

were celebrated in the Greek East and their transformations in the Christian world      **Blood Relations** Chris Knight,1995-05-24 The emergence of symbolic culture is generally linked with the development of the hunger gatherer adaptation based on a sexual division of labor This original and ingenious book presents a new theory of how this symbolic domain originated Integrating perspectives of evolutionary biography and social anthropology within a Marxist framework Chris Knight rejects the common assumption that human culture was a modified extension of primate behavior and argues instead that it was the product of an immense social sexual and political revolution initiated by women      A-E Library of Congress. Office for Subject Cataloging Policy,1990      **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office,2003      *Themes in Religion and American Culture* Philip Goff,Paul Harvey,2004 Designed to serve as an introduction to American religion this volume is distinctive in its approach instead of following a traditional narrative the book is arranged thematically Eleven chapters by top scholars present in carefully organized and accessible format      *Paul, Founder of Churches* James Constantine Hanges,2012 Expanded from the author s dissertation University of Chicago 1999      Initiation into the Mysteries of the Ancient World Jan N. Bremmer,2014-07-28 The ancient Mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the Reformation After a period of interest around the turn of the twentieth century recent decades have seen an important study of Walter Burkert 1987 Yet his thematic approach makes it hard to see how the actual initiation into the Mysteries took place To do precisely that is the aim of this book It gives a thick description of the major Mysteries not only of the famous Eleusinian Mysteries but also those located at the interface of Greece and Anatolia the Mysteries of Samothrace Imbros and Lemnos as well as those of the Corybants It then proceeds to look at the Orphic Bacchic Mysteries which have become increasingly better understood due to the many discoveries of new texts in the recent times Having looked at classical Greece we move on to the Roman Empire where we study not only the lesser Mysteries which we know especially from Pausanias but also the new ones of Isis and Mithras We conclude our book with a discussion of the possible influence of the Mysteries on emerging Christianity Its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the Mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient Mysteries      *Sacred Forests of Asia* Chris Coggins,Bixia Chen,2022-05-30 Presenting a thorough examination of the sacred forests of Asia this volume engages with dynamic new scholarly dialogues on the nature of sacred space place landscape and ecology in the context of the sharply contested ideas of the Anthropocene Given the vast geographic range of sacred groves in Asia this volume discusses the diversity of associated cosmologies ecologies traditional local resource management practices and environmental governance systems developed during the pre colonial colonial and post colonial periods Adopting theoretical perspectives from political ecology the book views ecology and polity as constitutive elements interacting within local regional and global networks Readers will find the very first systematic comparative analysis of

sacred forests that include the karchall mabhuy of the Katu people of Central Vietnam the leuweng kolot of the Baduy people of West Java the fengshui forests of southern China the groves to the goddess Sarna Mata worshiped by the Oraon people of Jharkhand India the mauelsoop and bibosoop of Korea and many more Comprising in depth field based case studies each chapter shows how the forest s sacrality must not be conceptually delinked from its roles in common property regimes resource security spiritual matters of ultimate concern and cultural identity This volume will be of great interest to students and scholars of indigenous studies environmental anthropology political ecology geography religion and heritage nature conservation environmental protection and Asian studies
