Sacred And Secular Religion And Politics Worldwide:

Sacred and Secular Pippa Norris, Ronald Inglehart, 2004-09-20 Seminal thinkers of the nineteenth century Auguste Comte Herbert Spencer Emile Durkheim Max Weber Karl Marx and Sigmund Freud all predicted that religion would gradually fade in importance and cease to be significant with the emergence of industrial society The belief that religion was dying became the conventional wisdom in the social sciences during most of the twentieth century During the last decade however the secularization thesis has experienced the most sustained challenge in its long history The traditional secularization thesis needs updating Religion has not disappeared and is unlikely to do so Nevertheless the concept of secularization captures an important part of what is going on This book develops a theory of secularization and existential security Sacred and Secular is essential reading for anyone interested in comparative religion sociology public opinion political behavior political development social psychology international relations and cultural change *Sacred and Secular* Pippa Norris, 2004 The belief that religion was dying became the conventional wisdom in the social sciences during most of the 20th century However religion has not disappeared and is unlikely to do so and the secularization thesis needs updating This text develops a theory of secularization and existential security Sacred and Secular Pippa Norris, 2004 **Sacred and Secular** Pippa Norris, 2004-09-27 Sacred and Secular examines the validity of the secularization thesis **Sacred and Secular** Associate Director of the Joan Shorenstein Center Pippa Norris, Pippa Norris, Ronald Inglehart, 2011 This book develops a theory of secularization and existential security demonstrating that the publics of virtually all advanced industrial societies have been moving toward more secular orientations during the past fifty years but also that the world as a whole now has more people with traditional religious views than ever before Political Secularism, Religion, and the State Jonathan Fox, 2015-04-16 This book examines 111 types of state religion policy in 177 countries between 1990 and 2008 Jonathan Fox argues that policy is largely a result of the competition between political secular actors and religious actors both of which try to influence state religion policy While there are other factors that influence state religion policy and both the secular and religious camps are divided Fox offers that the secular religious competition perspective provides critical insight into the nature of religious politics across the globe While many states have both increased and decreased their involvement in religion Fox demonstrates that states which have become more involved in religion are far more common *The ^AOxford Handbook of Religion, Conflict, and Peacebuilding* Atalia Omer, R. Scott Appleby, David Little, 2015-03-02 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field **Religion and Radical Pluralism** Jeff Shawn Jose, 2023-05-30 In *Religion and Radical Pluralism* Engaging Rawls and Gandhi Jeff Shawn Jose confronts the question of the role of religion in the public sphere through the writings of John Rawls and Mahatma Gandhi Jose explores Rawls's and Gandhi's contrasting and complementary views through the framework of three

objections integrity fairness and divisiveness against a view of public reason that restricts the expression of religious arguments in the public sphere The book introduces Gandhi s ideas into Rawls s political liberal framework and brings Rawls s ideas into the Gandhian religious framework a critical and creative encounter where the relationship between Gandhian and Rawlsian approaches becomes a fertile ground for reciprocal dialectical reflections Religion and Radical Pluralism teases out and evaluates the tensions and prospects in Rawls s and Gandhi s views on the role of religion in the public sphere thus offering a pertinent contribution to the study of radical pluralism in contemporary societies

Weapon of Peace Nilay Saiya,2018-08-23 Religious terrorism poses a significant challenge for many countries around the world Extremists who justify violence in God s name can be found in every religious tradition and attacks perpetrated by faith based militants have increased dramatically over the past three decades Given the reality of religious terrorism today it would seem counterintuitive that the best weapon against violent religious extremism would be for countries and societies to allow for the free practice of religion yet this is precisely what this book argues Weapon of Peace investigates the link between terrorism and the repression of religion both from a historical perspective and against contemporary developments in the Middle East and elsewhere Drawing upon a range of different case studies and quantitative data Saiya makes the case that the suppression and not the expression of religion leads to violence and extremism and that safeguarding religious freedom is both a moral and strategic imperative

Global Secularisms in a Post-Secular Age Michael Rectenwald,Rochelle Almeida,George Levine,2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included

Human Security and International Insecurity Georg Frerks,Berma Klein Goldewijk,2023-08-28 Human security is about everyday realities of violent conflict and poverty humanitarian crises epidemic diseases injustice and inequality It is about freedom from fear and freedom from want It is much different from state related security with its emphasis on military force territory and sovereignty Human security places the security of individuals communities and global humanity ahead of the security concerns of the state How does human security relate to

international security Can human security still be advanced in a global climate of intrastate conflict the war on terror and increasing nuclear tensions This book challenges prevailing security thinking and explores basic standards of humanity This multi authored book deals with the origins and developments of human security as a concept and how it is used in policy practice It presents new approaches by focusing on alternative discourses the actors involved and the new forms of governance that are required It outlines the challenges human security faces in different parts of the world due to conflict terrorism and new wars globalisation and the resurgence of religion development cooperation environmental problems and the role of science Facing the challenges this book aims to raise human security out of the status of a contemporary problematique by bringing it closer to a realistic solution I am convinced that this book provides an original contribution and a further impetus to developing well grounded academic and policy responses to world wide problems that so urgently require solutions M S Swaminathan President Pugwash Conferences on Science and World Affairs

Rethinking the Religious Factor in Foreign Policy Maria Toropova, 2022-01-11 The authors of this book analyze the mechanisms and strategies that allow specific religious actors to affect the foreign policy agenda and decisions of the countries in which they are active Paying special attention to events and phenomena that have had a decisive impact on regional and global development this book provides an international outlook on how the activities of religious actors can influence foreign policy The research subject was inspired by the idea of identifying what dynamics are occurring and whether there are any discernible trends
