Land and Temple Benjamin D. Gordon, 2020-04-06 This exploration of the Judean priesthood's role in agricultural cultivation demonstrates that the institutional reach of Second Temple Judaism 516 BCE-70 CE went far beyond the confines of its houses of worship while exposing an unfamiliar aspect of sacred place making in the ancient Jewish experience Temples of the ancient world regularly held assets in land often naming a patron deity as landowner and affording the land sanctity protections Such arrangements can provide essential background to the Hebrew Bible's assertion that God is the owner of the land of Israel They can also shed light on references in early Jewish literature to the sacred landholdings of the priesthood or the temple

Sacred Land, Sacred View Robert S. McPherson, 1992 Dramatic geographical formations tower over the Four Corners country in the southwestern United States The mountains cliffs and sandstone spires familiar landmarks for Anglo travelers orient Navajos both physically and spiritually In *Sacred Land Sacred View* Robert McPherson describes the mythological significance of these landmarks Navajos read their environment as a spiritual text the gods created the physical world to help teach and protect people through an integrated system of beliefs represented in nature The author observes that the Middle East is of no greater import to Christians than the Dine's holy land is to Navajos He continues Sacred mountains circumscribe the land containing the junction of the San Juan River and Mancos Creek where Born for Water invoked supernatural aid to overcome danger and death and where at the Bear's Ears formation good triumphed over evil The more one learns about the Dine the more one inevitably admires their way of perceiving and interpreting what lies just beyond the focus of human vision Their renowned respect for nature and way of living in harmony with the environment derive from their religious traditions

Refuge in Crestone Aaron Thomas Raverty, 2014-06-18. As globalization proceeds at an ever-increasing and more unrelenting pace, relations among the world's religions are taking on both a new visibility and a new urgency. Christian theologians and others intent on innovative formulations in the theology of religions are making interreligious dialogue with non-Christians a priority. One way to promote creative scholarship in this quest is to tap into interdisciplinary resources, and the author of this volume is uniquely qualified to do so, since he holds graduate degrees in both theology and cultural anthropology. Aaron Thomas Raverty's *Refuge in Crestone: A Sanctuary for Interreligious Dialogue* elucidates how the praxis of interreligious dialogue, as outlined in key Vatican documents in the Catholic Church, could be better served by attending to the qualitative ethnographic methods of sociocultural anthropology. Because the material, behavioral, and cognitive aspects of dialogue, as revealed in daily

life common social and political action religious experience and theological exchange are embedded in culture they are amenable to ethnographic analysis Using the unique multi religious Colorado site of Crestone and its environs as a fieldwork laboratory and self described Refuge for World Truths the ethnographic data gleaned from this project exemplify the creative interdisciplinary contributions of anthropology to theologizing It seeks to demonstrate using an empirical multi religious community as its focus how anthropology can support interreligious dialogue The results of such dialogue could not only assist the scholarly community by helping theologians arrive at new formulations in the burgeoning area of the theology of religions but might also serve the more practical goal of promoting peace as an alternative to violence in today s complex and sorely troubled world

A Different God? Renate Schlesier,2011-12-23 Within modern frameworks of knowledge and representation Dionysos often appears to be atypical for ancient culture an exception within the context of ancient polytheism or even an instance of a difference that anticipates modernism How can recent research contribute to a more precise understanding of the diverse transformations of the ancient god from Greek antiquity to the Roman Empire In this volume which is the result of an international conference held in March 2009 at the Pergamon Museum Berlin scholars from all branches of classical studies including history of scholarship consider this question Consequently this leads to a new look on vase paintings sanctuaries rituals and religious political institutions like theatre and includes new readings of the texts of ancient poets historians and philosophers as well as of papyri and inscriptions It is the diversity of sources or methods and the challenge of former views that is the strength of this volume providing a comprehensive innovative and richly faceted account of the different god in an unprecedented way
