**Spiritually Integrated Psychotherapy** Kenneth I. Pargament, 2011-07-01 From a leading researcher and practitioner this volume provides an innovative framework for understanding the role of spirituality in people's lives and its relevance to the work done in psychotherapy. It offers fresh practical ideas for creating a spiritual dialogue with clients, assessing spirituality as a part of their problems and solutions, and helping them draw on spiritual resources in times of stress. Written from a nonsectarian perspective, the book encompasses both traditional and nontraditional forms of spirituality. It is grounded in current findings from psychotherapy research and the psychology of religion and includes a wealth of evocative case material.

*Spirit-Driven* Kathleen Lizardi-Calhoun, 2017-11-21 God is accessible to all those who seek Him. Enter the chamber room of God as you are. One present moment with the Eternal Presence brings transformation, power that cannot be acquired by our own strength but through His grace. Heaven unleashes all its resources in order for us to live a victorious life and overcome anything that holds our soul captive. We enter the throne room of our Heavenly Father and through the righteousness of Christ we can claim all that the Son won for us on Calvary.

**Religion in Vogue** Lynn S. Neal, 2019-12-17 Shows how the fashion industry in the mid to late twentieth century created a particular way of seeing religion as fashionable. From cross necklaces to fashion designs inspired by nuns' habits, how have fashion sources interpreted Christianity? And how in turn have these interpretations shaped conceptions of religion in the United States? Religion in Vogue explores the intertwined history of Christianity and the fashion industry. Using a diverse range of fashion sources including designs, jewelry, articles in fashion magazines, and advertisements, Lynn S. Neal demonstrates how in the second half of the twentieth century the modern fashion industry created an aestheticized Christianity, transforming it into a consumer product. The fashion industry socialized consumers to see religion as fashionable and as a beautiful lifestyle accessory, something to be displayed, consumed, and experienced as an expression of personal identity and taste. Religion was something to be embraced and shown off by those who were sophisticated and stylish and not solely the domain of the politically conservative. Neal ultimately concludes that through aestheticizing Christianity the fashion industry has offered Americans a means of blending traditional elements of religion, such as ritual practice, miraculous events, and theological concepts, with modern culture, revealing a new dimension to the personal experience of religion.

Essay on Time Henri Hubert, 1999 Time as we experience it is a social and cultural phenomenon. The pioneering study of the social representation of time was by Henri Hubert, 1872-1927. Hubert was a core member of the group who worked with Émile Durkheim and a close collaborator with Marcel Mauss. His essay on time is a good example of the group's originality and intellectually creative collective ferment. This is its first English translation and includes its review by Mauss.
