Every Sunday we walk through those doors and enter a sacred space It is familiar maybe comforting or maybe not It might be downright uncomfortable and unwelcoming What can we do about it In twelve thoughtful and provocative essays the writers ask important questions about the relationship between sacred spaces and the worship that takes place in them How do our buildings convey a vision of God s kingdom on earth How are our places of worship reflecting our beliefs In what visible tangible forms are we proclaiming a faith in the living God How are our church buildings helping this church bring the Gospel into a new century *General Catalogue of Printed Books to 1955* British Museum. Dept. of Printed Books,1967

Sacred Power, Sacred Space Jeanne Halgren Kilde,2008-07-21 Jeanne Halgren Kilde s survey of church architecture is unlike any other Her main concern is not the buildings themselves but rather the dynamic character of Christianity and how church buildings shape and influence the religion Kilde argues that a primary function of church buildings is to represent and reify three different types of power divine power or ideas about God personal empowerment as manifested in the individual s perceived relationship to the divine and social power meaning the relationships between groups such as clergy and laity Each type intersects with notions of Christian creed cult and code and is represented spatially and materially in church buildings Kilde explores these categories chronologically from the early church to the twentieth century She considers the form organization and use of worship rooms the location of churches and the interaction between churches and the wider culture Church buildings have been integral to Christianity and Kilde s important study sheds new light on the way they impact all aspects of the religion Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice church buildings are in Kilde s view dynamic participants in religious change and goldmines of information on Christianity itself **Sacred Spaces** Guillaume de Laubier,2018-10-16 From St Peter s Basilica in Rome to Notre Dame in Paris Christian churches represent some of our most significant architectural achievements designed to evoke wonder and awe Offering unprecedented access to a collection of revered religious landmarks photographer Guillaume de Laubier takes readers on a stunning architectural tour Sacred Spaces showcases breathtaking photographs of extraordinary churches and cathedrals revealing original illuminating views of icons such as la Sagrada Familia in Barcelona while also shedding light on lesser known sites such as Saint Basil s Cathedral in Moscow Whether Catholic Protestant or Orthodox made of wood stone concrete or glass Roman Gothic Baroque or modern the places of worship featured in this richly produced volume present an extraordinary overview of our architectural and cultural history **Sacred Space** Dennis McNally,1985 *Closer to God*
