Sacrificed For Honor Italian Infant Abandonment And The Politics Of Reproductive Control:

Sacrificed for Honor David I. Kertzer, 1993 Il volume descrive il fenomeno dell'abbandono dei figli da parte delle madri nubili in Italia nel XIX secolo Policing Women Jo Turner, Helen Johnston, Marion Pluskota, 2023-11-27 Policing Women examines for the first time the changing historical landscape of women's experiences of their contact with the official state police between 1800 and 1950 in the Western world Drawing on and going beyond existing knowledge about policing practices the volume discusses how women encountered the official police how they experienced that contact and the outcomes of that contact in the modern Western world In so doing it is an original and much needed addition to the literature around changes in policing women's experiences of the criminal justice system and women's experiences of control and regulation The chapters uncover such experiences in a range of countries across Europe the USA Canada and Australia Importantly the collection focuses upon a crucial epoch in the history of policing a 150 year period when policing was rapidly changing and being increasingly placed on a formal level Bringing together scholarly work from expert contributors this unique volume draws to the fore women's experiences of policing It will be of great use to both scholars and students on undergraduate and postgraduate criminology and history courses working on the history of crime historical criminology the history of criminal justice and women's history **Women in Nineteenth-Century Europe** Rachel Fuchs, Victoria E. Thompson, 2004-11-21 During the nineteenth century European women of all countries and social classes experienced dramatic and enduring changes in their familial working and political lives However the history of women at this time is not one of unmitigated progress theirs was an uphill struggle fraught with hindrances hard work and economic downturns and the increasing intrusion of the public into their innermost private and personal lives Breaking away from traditional categories Rachel G Fuchs and Victoria E Thompson provide a sense of the variety and complexity of women's lives across national and regional boundaries juxtaposing the experiences of women with the perceptions of their lives Three themes unite this study The tension between tradition and modernity The changing relationship between the community and individual The shifting boundaries between public and private Dealing with individual women's lives within a large social and cultural context Fuchs and Thompson demonstrate how strong and courageous women refused to live within the prescribed domestic roles and how many became the modern women of the twentieth century **Prisoner of the Vatican** David I. Kertzer, 2006-02-20 A Pulitzer Prize winner's fascinating account of the political battles that led to the end of the Papal States Entertainment Weekly From a National Book Award nominated author this absorbing history chronicles the birth of modern Italy and the clandestine politics behind the Vatican's last stand in the battle between the church and the newly created Italian state When Italy's armies seized the Holy City and claimed it for the Italian capital Pope Pius IX outraged retreated to the Vatican and declared himself a prisoner calling on foreign powers to force the Italians out of Rome The action set in motion decades of political intrigue that hinged on such fascinating characters as Garibaldi King Viktor Emmanuel Napoleon

III and Chancellor Bismarck Drawing on a wealth of secret documents long buried in the Vatican archives David I Kertzer reveals a fascinating story of outrageous accusations mutual denunciations and secret dealings that will leave readers hard pressed to ever think of Italy or the Vatican in the same way again A rousing tale of clerical skullduggery and topsy turvy politics laced with plenty of cross border intrigue Kirkus Reviews starred review **The Kidnapping of Edgardo Mortara** David I. Kertzer, 2008-12-30 Soon to be a major motion picture from Steven Spielberg A National Book Award Finalist The extraordinary story of how the vatican s imprisonment of a six year old Jewish boy in 1858 helped to bring about the collapse of the popes worldly power in Italy Bologna nightfall June 1858 A knock sounds at the door of the Jewish merchant Momolo Mortara Two officers of the Inquisition bust inside and seize Mortara s six year old son Edgardo As the boy is wrenched from his father s arms his mother collapses The reason for his abduction the boy had been secretly baptized by a family servant According to papal law the child is therefore a Catholic who can be taken from his family and delivered to a special monastery where his conversion will be completed With this terrifying scene prize winning historian David I Kertzer begins the true story of how one boy s kidnapping became a pivotal event in the collapse of the Vatican as a secular power The book evokes the anguish of a modest merchant s family the rhythms of daily life in a Jewish ghetto and also explores through the revolutionary campaigns of Mazzini and Garibaldi and such personages as Napoleon III the emergence of Italy as a modern national state Moving and informative the Kidnapping of Edgardo Mortara reads as both a historical thriller and an authoritative analysis of how a single human tragedy changed the course of history *Disciplining Reproduction* Adele E. Clarke, 2024-03-29 Reproductive issues from sex and contraception to abortion and cloning have been controversial for centuries and scientists who attempted to turn the study of reproduction into a discipline faced an uphill struggle Adele Clarke s engrossing story of the search for reproductive knowledge across the twentieth century is colorful and fraught with conflict Modern scientific study of reproduction human and animal began in the United States in an overlapping triad of fields biology medicine and agriculture Clarke traces the complicated paths through which physiological approaches to reproduction led to endocrinological approaches creating along the way new technoscientific products from contraceptives to hormone therapies to new modes of assisted conception for both humans and animals She focuses on the changing relations and often uneasy collaborations among scientists and the key social worlds most interested in their work major philanthropists and a wide array of feminist and medical birth control and eugenics advocates and recounts vividly how the reproductive sciences slowly acquired standing By the 1960s reproduction was disciplined and the young and contested scientific enterprise proved remarkably successful at attracting private funding and support But the controversies continue as women the targeted consumers create their own reproductive agendas around the world Elucidating the deep cultural tensions that have permeated reproductive topics historically and in the present *Disciplining Reproduction* gets to the heart of the twentieth century s drive to rationalize reproduction human and nonhuman in order to control life itself This title is

part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1998 *The Methods and Uses of Anthropological Demography* Alaka Malwade Basu, Peter Aaby, 1998-09-24 This volume takes stock of the current status of the comparatively new discipline of Anthropological Demography and discusses its major methods its main strengths and its chief limitations It includes contributions from both mainstream demographers and foremost anthropologists all stressing the necessity of a shared agenda for each discipline to progress successfully and avoid marginalization While the unique research and personal satisfaction afforded by participant observation is described the book also highlights the potential contribution to the understanding of demographic events of much more than the field methods of traditional anthropology In particular it stresses the insights possible from qualitative focus group interviews from longitudinal studies and from a greater interest in armchair anthropology in which demographers complement their quantitative findings with qualitative information and understanding gleaned from a careful reading of the anthropological literature in the form of both ethnographies and anthropological theories In addition it stresses the larger world of the ideal anthropological demographer a world that includes the cultural context of course but also takes into account the historical and political forces that condition so much individual behaviour But the book is also a critical venture It includes therefore considerable discussion of the common limits of the purely anthropological approach for understanding demographic events and processes especially from a larger policy perspective at the same time as it emphasizes the crucial role of the anthropological approach to designing policy that is potentially effective as well as socially and culturally sensitive It reiterates the often complementary role of anthropological demography and also discusses some specific questions in demographic research which it does not as yet seem to have the capacity to illuminate The book is aimed primarily at demographers wishing to broaden their research agenda and deepen their understanding of demographic behaviour but it also hopes to convert mainstream anthropologists to take a more active interest in demographic issues Both disciplines after all have a common intense interest in the kind of life and death issues that they can fruitfully explore together or by using one another's research methods Death and a Maiden William David Myers, 2011-04-01 On the feast of St Michael September 1659 a thirteen year old peasant girl left her family's rural home to work as a maid in the nearby city of Braunschweig Just two years later Grethe Schmidt found herself imprisoned and accused of murdering her bastard child even though the fact of her pregnancy was inconclusive and no infant's body was found to justify the severe measures used against her The tale spiraled outward to set a defense lawyer and legal theorist against powerful city magistrates and then upward to a legal contest between that city and its overlord the Duchy of Brunswick with the city's independence and ancient liberties hanging in the balance Death and a Maiden tells a fascinating story that begins in the bedchamber of a

house in Brunswick and ends at the court of Duke Augustus in the city of Wolfenbettel with political intrigue along the way After thousands of pages of testimony and rancorous legal exchange it is still not clear that any murder happened Myers infuses the story of Grethe s arrest torture trial and sentence for suspected infanticide with a detailed account of the workings of the criminal system in continental Europe including the nature of interrogations the process of torture and the creation of a criminal identity over time He presents an in depth examination of a criminal system in which torture was both legal and an important part of criminal investigations This story serves as a captivating slice of European history as well as a highly informative look at the condition of poor women and the legal system in mid seventeenth century Germany General readers and scholars alike will be riveted by Grethe s ordeal

Christianity and Sexuality in the Early Modern World

Merry E Wiesner-Hanks,2020-05-01 Christianity and Sexuality in the Early Modern World surveys the ways in which people from the time of Luther and Columbus to that of Thomas Jefferson used Christian ideas and institutions to regulate and shape sexual norms and conduct and examines the impact of their efforts Global in scope and geographic in organization the book contains chapters on Protestant Catholic and Orthodox Europe Latin America and the Caribbean Africa and Asia and North America It explores key topics including marriage and divorce fornication and illegitimacy clerical sexuality same sex relations witchcraft and love magic moral crimes and interracial relationships The book sets its findings within the context of many historical fields including the history of gender and sexuality and of colonialism and race Each chapter in this third edition has been updated to reflect new scholarship particularly on the actual lived experience of people around the world This has resulted in expanded coverage of nearly every issue including notions of the body and of honor gendered religious symbols religious and racial intermarriage sexual and gender fluidity the process of conversion the interweaving of racial identity and religious ideologies and the role of Indigenous and enslaved people in shaping Christian traditions and practices It is ideal for students of the history of sexuality early modern Christianity and early modern gender

Drowning Girls in

China D. E. Mungello,2008-06-27 This groundbreaking book offers the first full analysis of the long neglected and controversial subject of female infanticide in China Although infanticide and child abandonment were worldwide phenomena from antiquity down to the nineteenth century when massive numbers of children were still being abandoned in Europe China was unique in targeting girls almost exclusively Yet despite its persistence for two thousand years little has been published on a practice that is deeply sensitive within China and little understood by outsiders Drawing on little known Chinese documents and illustrations noted historian D E Mungello describes the causes and continuation of female infanticide since 1650 despite efforts by Confucian moralists Buddhist teachings government officials and even imperial edicts to stop the practice The arrival of Christian missionaries led to foreign involvement as well with Catholic priests baptizing abandoned and dying infants in Nanjing and Beijing beginning in the early 1600s Mission efforts peaked in the nineteenth century when the European based Society of the Holy Childhood urged Catholic children to contribute their

pennies to help neglected children in China. However, most of the infant victims were drowned at birth in the privacy of their homes, thereby escaping the scrutiny of the law and the public. Mungello brings this secretive practice to light with a nuanced and balanced analysis of the cultural, economic, and social causes of early infanticide and its contemporary manifestation in sex-selected abortion as a result of the government's one-child policy. Presenting female infanticide as a human rather than a distinctly Chinese problem, he estimates the tragic loss of girls in the millions.

Infanticide and Abortion in Early Modern Germany Margaret Brannan Lewis, 2016-03-17 This book is the first work to look at the full range of three centuries of the early modern period in regards to infanticide and abortion, a period in which both practices were regarded equally as criminal acts. Faced with dire consequences if they were found pregnant or if they bore illegitimate children, many unmarried women were left with little choice. Some of these unfortunate women turned to infanticide and abortion as the way out of their difficult situation. This book explores the legal, social, cultural, and religious causes of infanticide and abortion in the early modern period, as well as the societal reactions to them. It examines how perceptions of these actions taken by desperate women changed over three hundred years and as early modern society became obsessed with a supposed plague of murderous mothers, resulting in heated debates, elaborate public executions, and a media frenzy. Finally, this book explores how the prosecution of infanticide and abortion eventually helped lead to major social and legal reforms during the age of the Enlightenment.

Handbook of Population Dudley L. Poston, Michael Micklin, 2006-04-26 This comprehensive handbook provides an overview and update of the issues, theories, processes, and applications of the social science of population studies. The volume's 30 chapters cover the full range of conceptual, empirical, disciplinary, and applied approaches to the study of demographic phenomena. This book is the first effort to assess the entire field since Hauser and Duncan's 1959 classic *The Study of Population*. The chapter authors are among the leading contributors to demographic scholarship over the past four decades. They represent a variety of disciplines and theoretical perspectives, as well as interests in both basic and applied research.

Giacomo Puccini and His World Arman Schwartz, Emanuele Senici, 2016-08-09 Giacomo Puccini (1858-1924) is the world's most frequently performed operatic composer, yet he is only beginning to receive serious scholarly attention. In *Giacomo Puccini and His World*, an international roster of music specialists, several writing on Puccini for the first time, offers a variety of new critical perspectives on the composer and his works. Containing discussions of all of Puccini's operas from *Manon Lescaut* (1893) to *Turandot* (1926), this volume aims to move beyond clichés of the composer as a Romantic epigone and to resituate him at the heart of early twentieth-century musical modernity. This collection's essays explore Puccini's engagement with spoken theater and operetta and with new technologies like photography and cinema. Other essays consider the philosophical problems raised by realist opera, discuss the composer's place in a variety of cosmopolitan formations, and reevaluate Puccini's orientalism and his complex interactions with the Italian fascist state. A rich array of primary source material, including previously unpublished letters and documents, provides vital information on

Puccini's interactions with singers, conductors and stage directors and on the early reception of the verismo movement. Excerpts from Fausto Torrefranca's notorious Giacomo Puccini and International Opera perhaps the most vicious diatribe ever directed against the composer appear here in English for the first time. The contributors are Micaela Baranella, Leon Botstein, Alessandra Campana, Delia Casadei, Ben Earle, Elaine Fitz Gibbon, Walter Frisch, Michele Girardi, Arthur Groos, Steven Huebner, Ellen Lockhart, Christopher Morris, Arman Schwartz, Emanuele Senici and Alexandra Wilson. Christianity and Sexuality in the Early Modern World Merry Wiesner-Hanks, 2014-05-22. The book surveys the ways in which Christian ideas and institutions shaped sexual norms and conduct from the time of Luther and Columbus to that of Thomas Jefferson. It is global in scope and geographic in organization with chapters on Protestant, Catholic and Orthodox Europe, Latin America, Africa and Asia and North America. All the key topics are covered including marriage and divorce, fornication and illegitimacy, clerical sexuality, same sex relations, witchcraft and love magic, moral crimes and inter-racial relationships. Each chapter in this second edition has been fully updated to reflect new scholarship with expanded coverage of many of the key issues particularly in areas outside of Europe. Other updates include extra analysis of the religious ideas and activities of ordinary people in Europe and new material on the colonial world. The book sets its findings within the context of many historical fields: the history of sexuality and the body, women's history, legal and religious history, queer theory and colonial studies and provides readers with an introduction to key theoretical and methodological issues in each of these areas. Each chapter includes an extensive section on further reading, surveying and commenting on the newest English language secondary literature. **Women's Health and Medicine: Transforming Perspective** Alice J. Dan, Sue V. Rosser, 2003-06. A vital collection of essays on women's health and women's health studies edited by leaders in the field. *Reassembling Motherhood* Yasmine Ergas, Jane Jenson, Sonya Michel, 2017-10-10. The word mother traditionally meant a woman who bears and nurtures a child. In recent decades changes in social norms and public policy as well as advances in reproductive technologies and the development of markets for procreation and care have radically expanded definitions of motherhood. But while maternity has become a matter of choice for more women, the freedom to make reproductive decisions is unevenly distributed. Restrictive policies, socioeconomic disadvantages, cultural mores and discrimination force some women into motherhood and prevent others from caring for their children. *Reassembling Motherhood* brings together contributors from across the disciplines to consider the transformation of motherhood as both an identity and a role. It examines how the processes of bearing and rearing a child are being restructured as reproductive labor and care work change around the globe. The authors examine issues such as artificial reproductive technologies, surrogacy, fetal ultrasounds, adoption, nonparental care and the legal status of kinship, showing how complex chains of procreation and childcare have simultaneously generated greater liberty and new forms of constraint. Emphasizing the tension between the liberalization of procreation and care on the one hand and the limits to their democratization due to race, class and global inequality on the

other the book highlights debates that have emerged as these multifaceted changes have led to both the fragmentation and reassembling of motherhood

Beyond Welfare State Models Pauli Kettunen, Klaus Petersen, 2011 Welfare state models have for decades been the gold standard of welfare state research Beyond Welfare State Models escapes the straightjacket of conventional welfare state models and challenges the existing literature in two ways Firstly the contributors argue that the standard typologies have omitted important aspects of welfare state development Secondly the work develops and underlines the importance of a more fluid transnational conceptualisation As this book shows welfare states are not created in national isolation but are heavily influenced by transnational economic political and cultural interdependencies The authors illustrate these important points of criticism with their studies on the transnational history of social policy religion and the welfare state Nordic cooperation within the fields of social policy and marriage law and the transnational contexts of national family policies This fascinating work contributes to the understanding of the current changes of welfare states by discussing the relationship between globalized capitalism and social political regulations and by arguing that transnational transformations importantly take place within and between nation states
