Committee on the Judiciary**

Second Man The Changing Role Of The Vice:

The American Vice Presidency Jody C Baumgartner, 2015-04-23 It is quite possible that no elected office has been more historically maligned than the vice presidency of the United States From the beginning of American politics the office has been the object of ridicule by scholars pundits humorists citizens and even vice presidents themselves The perception among many is that institution and its occupants are at best irrelevant Recent history would suggest otherwise but as it stands no book exists that takes a detailed look at the new impactful vice presidency that s been forged since Clinton Gore took office The American Vice Presidency fills an important hole in the literature available to those interested in the modern vice presidency Concise yet comprehensive this book is the fullest and most accurate examination of the office to date covering the origins and constitutional roots of the institution its history and the slow transformation of the office starting in the mid twentieth century Jody C Baumgartner and Thomas F Crumblin highlight major changes in vice presidential selection as well as the new and various roles that vice presidents are being asked to play in their administrations The book emphasizes the increasingly substantive Vice Presidencies of Gore Cheney and Biden and both informs and spurs the debate surrounding what form and role the Vice Presidency will take on moving forward

The American Vice Presidency Reconsidered Jody C. Baumgartner, 2006-07-30 Since 1960 the office of the vice presidency of the United States has evolved into a fundamentally different institution than the one the founders envisioned attracting better qualified aspirants who may be called upon to perform a variety of important tasks This book offers a corrective to the overwhelmingly negative view that Americans have had of their vice presidents by demonstrating how the role has changed over time In addition Baumgartner examines those who were candidates for vice president but who were not elected The book is organized thematically according to the career path of the vice president from the selection process through campaign and nomination to election service in office and post White House contributions John Adams famously called the vice presidency the most insignificant office that ever the invention of man contrived or his imagination conceived Harry Truman called it about as useful as a cow s fifth teat How things have changed in a world where many consider Vice President Dick Cheney the most powerful figure in the current administration Since 1960 the office of the vice presidency of the United States has evolved into a fundamentally different institution than the one the founders envisioned attracting better qualified aspirants who may be called upon to perform a variety of important tasks No longer a ceremonial figurehead or legislative drudge the vice president today consults closely with the president and plays an important role in executive decisions Those who are chosen as running mates are examined more thoroughly than ever before not merely for the boost they might give the presidential candidate in the general election but also for the kind of president they might be if fate called upon them to serve In a book that is as readable as it is fascinating Baumgartner offers a corrective to the overwhelmingly negative view Americans have had of their vice presidents by demonstrating how the role has changed over time Setting the stage with a visit to the Constitutional

Convention and a brief look at pre modern vice presidents he examines the 19 men and one woman who have been vice presidents or candidates for the office since 1960 His insightful book is organized thematically according to the career path of the vice president from the selection process through the campaign and nomination to election service in office and post White House contributions

The American Presidency Sidney M. Milkis, Michael Nelson, 2019-01-24 The American Presidency examines the constitutional foundation of the executive office and the social economic political and international forces that have reshaped it Authors Sidney M Milkis and Michael Nelson broadly examine the influence of each president focusing on how these leaders have sought to navigate the complex and ever changing terrain of the executive office and revealing the major developments that launched the modern presidency at the dawn of the twentieth century By connecting presidential conduct to the defining eras of American history and the larger context of politics and government in the United States this award winning book offers vital perspective and insight on the limitations and possibilities of presidential power The Eighth Edition examines recent events and developments including the latter part of the Obama presidency the 2016 election the first twenty months of the Trump presidency and updated coverage of issues involving race and the presidency

Guide to the Presidency Michael Nelson, 2015-05-01 The Guide to the Presidency is an extensive study of the most important office of the U S political system Its two volumes describe the history workings and people involved in this office from Washington to Clinton The thirty seven chapters of the Guide arranged into seven distinct subject areas ranging from the origins of the office to the powers of the presidency to selection and removal cover every aspect of the presidency Initially dealing with the constitutional evolution of the presidency and its development the book goes on to expand on the history of the office how the presidency operates alongside the numerous departments and agents of the federal bureaucracy and how the selection procedure works in ordinary and special circumstances Of special interest to the reader will be the illustrated biographies of every president from Washington to the present day and the detailed overview of the vice presidents and first ladies of each particular office Also included are two special appendices one of which gathers together important addresses and speeches from the Declaration of Independence to Clinton s Inaugural Address and another which provides results from elections and polls and statistics from each office

The Office of the Vice President of the United States

United States. Office of the Vice President, 1971

The Power of the Presidency Robert S. Hirschfield, 2017-07-05 The American presidency is the most powerful political office in the world But this impressive statement serves only to raise a whole series of fundamental questions What is the scope of presidential powers and what are its limits Can the president use all the authority of his office or is that authority more formal than effective Does the presidency have sufficient power to meet today s needs or do the problems of the modern age demand a more powerful executive Is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership This book explores such questions by presenting a wide range of views on presidential power from a variety of sources

original supporters and opponents of the office presidents themselves Supreme Court decisions and professional students of the presidency **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1972

Encyclopedia of U.S. Political History Andrew Whitmore Robertson,2010 Annotation st1 behavior url ieouui

Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the

Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader's understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader's guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877

VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era

VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt's presidency the Supreme Court's conservative traditions and a new judicial outlook

VOLUME 6 Postwar Consensus to Social Unrest 1946

1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered
