This is genuinely and without question the lasting word from the world acknowledged authority.

Conversation Analysis and Second Language Pedagogy Jean Wong, Hansun Zhang Waring, 2020-08-03 Now in its second edition, this volume offers a strong synthesis of classic and current work in conversation analysis (CA) usefully encapsulated in a model of interactional practices that comprise interactional competence. Through this synthesis, Wong and Waring demonstrate how CA findings can help to increase language teachers' awareness of the spoken language and suggest ways of applying that knowledge to teaching second language interaction skills. The Second Edition features substantial updates that include new findings on interactional practices, reconceptualized, reorganized and revised content for greater accuracy, clarity and readability. Expanded key concepts glossary at the end of each chapter. New tasks with more transcripts of actual talk. New authors' stories. The book is geared towards current and prospective second or foreign language teachers, material developers and other language professionals and assumes neither background knowledge of conversation analysis nor its connection to second language teaching. It also serves as a handy reference for those interested in key CA findings on social interaction. AF Manual
