Second World War Vol 4 Pt 1 The Hinge Of Fate:

The Path to Victory Douglas Porch, 2005-06-22 From the Publisher The Mediterranean theater in World War II has long been overlooked by those who believe it was little more than a string of small scale battles sideshows that were of minor importance in a war whose outcome was decided in the clashes of mammoth tank armies in northern Europe But in this groundbreaking new book one of our finest military historians argues that the Mediterranean was in fact World War II's pivotal theater In *The Path to Victory* Porch examines the Mediterranean as an integrated arena one in which events in Syria and Suez influenced the survival of Gibraltar Churchill's controversial decision in 1940 to contest the Axis in the Mediterranean followed by Roosevelt's insistence two years later that his service chiefs undergo a Mediterranean initiation laid the foundation for Allied victory in Europe Although conventional wisdom argues that Hitler could not have won World War II in the Mediterranean Porch believes that the Allies might well have lost had they not elected to fight there Decisions made in this theater matured the Western Alliance seriously damaged and dispersed the formidable Axis military machine and forged the combined Anglo American effort that was to be unstoppable when transferred to Northern Europe in June 1944 The Middle Sea constituted a strategic piece of a global war it was a passage that linked far flung theaters protected scarce Allied shipping became an essential conduit for lend lease aid to the USSR offered France a testing ground for its rehabilitation as a military power and provided an entry point into southern Germany for two Allied armies Without a Mediterranean alternative the Western Allies would probably have committed to a premature cross Channel invasion in 1943 that might well have cost them the war Brilliantly argued and with vivid portraits of Churchill Montgomery FDR Rommel and Mussolini this original accessible and compelling account of a little known theater emphasizes the importance of the Mediterranean in the ultimate Allied victory in Europe during World War II

Arctic Convoys David Kenyon, 2023-01-01 An incisive account of the Arctic convoys and the essential role Bletchley Park and Special Intelligence played in Allied success Between 1941 and 1945 more than eight hundred shiploads of supplies were delivered to the Soviet Union protected by allied naval forces Each journey was a battle against the elements with turbulent seas extreme cold and the constant dread of torpedoes These Arctic convoys have been mythologized as defenseless vessels at the mercy of deadly U boats but was this really the case David Kenyon explores the story of the war in the Arctic revealing that the contest was more evenly balanced than previously thought Battles included major ship engagements aircraft carriers and combat between surface ships Amid this wide range of forces Bletchley Park's Naval Section played a decisive role in Arctic operations with both sides relying heavily on Signals Intelligence to intercept and break each other's codes Kenyon presents a vivid picture of the Arctic theater of war unearthing the full scale campaign for naval supremacy in northern waters

Did Singapore Have to Fall? Kevin Blackburn, Karl Hack, 2003-11-20 It will help students and general readers make up their own minds on the most crucial

question which can be summed up as Did Singapore Have to Fall Jacket **A New Deal for the World** Elizabeth Borgwardt,2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war and peace aims **Allied Convoys to Northern Russia, 1941-1945** William Smith,2024-03-31 A carefully researched work providing an overview of the strategic factors dominating the costly yet war winning Arctic convoy program While the experiences of the men and ships who sailed in the Allied convoys to North Russia between August 1941 and May 1945 have been fully documented the wider political diplomatic and military factors which determined the campaign are less well known The principal actors Roosevelt Churchill and Stalin each had their own agendas and expectations influenced by advisers and competing national priorities These inevitably gave rise to differences putting pressure in turn on the convoy program while the varying effectiveness of German counter action was a significant and unpredictable factor 1942 was dominated by pressure on Churchill from Roosevelt and Stalin to increase the size of convoys at a time when the Royal Navy lacked the necessary escorts This deficiency was exacerbated by heavy merchant shipping losses and the demands of Operation TORCH The temporary convoy suspension in 1943 followed the deployment of German heavy warships to Norway and the diversion of escorts to Operation HUSKY A serious Anglo Soviet rift which led to Allied threats to discontinue the program was only resolved by lengthy negotiations It resumed until temporarily suspended due to the D Day landings after which the increasing escort availability allowed operations to run uninterrupted until May 1945 This carefully researched work providing an overview of the strategic factors dominating the costly yet war winning Arctic convoy program will be welcomed by experts and laymen alike Military Misfortunes Eliot A.
