Stepping Westward Nigel Leask, 2020-02-27 Stepping Westward is the first book dedicated to the literature of the Scottish Highland tour of 1720-1830, a major cultural phenomenon that attracted writers and artists like Pennant, Johnson and Boswell, William and Dorothy Wordsworth, Coleridge, Scott, Hogg, Keats, Daniell and Turner, as well as numerous less celebrated travellers and tourists. Addressing more than a century's worth of literary and visual representations of the Highlands, the book casts new light on how the tour developed a modern literature of place, acting as a catalyst for thinking about improvement, landscape and the shaping of British, Scottish and Gaelic identities. It pays attention to the relationship between travellers and the native Gaels whose world was plunged into crisis by rapid and forced social change. At the book's core lie the best-selling tours of Pennant and Dr Johnson, associated with attempts to improve the intractable *Gaidhealtachd* in the wake of Culloden. Alongside the Ossian craze and Gilpin's picturesque, their books stimulated a wave of home tours from the 1770s through the romantic period, including writing by women like Sarah Murray and Dorothy Wordsworth. The incidence of published Highland Tours, many lavishly illustrated, peaked around 1800 but as the genre reached exhaustion, the romantic Highlands were reinvented in Scott's poems and novels, coinciding with steam boats and mass tourism but also rack-renting, sheep clearance and emigration.

The Tomorrow People - The First One Gary Russell, 2024-07-18 With Kenny away from Earth working for the Galactic Federation, John, Carol and Stephen embark on their weirdest adventure yet. While Carol works alongside eccentric spiritualist Madame Juniper Rose, John and Stephen witness a psychic attack in the Lab. Both these incidents seem to be linked, and Carol finds herself drawn on a mysterious trek back in time with a friendly ghost for companionship. John and Stephen explore the house at the centre of the activity but discover that rather than being the Tomorrow People, they may well end up as yesterday's nobodies. The first in a new series of The Tomorrow People novels from Oak Tree and Chinbeard Books, this excellent story from Gary Russell will appeal to fans of the TV show and new readers equally.

[More Richly in Earth](#) Marilyn Bowering, 2024-05-14 Mary MacLeod M'Innighean Alasdair Ruaidh was a rarity, a female bard in seventeenth-century Scotland. While her lyrics were honoured, she was also marginalized, denigrated as a witch and exiled both for being a writer and for what she wrote. Presented as a chronicle of journeys through the Scottish Hebrides, *More Richly in Earth* explores MacLeod's legacy preserved within landscape, memory and identity. In an act of recovery and restoration, Canadian poet and novelist Marilyn Bowering pieces together the puzzle of radically different accounts of MacLeod's life, returning to the places the bard once lived with the help of contemporary Scottish Gaelic poets and scholars. Through investigation and imagination, Bowering forms a connection with MacLeod despite vast differences of culture and language, time and place. Their connection deepens as Bowering twines MacLeod's story with accounts of the people and places that shaped her own life, a connection that ultimately reveals the foundations of

Bowering's artistic vocation to herself MacLeod's life and writing little known today beyond the Gaelic world harbours cultural truths about a transformative era of war and colonization in Gaelic Scotland Bringing a poetic sensibility to investigative scholarship More Richly in Earth offers a profound reflection on the necessity of art in all forms *The Decline of Magic* Michael Hunter, 2020-01-07 A new history which overturns the received wisdom that science displaced magic in Enlightenment Britain In early modern Britain belief in prophecies omens ghosts apparitions and fairies was commonplace Among both educated and ordinary people the absolute existence of a spiritual world was taken for granted Yet in the eighteenth century such certainties were swept away Credit for this great change is usually given to science and in particular to the scientists of the Royal Society But is this justified Michael Hunter argues that those pioneering the change in attitude were not scientists but freethinkers While some scientists defended the reality of supernatural phenomena these sceptical humanists drew on ancient authors to mount a critique both of orthodox religion and by extension of magic and other forms of superstition Even if the religious heterodoxy of such men tarnished their reputation and postponed the general acceptance of anti magical views slowly change did come about When it did this owed less to the testing of magic than to the growth of confidence in a stable world in which magic no longer had a place **Screen Digest**, 2005 LIFE, 1940-05-20 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today's people and events They have free access to share print and post images for personal use **Planning and Management of Lakes and Reservoirs** UNEP International Environmental Technology Centre, 2000 Deals with the problem of eutrophication of lakes and reservoirs by looking at its origin consequences solutions and prognosis The book first considers environmental causes social and cultural aspects and new strategies for policy institutional and regulatory frameworks It then deals with the importance of public awareness and education and describes possible economic impacts technological solutions and management arrangements Examples from different countries and ecosystems are included The index does not cite page numbers Annotation copyrighted by Book News Inc Portland OR **The Palgrave Encyclopedia of Imperialism and Anti-Imperialism** Immanuel Ness, Zak Cope, 2016-04-29 The Palgrave Encyclopedia Imperialism and Anti Imperialism objectively presents the prominent themes epochal events theoretical explanations and historical accounts of imperialism from 1776 to the present It is the most historically and academically comprehensive examination of the subject to date *Islamophobia, anti-racism and the British left* Scarlet Harris, 2025-04-22 Islamophobia is one of the most misunderstood and pernicious forms of racism in Britain But how do those committed to challenging Islamophobia understand it And what does this mean for their practices on the ground Islamophobia anti racism and the British left combines first hand accounts from activists and community workers across two British cities with sociological theory critically interrogating Islamophobia's relationship to race racial capitalism and other modalities of racism Setting this discussion against some of the most

The Battle for Britain David Torrance,2013-11-12 On 18 September 2014 Scots will decide their future should the country quit the United Kingdom and take control of its own destiny or should it remain part of what advocates call the most successful political and economic union of modern times Everyone in the country has a stake in this decision Now in this fascinating and insightful new book David Torrance charts the countdown to the big day weaving his way through a minefield of claim and counterclaim and knocking down fictions and fallacies from both Nationalists and Unionists He plunges into the key questions that have shaped an often fraught argument from the future of the pound to the shape of an independent Scottish army With access to the strategists and opinion makers on both sides of the political divide this book goes straight to the heart of the great debate providing an incisive authoritative occasionally trenchant guide to the most dramatic constitutional question of our times the battle for Britain
