von Horvath: Two Plays, Ödön von Horváth, 2017-03-30 DON JUAN COMES BACK FROM THE WAR DON JUAN KOMMT AUS DEM KRIEG The anti hero of the title returns from the front in a fervour of despair The girl he is searching for has died and the romantic ideal he is trying to construct is opposed by endless recriminations from the succession of women he encounters Don Juan Comes Back from the War was first performed in this translation at the National Theatre in 1978 FIGARO GETS DIVORCED FIGARO L SST SICH SCHEIGEN An aristocratic couple and their two servants are on the run from a revolution Their fortunes rise and fall against a background of social and political upheaval Figaro Gets Divorced was premiered in this translation at the Gate Theatre in 1990 Resolving Environmental Conflicts, Second Edition Chris Maser, Carol A. Pollio, 2011-07-12 True progress toward an ecologically sound environment and a socially just culture will be initially expensive in money and effort The longer we wait however the more disastrous the environmental condition will become the more disputes will arise as a result of our declining quality of life and the more expensive and difficult the necessary social changes will be The second edition of a bestseller Resolving Environmental Conflicts demonstrates how to practice the type of conflict resolution that not only settles a dispute but also heals the people Once the consultants and mediators leave the work must go on This second edition covers the basic transformative concepts vital for resolving environmental conflicts It includes discussions of the inviolate biophysical principles how the English language is changing as well as the critical principles of social behavior It also examines new dynamics in making decisions along with the effects of the younger generations shifting their interests from nature oriented interest to technologically oriented interests and their subsequent lack of understanding the importance of the natural environment to a sustainable society No biological shortcuts technological quick fixes or political rhetoric can mend what is broken Dramatic fundamental change is necessary if we are really concerned with bettering the quality of life It is not a question of can we change or can t we but one of will we change or won t we Change is a choice a choice of individuals reflected in the collective of society and mirrored in the landscape throughout the generations Considerably more than a how to directive this book examines the whys of the mediation process and broadens the knowledge base by providing the philosophical underpinnings of a new environmental responsibility

Evil and Givenness Brian W. Becker, 2022-02-23 Evil and Givenness The Thanatonic Phenomenon provides a phenomenological study of evil in its conceptual integrity Describing a phenomenological situation exclusive to evil in its distinct mode of givenness and manners of manifestation the account of evil in this book centers on the thanatonic as that phenomenality proper to evil Although situated within a phenomenology of givenness via Jean Luc Marion the thanatonic is distinguished from saturated phenomena by giving itself in a parasitic mode Brian W Becker identifies four figures as displaying characteristics of this parasitic givenness trauma evil eye foreign body and abject each expressing a dimension of the thanatonic and paralleling the four figures of the saturated phenomenon Like the four horsemen who serve as heralds for

the destruction of the world these figures beckon the destruction of our lifeworld diminishing the self who encounters them Upon losing the will to bear the excess of saturated phenomena the receding of horizons and the loss of singularity this impoverished self misrecognizes itself in a manner that begins to resemble the metaphysical ego and in doing so becomes a vector for retransmitting the thanatonic suffering unto others

Composing the Modern Subject: Four String Quartets by Dmitri Shostakovich Sarah Reichardt, 2017-07-05 Since the publication of Solomon Volkov's disputed memoirs of Dmitri Shostakovich the composer and his music has been subject to heated debate concerning how the musical meaning of his works can be understood in relationship to the composer's life within the Soviet State While much ink has been spilled very little work has attempted to define how Shostakovich's music has remained so arresting not only to those within the Soviet culture but also to Western audiences even though such audiences are often largely ignorant of the compositional context or even the biography of the composer This book offers a useful corrective setting aside biographically grounded and

traditional analytical modes of explication Reichardt uncovers and explores the musical ambiguities of four of the composer's middle string quartets especially those ambiguities located in moments of rupture within the musical structure The music is constantly collapsing reversing inverting and denying its own structural imperatives Reichardt argues that such confrontation of the musical language with itself though perhaps interpretable as Shostakovich's own unique version of double speak also poignantly articulates the fractured state of a more general form of modern subjectivity Reichardt employs the framework of Lacanian psychoanalysis to offer a cogent explanation of this connection between disruptive musical process and modern subjectivity The ruptures of Shostakovich's music become symptoms of the pathologies at the core of modern subjectivity These symptoms in turn relate to the Lacanian concept of the real which is the empty kernel around which the modern subject constructs reality This framework proves invaluable in developing a powerful original hermeneutic understanding of the music Read through the lens of the real the riddles written into the quartets reveal the arbitrary and contingent state of the musical subject's constructed reality reflecting pathologies ended
