Secret Agents Handbook Of Special Devices:

Secret Agent's Handbook of Special Devices ,2000 This is a reproduction of the original catalogue used by SOE agents to select weapons gadgets and disguises for their secret missions Following Churchill s directive to set Europe ablaze government scientists and inventors created a remarkable array of devices designed for sabotage missions *Secret Agent's Handbook* ,2009-10 Facsimile reprint of pages from two volumes of a catalogue compiled for the Special Operations Executive SOE issued in 1944 and 1945 *How to Be a Spy* ,2004-04 During World War II training in the black arts of covert operation was vital preparation for the ungentlemanly warfare waged by the Special Operations Executive SOE against Hitler s Germany and Tojo s Japan Reproduced here is the most comprehensive training syllabus used at SOE s Special Training Schools STSs showing how agents learnt to wreak maximum destruction in occupied Europe and beyond The training took place in country houses and other secluded locations ranging from the Highlands of Scotland to Singapore and Canada An array of unconventional skills are covered from burglary close combat and silent killing through to propaganda surveillance and disguise giving insight into the workings of one of World War II s most intriguing organizations Denis Rigden s introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions **How to be a Spy** Denis Rigden,2004-04-01 In the early years of World War II top secret training schools taught prospective agents the skills of a spy from disguise to assassination **Station 12** Des Turner,2011-09-30 The full story of Aston House in the Second World War has never been told before Its activities were top secret and as important to the Allied war effort as those of Bletchley Park but in a different way Situated near Stevenage Aston House was one of many British country houses requisitioned during the Second World War by the Special Operations Executive SOE Born out of Bletchley Park where it began life as SIS Section D for Destruction Station 12 s scientific and military personnel invented made and supplied toys for the Commandos Special Boat Service SAS and resistance groups Included in their deadly arsenal of weapons were plastic explosives limpet mines pressure switches tree spigots incendiary bombs incendiary liquids and arrows and a variety of time fuses They worked on the tools for famous operations such as the St Nazaire and Dieppe Raids and the assassination of Himmler s deputy in Prague Also revealed are the human stories of personnel stationed in this extremely remote village and the explosive pranks they played on each other and certain visitors which add some light relief to their destructive purpose *SOE: The Scientific Secrets* Fredric Boyce,2011-11-08 The history of Special Operations Executive SOE seems to spring a never ending run of surprises and here are some more This book explores the mysterious world of the tools SOE used for their missions of subversion and sabotage An often grim reality is confronted that is more akin with the world of James Bond and Q s workshop than previously believed Written by two scientists one of whom served in the SOE and one who was tasked with clearing up after it was disbanded their insider knowledge presents a clear account of the way in which SOE s inventors worked From high explosive technology to chemical

and biological devices from the techniques of air supply to incendiarism from camouflage to underwater warfare and from radio communications to weaponry SOE The Scientific Secrets is a revelation about the tools that allowed the murky world of spying and spies to operate during wartime

SOE's Ultimate Deception Fredric Boyce, 2009-03-12 In the closing months of the Second World War General Eisenhower exhorted the Western Allied forces to redouble their efforts to break the German will to resist In considering this appeal General Gubbins whose Special Operations Executive was making a significant contribution to the liberation of occupied territory was faced with a fundamental difficulty in the case of Germany Although opposition to Nazism was present in some areas it was neither organised nor pro Allied Then someone had the idea of creating an entirely fictional German resistance movement and selling it to the Nazi security authorities From January until April 1945 SOE rained propaganda leaflets on the hapless population fleeing the ruins of their cities and the oncoming Allied ground forces they broadcast messages to the resistance they planted the most scandalous lies about eminent Nazis and at the end they even dropped four agents on fictitious missions This imaginative response to Ike's exhortation and the sheer audacity of the operation itself demand to be told to a wider audience

World War II Allied Sabotage Devices and Booby Traps Gordon L. Rottman, 2013-02-20 An enthralling insight into the technical side of the secret war behind enemy lines as SOE and OSS operatives attempted to sabotage the Axis war effort Following Churchill's directive to set occupied Europe ablaze the SOE and later its American sister organization the OSS were deployed across the continent Outnumbered surrounded and in great peril these brave agents were armed with a wide variety of devices to help them achieve their objectives including numerous pieces of sabotage equipment and cunning booby traps This book examines these different pieces of equipment and the technicalities involved in deploying them effectively as well as discussing the specialist equipment developed by Special Forces units including the SAS Lewes Bomb Touching on some of the stranger developments such as explosives disguised as lumps of coal the author goes on to describe the German clearance techniques that were developed to avoid these dangers Complete with specially commissioned artwork and period diagrams together with detailed descriptions of the dangerous missions of Allied agents this book is a fascinating insight into the secret war behind enemy lines

The Means to Kill Gerrit Dworok, Frank Jacob, 2015-12-03 Throughout human history technological innovation has functioned as a driver of civilization and inspired many people's belief in progress When it comes to warfare where technology is applied with a cruel and deadly logic a nuanced view is needed From siege engines to drones innovation has often served a less enlightened aim elimination of the enemy This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives

Special Operations Executive Mark Seaman, 2013-01-11 This unique book presents an accurate and reliable assessment of the Special Operations Executive SOE It brings together leading authors to examine the organization from a range of key angles This study shows how historians have built on the first international conference on the SOE at the Imperial War Museum in

1998 The release of many records then allowed historians to develop the first authoritative analyses of the organization's activities and several of its agents and staff officers were able to participate Since this groundbreaking conference fresh research has continued and its original papers are here amended to take account of the full range of SOE documents that have been released to the National Archives The fascinating stories they tell range from overviews of work in a single country to particular operations and the impact of key personalities SOE was a remarkably innovative organization It played a significant part in the Allied victory while its theories of clandestine warfare and specialised equipment had a major impact upon the post war world SOE proved that war need not be fought by conventional methods and by soldiers in uniform The organization laid much of the groundwork for the development of irregular warfare that characterized the second half of the twentieth century and that is still here more potent than ever at the beginning of the twenty first This book will be of great interest to students of World War II history intelligence studies and special operations as well as general readers with an interest in SOE and World War II

Kill the Fuhrer Denis Rigden, 2011-11-08 During the Second World War Britain's top secret Special Operations Executive plotted to assassinate Hitler A small department of SOE known as Section X had the tantalisingly complex task of investigating how when and where their plan could be executed The section also plotted the killing of Goebbels Himmler and other selected members of Hitler's inner circle Only Section X and a handful of other SOE staff had any knowledge of these projects codenamed Operation Foxley and Operation Little Foxleys As history has shown these schemes turned out to be pipe dreams Even so Section X renamed the German Directorate in 1944 made a huge contribution to the Allied war effort through their organised sabotage and clandestine distribution of black propaganda Denis Rigden describes Section X's efforts to discover as much as possible about the intended assassination targets and questions whether a successful Operation Foxley would have helped or hindered the Allied cause Based on top secret documents and private sources and illustrated with archive photographs *Kill the Fuhrer* is an intriguing insight into the shadowy world of Britain's wartime secret services

SOE in France M.R.D. Foot, 2004-04-22 This study first published in 1966 has been updated from closed government records to offer a more complete overview of the activities of the SOE and how it fitted into the Allied war effort in the French theatre of operations

Undercover Agent Mark Seaman, 2018-11-01 Tony Brooks was unique He was barely out of school when recruited in 1941 by the Special Operations Executive SOE the wartime secret service established by Churchill to set Europe ablaze After extensive training he was parachuted into France in July 1942 being among the first and youngest British agents sent to support the nascent French Resistance Brook's success was primarily due to his exceptional qualities as a secret agent although he was aided by large and frequent slices of luck Among much else he survived brushes with a British traitor and a notorious double agent the Gestapo's capture of his wireless operator and subsequent attempts to trap Brooks brief incarceration in a Spanish concentration camp injuries resulting from a parachute jump into France and even capture and interrogation by the Gestapo although his cover story held and he was

released In an age when we so often take our heroes from the worlds of sport film television music fashion or just celebrity it is perhaps salutary to be reminded of a young man who ended the war in command of a disparate force of some 10 000 armed resistance fighters and decorated with two of this country s highest awards for gallantry the DSO and MC At the time he was just twenty three years old This remarkable detailed and intimate account of a clandestine agent s dangerous wartime career combines the historian s expert eye with the narrative colour of remembered events As a study in courage it has few if any equals

SOE Syllabus Denis Rigden,2001 This book tells how in the early years of World War II SOE set up top secret Special Training Schools STSs to instruct prospective agents in the arts of camouflage sabotage and subterfuge The training materials are reproduced here in full book jacket

The Jedburghs Will Irwin,2009-04-29 The story of the Special Forces in World War II has never fully been told before Information about them began to be declassified only in the 1980s Known as the Jedburghs these Special Forces were selected from members of the British American and Free French armies to be dropped in teams of three deep behind German lines There in preparation for D Day they carried out what we now know as unconventional warfare supporting the French Resistance in guerrilla attacks supply route disruption and the harassment and obstruction of German reinforcements Always they operated against extraordinary odds They had to be prepared to survive pitched battles with German troops and Gestapo manhunts for weeks and months while awaiting the arrival of Allied ground forces They were in short heroes The Jedburghs finally tells their story and offers a new perspective on D Day itself Will Irwin has selected seven of the Jedburgh teams and told their stories as gripping personal narratives He has gathered archival documents diaries and correspondence and interviewed Jed veterans and family members in order to present this portrait of their crucial role a role recognized by Churchill and Eisenhower in the struggle to liberate Europe in 1944 45 This is narrative history at its most compelling a vivid drama of the battle for France from deep behind enemy lines

Spies, Supplies & Moonlit Skies Thomas L. Ensminger, 2004-10 Spies Supplies and Moonlit Skies Volume II The French Connection April June 1944 Code Name Neptune During the critical period of World War II leading up to D Day the United States Army Air Forces activated the first Air Special Operations Group for clandestine activity against the Nazi enemy in Occupied Europe While the daylight Bombardment and Fighter Groups of the Army Air Forces cleared the skies of Nazi planes in a brutal war of attrition before the invasion the 801st Bombardment Group on night operations from their secret base near Harrington in the United Kingdom dropped supplies and agents to the Resistance forces of Europe in preparation for D Day on the beaches of Normandy on 6 June 1944 This is their story A brief comment from a well known author of 8th Air Force History received on 17 02 2005 via email Dear Thomas Ensminger Yesterday I was surprised and delighted to receive the copy of your Volume II What an amazingly comprehensive work this is and it obviously took a great effort and much time to produce It certainly is THE reference for Carpetbagger activities and finds a welcome place on my library shelves Congratulations to you and your team for this superb contribution to the history of the Second World War and the sterling work of the Carpetbaggers Sincere thanks Roger A Freeman 8th Air Force Historian **James May's Magnificent Machines** James May, Phil Dolling, 2012-03-01 Our world has been transformed beyond recognition particularly in the twentieth century and so were our lives and our aspirations Throughout James May's Magnificent Machines our Top Gear guide explores the iconic themes of the past hundred years flight space travel television mechanised war medicine computers electronic music skyscrapers electronic espionage and much more But he also reveals the hidden story behind why some inventions like the Zeppelin the hovercraft or the Theremin struggled to make their mark He examines the tipping points when technologies such as the car or the internet became unstoppable and gets up close by looking at the nuts and bolts of remarkable inventions Packed with surprising statistics and intriguing facts this is the ideal book for anyone who wants to know how stuff works and why some stuff didn't make it Section D for Destruction Malcolm Atkin, 2017-11-30 When Neville Chamberlain made his famous Peace in Our Time statement in 1938 after the Munich Agreement with Hitler he may or may not have been aware that the new Section D of the Secret Intelligence Service was already making plans to mount an all out political and sabotage war against Nazi Germany This was a new form of warfare encompassing bribery black propaganda and sabotage by agents described as having no morals or scruples To the horror of many it disregarded the conventions of neutrality and was prepared to hit the Nazi state wherever it could do most damage Malcolm Atkin reveals how Section D's struggle to build a European wide anti Nazi resistance movement was met with widespread suspicion from government to the extent of a systematic destruction of its reputation It was however a key pioneer of irregular warfare that led to the formation of the famous Special Operations Executive SOE His study is the first in depth account of it to be published since the release of previously secret documents to the National Archives **The Politics and Strategy of Clandestine War** Neville Wylie, 2006-09-15 This fascinating new collection of essays on Britain's Special Operations

Executive SOE explores the non military aspects of British special operations in the Second World War It details how SOE was established in the summer of 1940 to set Europe ablaze as Churchill memorably put it This was a task it was meant to achieve by detonating popular resistance against Axis rule and nurturing secret armies which might be capable of providing military and other forms of assistance for British forces when they were once again able to return to the offensive and conduct land operations in Europe The importance of the collection however goes beyond merely illuminating aspects of SOE s work which have largely been overlooked in previous scholarship More significantly by situating SOE within the context of Britain s broader political needs the essays demonstrate the extent to which SOE came to epitomise and embody the range of skills that are found in today s secret service organisations SOE showed itself capable of operating on a global scale and developing the necessary expertise equipment and personnel to conduct activities across the whole spectrum of what we have come to know as covert operations By bringing SOE s activities into sharper focus and exposing the scale of its involvement in Britain s wartime external relations the essays echo current thinking on the place of the so called secret world in international politics
