Shame on You Melissa Petro, 2024-09-10 In the spirit of Rebecca Traister's Good and Mad and Roxane Gay's Bad Feminist comes a courageous in depth investigation into the modern epidemic of shame in our society what it is why women are uniquely susceptible and how we can shift the shame off our plates and live our best lives in an over exposed image obsessed world For millions of women shame is a vicious predator It tells us we are less than that we are unworthy We try everything to escape shame ignoring it intellectualizing it and even ironically shaming ourselves for feeling it The reality is that women experience shame more frequently and more intensely than men a direct result as acclaimed journalist Melissa Petro explains of a patriarchal culture that urges women to feel bad about themselves and then punishes them when they do Why can't we figure out how to break the shame cycle once and for all In Shame on You Petro takes on the issue of women's shame directly with an unflinching look at the social systems that encourage women to believe we are deeply inadequate From shame's beginnings Maybe she's born with it Nope it's misogyny to its effect on our lives as adults How the humiliation of bad women affects us all shame poisons our friendships romantic relationships and work lives But it doesn't have to be that way Blending investigative reporting science literature and hundreds of women's personal stories including her own shameful account of winding up as an unwitting New York Post cover girl Petro offers us a new way forward No matter what you do she explains there is no escaping being judged And yet the women we can become sometimes as a consequence of shame rather than in spite of it are powerful indeed And maybe that's what others are afraid of

The Dictatorship of Capital Michael Tubbs, 2013-11-22 If you are one of the many people today looking for explanations and possible solutions to the ongoing Global Financial Crisis and Global Ecological Crisis then this book should be on your reading list Michael Tubbs spent eighteen years as a barrister representing smaller corporations against some of the giant corporations of capital which now dominate the world global economy Tubbs was in practice during the collapse of the top down Soviet system and its replacement by the equally top down corporatist system Tubbs experience forced him to draw the unavoidable conclusion that EVERY CORPORATION OF CAPITAL IS POTENTIALLY IN THEORY AND FACT A CONSPIRACY AGAINST EVERYTHING ELSE IN SOCIETY EXCEPT ITSELF He believes it is time that people understood the role that corporatism has played in bringing the world to its economic and environmental knees He shows how the corporations of capital have gained so much power in society to the detriment of democracy throughout the world While private corporations have exploited our labour and our natural resources for their own greed our governments have failed in their duty of care Corporations continue to hide away their profits in tax havens while ordinary citizens bear the brunt of the GFC and GEC and no one accepts or apportions blame Tubbs argues it is time to take action to lift the corporate veil of secrecy and privilege that protects corporations of capital and to democratise them for the benefit of all
