Secret Landscapes:

Secret Landscapes Wynford Vaughan-Thomas,1992 *Riches Hidden in Secret Places* Tzvi Abusch,2002-06-30

Providing a scholar's salute to a teacher colleague and friend the contributors of this new volume honor the memory of Thorkild Jacobsen with essays on Mesopotamian history culture literature and religion Contributors include Tzvi Abusch John Huehnergard Bendt Alster Jeremy Black Miguel Civil Jerrold S Cooper M J Geller Stephen A Geller Samuel Greengus William W Hallo Wolfgang Heimpel Jacob Klein W G Lambert Jack M Sasson Ake W Sjöberg Piotr Steinkeller H L J Vanstiphout and Claus Wilcke Our Hidden Landscapes Lucianne Lavin,Elaine Thomas,2023-10-31 The aim of this book is to introduce readers to the historic Indigenous ceremonial stone landscapes that dot the woodlands of Eastern North America that they may be able to identify these ritual landscapes and thus help protect and preserve them for future generations National Geographic Guide to the World's Secret Places David Yeadon,2004 Here are island hideaways on the tropical beaches of Mauritius in the Indian Ocean and on the windswept North Atlantic shores of Harris where Scottish crofters handweave their famous tweed Visit mountain aeries from the Himalaya to the Pyrenees secret realms from the harshly beautiful desertscapes of the Sahara to the lush rain forests of Costa Rica or the winding alleys of a village tucked into the foothills of the Alps Twenty eight destinations in all each place has its own unique flavor and appeal yet shares a kind of privacy and authenticity all too rare in our hectic modern world *The Secret Places of the Heart* Herbert George Wells,1922 The novel a thinly veiled autobiography depicts an English gentleman Sir Richard Hardy who is attempting to sort out his marital problems while he travels the English countryside in the company of a psychiatrist Goodreads **Language Teachers' Stories from their Professional Knowledge Landscapes** Lesley Harbon,Robyn Moloney,2017-06-23 Language Teachers Professional Knowledge Landscapes is a collection of fourteen narratives from teachers of different languages at different school levels in different contexts across Australia This volume brings together not simply language teacher stories but also more political stories of the problems associated with school programs and contexts Highlighted through these stories are some of the major political issues in schools that impact language teachers work and their students success in sustained language study The book is conceptually framed by the work of Clandinin and Connelly 1996 and their notion of levels of stories told by teachers about their classrooms the secret the sacred and the cover stories The term professional knowledge landscape is used to indicate how teachers can critically situate their work and thereby understand it better The collection includes the stories of two outstanding primary language educators and a story of mixed success in a rural program in teaching the local Aboriginal language Ngarrabul There are stories of frustration with policy failures particularly in supporting the learning of Asian languages Many of the teacher narrators ask the confronting question What blocks language learning in Australia They offer the strategies which they have developed that they see making a difference Other narratives offer autoethnographic tracking of careers for example as a teacher of Latin and Classics Japanese French Spanish Russian and of teachers ongoing

vigour and creativity in advocacy A number of teachers examine their own identity story for the intercultural learning which they then offer and extend in student learning Consistently expressed there is the need for teachers to take up individual responsibility while still being strongly supported by their professional community It is us who make the difference one teacher concludes Supported by a strong Foreword by Canadian scholar F Michael Connelly this ground breaking collection of narratives represents a form of social research in providing critical illustrations of the issues needing attention for national language education enhancement It is the only extended inquiry into language teaching in the context of an active policy initiative environment and the first volume to address the language education landscape through the voices of active language teachers

Gothic Landscapes Sharon Rose Yang, Kathleen Healey, 2016-11-15 This book is about the ways that Gothic literature has been transformed since the 18th century across cultures and across genres In a series of essays written by scholars in the field the book focuses on landscape in the Gothic and the ways landscape both reflects and reveals the dark elements of culture and humanity It goes beyond traditional approaches to the Gothic by pushing the limits of the definition of the genre From landscape painting to movies and video games from memoir to fiction and from works of different cultural origins and perspectives this volume traverses the geography of the Gothic revealing the anxieties that still haunt humanity into the twenty first century

Landscapes Beyond Land Arnar Árnason, 2012-09-15 Land is embedded in a multitude of material and cultural contexts through which the human experience of landscape emerges Ethnographers with their participative methodologies long term co residence and concern with the quotidian aspects of the places where they work are well positioned to describe landscapes in this fullest of senses The contributors explore how landscapes become known primarily through movement and journeying rather than stasis Working across four continents they explain how landscapes are constituted and recollected in the stories people tell of their journeys through them and how in turn these stories are embedded in landscaped forms

Hierophantic Landscapes Richard Leviton, 2011-09-26 The Earth is poised to make a great disclosure Its a hierophant But whats a hierophant A person who reveals the holy light But it can also be a landscape or a planet And whats the holy light It is the structure of reality and consciousness a map of the heavenly realms the engineering blueprint of Creation Some people call this imminent disclosure the Apocalypse and run for cover But that is mistaken Apocalypse means the revelation of the divine revelation It means the end of our picture of the world as we know it The world itself will be fine even better than fine Splendid Illumined The Architect of reality lays down His cards face up and you see the whole deck Here is the truth of yourself and the Earth How will this disclosure work What we call sacred sites and holy landscapes will start revealing themselves in full to us in all their geomantic and visionary richness Thats the inner patterning of their design their arrays of Light temples and subtle palaces primed for our visionary adventures and edification The Earth needs us to have these adventures and visions because thats how we keep the planet healthy Hierophantic Landscapes visits five landscapes from Norway and England to California and Mexico providing firsthand

reports on the visions and adventures of a small band of geomancers as they seek to unravel the mysteries of the Earth Maybe not such a small band because along the way we encounter angels landscape devas Nature Spirits and otherworldly mentors and revel in vistas of the ancient past of the Earth when that revelation was as fresh as a sunrise as it will soon be again

The Politics of Media Scarcity Greg Elmer, Stephen J. Neville, 2024-01-31 This book questions the predominance of media abundance as a guiding concept for contemporary mediated politics The authors argue that media abundance is not a universal condition and that certain individuals communities and even nations can more accurately be referred to as media scarce where access to media technologies and content is limited highly controlled or surveilled Through case studies that focus on guerilla militants incarcerated Indigenous people and cold war era infrastructure including Soviet closed or secret cities and Canadian nuclear bunkers the book's chapters interrogate how the once media scarce later speak to and can be heard by the predominant abundant media culture Drawing from several art projects and diverse cultural sites the book highlights how media scarce communities negotiate and otherwise narrate their place in the world their past experiences and lives and escape from subjugation To better understand media scarce politics the book asks how and when communities become by accident or force by choice or necessity media scarce This innovative and insightful text will appeal to students and scholars around the world working in the areas of media and politics art and politics visual studies surveillance studies and communication studies

Secret France

Automobile Association (Great Britain),2000-03 This is the perfect companion for exploring the hidden tranquil corners that form the rural heart of France Places of Enchantment Graham Usher,2012-10-18 There is a great and honourable tradition of finding God in landscapes Many who have given up on church appreciate the spiritual benefits they gain from climbing a mountain or walking in nature But how and why do we encounter God in land forest river mountain desert garden sea and sky That is what Graham Usher explores in this captivating volume which takes us from the giant Redwoods of the Californian Sierra Nevada to the jagged New York skyline from the wilds of the ancient Scottish Highlands to the rolling pastures of English Shropshire Drawing on material from biblical and church history traditions as well as scientific research and contemporary art he seeks to ascertain how such encounters support our Christian pilgrimage and challenge our assumptions The People, Place, and Space Reader Jen Jack Gieseeking,William Mangold,Cindi Katz,Setha Low,Susan Saegert,2014-04-16 The People Place and Space Reader brings together the writings of scholars designers and activists from a variety of fields to make sense of the makings and meanings of the world we inhabit They help us to understand the relationships between people and the environment at all scales and to consider the active roles individuals groups and social structures play in creating the environments in which people live work and play These readings highlight the ways in which space and place are produced through large and small scale social political and economic practices and offer new ways to think about how people engage the environment in multiple and diverse ways Providing an essential resource for students of urban studies geography sociology and many other areas this book brings together important but till now widely dispersed writings across many inter related disciplines Introductions from the editors precede each section introducing the texts demonstrating their significance and outlining the key issues surrounding the topic A companion website PeoplePlaceSpace.org extends the work even further by providing an on going series of additional reading lists that cover issues ranging from food security to foreclosure psychiatric spaces to the environments of predator animals *Material Culture* Kenneth L. Ames,1985 **Landscape as Sacred Space** Steven Lewis,2005-07-15 Steven Lewis s Landscape as Sacred Space Metaphors for the Spiritual Journey invites new discussions about our spiritual journeys and allows seekers to rethink approaches to Christian spirituality and theology in light of postmodernity Landscape metaphors provide a common and accessible language to articulate one s spiritual journey Spiritual mountains deserts and valleys are dominant landscapes on our journey through life Most people have experienced the joy of a mountaintop spiritual experience the pain of spiritual deserts or perhaps the dreariness too often associated with spiritual valleys There is a tendency however to highlight spiritual mountaintops while avoiding spiritual deserts and ignoring spiritual valleys This leaves many Christians ill equipped either to deal with crises or to integrate God into ordinary life Each landscape offers rich lessons that when combined together lead us toward a maturing faith and into a deeper relationship with God Landscape as Sacred Space is intended to aid those who search for more meaningful ways to articulate their faith journey The book grants permission to struggle with

life's landscapes provides safe spaces to reflect on the journey and introduces language that enables exploration and discovery

Uprooting University Apartheid in South Africa Teresa A. Barnes, 2018-12-07 South Africa continues to be an object of fascination for people everywhere interested in social justice issues postcolonial studies and critical race theory as manifested by the enormous worldwide attention given to the RhodesMustFall movement In this book Teresa Barnes examines universities complex positioning in the apartheid era and argues that tracing the institutional legacies left by pro apartheid intellectuals are crucial to understanding the fight to transform South African higher education A work of interpretive social history this book investigates three historical dynamics in the relationship between the apartheid system and South African higher education First it explores how the legitimacy of apartheid was historically reproduced in public higher education Second it looks at ways that academics maneuvered through and influenced national and international discourses of political freedom and legitimacy Third it explores how and where stubborn tendrils of apartheid era knowledge production practices survived into and have been combatted during the democratic era in South African universities

The Last Wild Places of Kansas George Frazier, 2017-02-16 Since the last wild bison found refuge on the back of a nickel the public image of natural Kansas has progressed from Great American Desert to dust bowl to flyover country that has been landscaped fenced and farmed But look a little harder George Frazier suggests and you can find the last places where tenacious stretches of prairie forest and wetland cheat death and incubate the DNA of lost wild America Documenting three years spent roaming the state in search of these hidden treasures The Last Wild Places of Kansas is Frazier's idiosyncratic and eye opening travelogue of nature's secret holdouts in the Sunflower State These are places where extirpated mammalian species are making comebacks where flying squirrels leap between centuries old trees lit by the unearthly green glow of foxfire where cold springs feed ancient watercress pools where the ice moon paints the Smoky Hills with memories of the buffalo wolf and the lonesome rattle of false indigo where the blue lid of the sky forms a vacuum seal over treeless pastel hills orange in winter where bluestem rises Some are impossible to find on maps Most are magnificently bereft of anything beneficial to 99.9 percent of modern America True wildernesses they may not be but at the correct angle of light when the wind blows pollen carrying biological memories of the glaciers these places are a crack between the worlds portals to the lost buffalo wilderness En route Frazier takes us from the unexpected wilds of the Kansas City suburbs to the Cimarron National Grassland in the far southwestern corner of the state He visits ancient springs shares a beer with prairie dog hunters and fails in his mission to canoe the upper Marais des Cygnes a trip that requires permission from every landowner on the route Along the way we encounter a host of curious characters ranchers farmers Native Americans explorers wildlife experts and outdoor enthusiasts all fellow travelers in a quest to know preserve and share the last wild places of Kansas

Language in Strange and Familiar Places Alexandra Y. Aikhenvald, Anne Storch, Viveka Velupillai, 2025-06-02 Language and place are intimately connected depending on where we are what the context is and what our aims are we will adjust our language

accordingly Yet linguistics defines itself by a framework that determines which kind of language is worth investigating Within that framework linguistics constructs both language and place in multiple ways language as a sequestered thing belongs to the field site or the classroom language as fluid practice is associated with the street language as reconstruction belongs to migration corridors What about the places that tend to fall between the cracks This volume explores language in strange and familiar places from Europe to Africa Amazonia Australia and the Pacific in order to shed light on them Myth and Environmentalism Esther Sánchez-Pardo, María Porrás Sánchez, 2023-07-05 This volume traces the interconnections between myth environmentalism narrative poetry comics and innovative artistic practice using this as a framework through which to examine strategies for repairing our unhealthy relationship with the planet Challenging late capitalist modes encouraging mindless consumption and the degradation of human nature relations this collection advocates a re evaluation of the ethical relation to living with and sharing the Earth Myth and the environment have shared a rich common cultural history travelling as far back as the times of storytelling and legend with the environment often the central theme Following a robust introduction the book is organized into three main sections Myth Disaster and Present Day Views on Ecological Damage Indigenous and Afro diasporic Myths and Ecological Knowledge Art Practices Myth and Environmental Resilience and concludes with a Coda from Jeanette Hart Mann The methodology draws from diverse perspectives such as ecocriticism new materialism and Anthropocene studies offering a truly interdisciplinary discussion that reflects on the dialogue among environment and myth and a broad range of contributions are included from Canada the United States the Caribbean Ukraine Japan Morocco and Brazil The book joins a long line of approaches on the interrelations between ecological and mythical thinking and criticism that goes back to the early 20th century This volume will be of interest to students scholars activists and experts in environmental humanities myth and myth criticism literature and art on more than human and nature interaction ecocriticism environmental activism and climate change

university physics volume 1 chs 1 20 13th edition young - Jun 29 2022

web university physics with modern physics thirteenth edition continues to set the benchmark for clarity and rigor combined with effective teaching and research based innovation university physics is known for its uniquely broad deep and thoughtful set of worked examples key tools for developing both physical understanding and problem

university physics 13th edition 13th edition amazon com - Apr 08 2023

web jan 8 2011 the thirteenth edition revises all the examples and problem solving strategies to be more concise and direct while maintaining the twelfth edition s consistent structured approach and strong focus on modeling as well as math

10 8 work and power for rotational motion openstax - Sep 07 2022

calculate the torque for each force calculate the work done during the body's rotation by every torque apply the work energy theorem by equating the net work done on the body to the change in rotational kinetic energy let's look at two examples and use the work energy theorem to analyze rotational motion

rotational kinematics numerical problems and solutions - Mar 01 2022

jan 6 2021 last updated on april 12th 2021 at 09 27 am this post is all about rotational kinematics numerical problems and solutions we will use the following four rotational kinematic equations presented together with their translational counterparts to solve the numerical problems

rotational kinetics problems 1 sparknotes - Jun 04 2022

problem most planets orbit the sun in elliptical orbits do these planets exhibit rotational motion rotational motion has two requirements all particles must move about a fixed axis and move in a circular path since the path of most planets is not circular they do not exhibit rotational motion problem

physics 1120 rotational kinematics solutions - Oct 08 2022

physics 1120 rotational kinematics solutions 1 initially a ball has an angular velocity of 5.0 rad/s counterclockwise some time later after rotating through a total angle of 5.5 radians the ball has an angular velocity of 1.5 rad/s clockwise

use rotational kinematic equations to solve problems involving objects undergoing angular accelerations includes 4 multi part problems problem set rk8 using the big 4 eqns and linear relationships combine an understanding of linear and angular quantities with the use of rotational kinematic equations to analyze complex rotation scenarios

10 2 kinematics of rotational motion openstax - Jul 17 2023

rotational kinematics just like linear kinematics is descriptive and does not represent laws of nature with kinematics we can describe many things to great precision but kinematics does not consider causes for example a large angular acceleration describes a very rapid change in angular velocity without any consideration of its cause

equation overview for rotational kinematics problems - Feb 12 2023

we have 8 ready to use problem sets on the topic of rotational kinematics these problem sets focus on the analysis of situations involving a rigid object rotating in either a clockwise or counterclockwise direction about a given point the object's rotation speed may be increasing decreasing or remaining constant

problem a merry go round has an initial angular velocity of 10.2 rpm at the end of the ride the brakes are applied giving it a constant angular deceleration of 0.032 rad/s^2 as the ride slows to a stop

6 3 rotational motion physics openstax - Aug 18 2023

rotational kinematics in the section on uniform circular motion we discussed motion in a circle at constant speed and therefore constant angular velocity however there are times when angular velocity is not constant rotational motion can speed up

[kinematics of rotational motion physics lumen learning](#) - Jul 05 2022

evaluate problem solving strategies for rotational kinematics just by using our intuition we can begin to see how rotational quantities like θ , ω and α are related to one another for example if a motorcycle wheel has a large angular acceleration for a fairly long time it ends up spinning rapidly and rotates through many revolutions

5 1 rotational kinematics physics libretexts - Jan 31 2022
