**Disappearance of Childhood** Neil Postman, 2011-06-08 From the vogue for nubile models to the explosion in the juvenile crime rate this modern classic of social history and media traces the precipitous decline of childhood in America today and the corresponding threat to the notion of adulthood. Deftly marshaling a vast array of historical and demographic research Neil Postman author of *Technopoly* suggests that childhood is a relatively recent invention which came into being as the new medium of print imposed divisions between children and adults. But now these divisions are eroding under the barrage of television which turns the adult secrets of sex and violence into popular entertainment and pitches both news and advertising at the intellectual level of ten-year-olds. Informative alarming and aphoristic *The Disappearance of Childhood* is a triumph of history and prophecy. **Children in the Films of Steven Spielberg** Adrian Schober, Debbie Olson, 2016-04-13

To say that children matter in Steven Spielberg's films is an understatement. Think of the possessed Stevie in *Something Evil*, TV Baby Langston in *The Sugarland Express*, the alien abducted Barry in *Close Encounters*, Elliott and his unearthly alter ego in *E.T.*, the war-damaged Jim in *Empire of the Sun*, the little girl in the red coat in *Schindler's List*, the mecha child in *A.I.*, the kidnapped boy in *Minority Report*, and the eponymous boy hero of *The Adventures of Tintin*. There are many other instances across his oeuvre. Contradicting his reputation as a purveyor of popcorn entertainment, Spielberg's vision of children's childhood is complex. Discerning critics have begun to note its darker underpinnings, increasingly fraught with tensions, conflicts, and anxieties. But while childhood is Spielberg's principal source of inspiration, the topic has never been the focus of a dedicated collection of essays. The essays in *Children in the Films of Steven Spielberg* therefore seek to address childhood in the full spectrum of Spielberg's cinema. Fittingly, the scholars represented here draw on a range of theoretical frameworks and disciplines: cinema studies, literary studies, audience reception, critical race theory, psychoanalysis, sociology, and more. This is an important book for not only scholars but teachers and students of Spielberg's work and for any serious fan of the director and his career.

**Montessori** Angeline Stoll Lillard, 2017. Angeline Stoll Lillard here shows that science has finally caught up with Maria Montessori. Lillard presents the research behind eight principles that provide the foundation for Montessori education and describes how each principle is applied in the Montessori classroom.

**The Absorbent Mind** Maria Montessori, 2011-10-07. In response to the crisis in American education, more than five thousand public and private schools across the nation have adopted the timeless Montessori Method of teaching, of which this book is the cornerstone. Written by the woman whose name is synonymous worldwide with child development theory, *The Absorbent Mind* takes its title from the phrase that the inspired Italian doctor coined to characterize the child's most crucial developmental stage, the first six years.

**The 'Irish' Family** Linda Connolly, 2014-10-24. When situated in the wider European context, the Irish family has undergone a process of profound transformation and rapid change in very recent decades. Recent data cites a significant increase in one-parent households and a high non-marital birth rate, for instance, alongside the emergence of cohabitation, divorce, same-sex families, and reconstituted families. At the same time, the majority of children in Ireland still live in a two-parent family based on marriage, and the divorce rate in Ireland is comparatively lower than other European countries. 21st-century family life is, in reality, characterised by continuity and change in the Irish context. This book seeks to understand, interpret, and theorise family life in Ireland by providing a detailed analysis of historical change, demographic trends, fertility and reproduction, marriage, separation and divorce, sexualities, children and young people, class, gender, motherhood, intergenerational relations, grandparents, ethnicity, globalisation, technology, and family practices. A comprehensive analysis of key developments and trends over the course of the twentieth and twenty-first centuries is provided.

[A Critical Anthropology of Childhood in Haiti](#) Diane M. Hoffman, 2024-01-11. This book offers a critical anthropological perspective on contemporary childhood in Haiti. It is based on longitudinal ethnographic fieldwork carried

out over a period of 13 years with vulnerable children in Haiti Diane M Hoffman raises important questions about how interventions by well meaning foreigners and white saviors often misrepresent Haitian culture and society as deficient while privileging their own emotions alongside supposedly universal ideas about children that reinforce their own power to define and intervene in Haitian lives She argues for a new approach to Haitian childhood that centers children s informal learning and self education alongside indigenous spirituality and constructions of personhood that can resist the hegemony of neo colonial and neo liberal forces Instead of representing the country and its children as a place of problems to be solved the book shows the importance prioritizing aspects of Haitian world views in order to develop a more culturally informed understanding of childhood in Haiti that can support genuine social change
