Forgetting Jonathan M. Golding, Colin M. MacLeod, 2013-06-17 Research on intentional forgetting has been conducted in various forms and under various names for at least 30 years but until now no effort has been made to present these different perspectives in one place. Comprising both review chapters and new empirical studies, this book brings together the many research paradigms investigating intentional forgetting, thereby highlighting the commonalities that link these seemingly disparate areas of research. It serves as a case study of one phenomenon in memory: the intention to forget or to modify memory. Why is research on intentional forgetting important? It helps to increase the understanding of how memory functions, especially with regard to its updating. In William James' booming buzzing confusion, we frequently are unable to adequately process all of the information that we experience; on-line forgetting of some information is necessary. Moreover, we must often replace existing information with new information, as when someone we know relocates and acquires a new address and telephone number. Investigating this updating ability has been the main thrust of research on intentional forgetting, specifically those studies on the directed forgetting phenomenon. Cognitive experiments on directed forgetting have shown that we are able to deal more effectively with large amounts of information by following instructions to treat some of the information as to be forgotten. In this way, interference is reduced, and we are able to devote all of our resources to the remaining to-be-remembered information. The mechanisms that lead to this reduction continue to promote new experiments, but over a quarter century of research maintains that the directed forgetting effect is robust. **Pillar of Salt** Janice Haaken, 1998 Introduces the controversy over recollections of childhood sexual abuse as the window onto a broader field of ideas concerning memory, storytelling, and the psychology of women. *Encyclopedia of Feminist Literary Theory* Elizabeth Kowaleski-Wallace, 2009-03-23 First Published in 1997, Routledge is an imprint of Taylor & Francis, an informa company.

God and the Victim Jennifer Erin Beste, 2007-09-28 How does severe interpersonal harm affect our freedom and the ways in which we relate to ourselves, others, and God? This book addresses the challenges that trauma and feminist theory pose to cherished theological convictions about human freedom and divine grace. *Gateways to Improving Lesbian Health and Health Care* Christy M. Ponticelli, 2021-12-12 An interdisciplinary book that creates a space for traditionally oppressed voices to speak. *Gateways to Improving Lesbian Health and Health Care* explores the health care experiences of lesbians of different ages, colors, and places. By presenting the particular difficulties lesbians have in accessing excellent or even adequate health care, this book is meant to convince lesbians who have been isolated that their health issues and interactions with health care professionals are not just personal troubles but larger public issues. It is also designed to show health care providers how they can sensitize their care and meet the needs of lesbian clients through the provision of safe and respectful environments. As *Gateways to Improving Lesbian Health and Health Care* addresses the intersection of race, class, and sexuality, and how it affects the health care lesbians receive, you learn about lesbians' strategies for coming out to professionals, patient-professional interaction, and the construction of lesbianism as a social problem within the health care

arena You will also learn about the need to view sexualities as local histories and narratives the invisibility of aging lesbians in health and policy arenas domestic violence in lesbian relationships surviving a series of social identity exclusions the difficulties of finding information on heterosexist or lesbian friendly health care providers in unfriendly communities personal accounts of prejudices lesbians have encountered when seeking health care struggling with alcoholism Lesbian health care consumers health care educators and providers social service workers and those in women s studies programs need to know how health care services often fail lesbians in need With its practical suggestions for improving health care delivery to lesbians Gateways to Improving Lesbian Health and Health Care is essential reading for ensuring quality care to lesbians of all ages backgrounds ethnicities and locations

Are Women Human? Catharine A. MacKinnon, 2007-11-30 More than half a century after the Universal Declaration of Human Rights defined what a human being is and is entitled to MacKinnon asks Are women human yet She exposes the consequences and significance of the systematic maltreatment of women and its systemic condonation as she points toward fresh ways of targeting its toxic orthodoxies

Confessional Politics Irene Gammel, 1999 The premise of Confessional Politics is that in this confessional age telling all is in From a unique variety of perspectives and angles the essays in this collection explore the association of confession with femininity they examine its function as a gender specific discourse as they probe its many feminized genres and subgenres Confessional Politics investigates the creative and strategic ways in which women shape the telling of their sexual stories in order to resist and negotiate the confessional practices designed to position them in conventional sexual frameworks Investigating the confessional politics of traditional forms of social life writing including erotic diaries journals letters and confessional fiction this book significantly expands its focus beyond conventional forms to include practices affecting mass readerships and audiences The collection addresses provocative general topics talk shows sexual harassment sexual abuse sexuality self help books and cross dressing as well as expressive works such as contemporary Canadian women s poetry lesbian fiction performance art Anne Frank s recently released complete diary and memoirs

Encyclopedia of Domestic Violence Nicky Ali Jackson, 2007-12-11 The Encyclopedia of Domestic Violence is a modern reference from the leading international scholars in domestic violence research The first ever publication of an encyclopedia of domestic violence the principal aim of this title is to provide information on a variety of traditional and breakthrough issues in this complex phenomenon

Psychological Trauma And Adult Survivor Theory Lisa McCann, Laurie Anne Pearlman, 2015-12-22 First published in 1991 In this book the authors present a new conceptualization of the unique experience of trauma survivors They offer both a new theoretical model which we call constructivist self development theory CSDT and a description of its application to clinical assessment of and intervention with adult trauma survivors
