**Representations of Technology in Science Fiction for Young People ,      Representations of Technology in Science Fiction for Young People** Noga Applebaum, 2009-09-10 In this new book Noga Applebaum surveys science fiction novels published for children and young adults from 1980 to the present exposing the anti technological bias existing within a genre often associated with the celebration of technology Applebaum argues that perceptions of technology as a corrupting force particularly in relation to its use by young people are a manifestation of the enduring allure of the myth of childhood innocence and result in young adult fiction that endorses a technophobic agenda This agenda is a form of resistance to the changing face of childhood and technology's contribution to this change Further Applebaum contends that technophobic literature disempowers its young readers by implying that the technologies of the future are inherently dangerous while it neglects to acknowledge children's complex yet pleasurable interactions with technology today The study looks at works by well known authors including M T Anderson Monica Hughes Lois Lowry Garth Nix and Philip Reeve and explores topics such as ecology cloning the impact of technology on narrative structure and the adult child hierarchy While focusing on the popular genre of science fiction as a useful case study Applebaum demonstrates that negative attitudes toward technology exist within children's literature in general making the book of considerable interest to scholars of both science fiction and children's literature      [The Europa Directory of Literary Awards and Prizes](#) Susan Leckey, 2015-12-22 A complete guide to

*Be Very Afraid* Robert Wuthnow, 2010-04-07  
Robert Wuthnow has been praised as one of the country s best social scientists by columnist David Brooks who hails his  
writing as tremendously valuable The New York Times calls him temperate balanced compassionate adding one can t but  
admire Mr Wuthnow s views A leading authority on religion he now addresses one of the most profound subjects the end of  
the world In *Be Very Afraid* Wuthnow examines the human response to existential threats once a matter for theology but now  
looming before us in multiple forms Nuclear weapons pandemics global warming each threatens to destroy the planet or at  
least to annihilate our species Freud he notes famously taught that the standard psychological response to an overwhelming  
danger is denial In fact Wuthnow writes the opposite is true we seek ways of positively meeting the threat of doing something  
anything even if it s wasteful and time consuming The atomic era that began with the bombing of Hiroshima sparked a flurry  
of activity ranging from duck and cover drills basement bomb shelters and marches for a nuclear freeze All were arguably  
ineffectual yet each sprang from an innate desire to take action It would be one thing if our responses were merely pointless  
Wuthnow observes but they can actually be harmful Both the public and policymakers tend to model reactions to grave  
threats on how we met previous ones The response to the terrorist attacks of 9 11 for example echoed the Cold War citizens  
went out to buy duct tape mimicking 1950s era civil defense measures and the administration launched two costly conflicts

overseas Offering insight into our responses to everything from An Inconvenient Truth to the bird and swine flu epidemics Robert Wuthnow provides a profound new understanding of the human reaction to existential vulnerability **Utopian and Dystopian Writing for Children and Young Adults** Carrie Hintz, Elaine Ostry, 2013-10-11 This volume examines a variety of utopian writing for children from the 18th century to the present day defining and exploring this new genre in the field of children's literature The original essays discuss thematic conventions and present detailed case studies of individual works All address the pedagogical implications of work that challenges children to grapple with questions of perfect or wildly imperfect social organizations and their own autonomy The book includes interviews with creative writers and the first bibliography of utopian fiction for children **Guardian of the Drowned Empire** Frankie Diane Mallis, 2022-06-28 Now that Lyr has survived the Emperor's cruel punishment she has only three months to prepare for the test that will decide her fate Despite Rhyas's promise of additional training her life has never been in more danger Enemies known and unknown get closer every day While the Emperor's soldiers occupy the city the Emartis rebels grow bolder marking Lyr as their target Staying safe means more time under Rhyas's protection But the closer they become the more their desire ignites the harder it becomes to resist temptation Secrets can only remain hidden for so long Even ones Lyr bled for As new threats arrive at the Bamarian border Lyr delves deeper into solving the mystery of her power But revealing these secrets and surviving the Emperor's test may cost Lyr more than she can bargain for Loyalty will be tested Lines will be crossed Ancient promises will be reforged And most dangerous of all as passion burns oaths will be broken Jackie Under My Skin Wayne Koestenbaum, 2013-09-17 Jackie Under My Skin is a nuanced description of how Jacqueline Kennedy Onassis transformed our definitions of personal identity and style As Wayne Koestenbaum follows her into America's dreamworld far from pious family values he dares to see her as a pleasure principle a figure of Circean extravagance and liberates her from the propagandistic uses to which her image is often harnessed *Taking You Under My Skin* Marvin J.
