remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt Viewing Atlantis and its many related myths as a metaphor for a long lost global civilization Patrick Chouinard explores the mythological cultural religious and archaeological evidence for many forgotten civilizations in Europe Asia and the Americas He addresses unexplained mysteries from around the world such as Caucasian mummies found in China the pyramids of Caral in Peru the hobbit remains on Flores Island the giant heads of Easter Island the lost legacy of Lemuria the ideology and occult mysticism behind Nazi theory and the genetically unique X woman of Siberia He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past Using recent archaeological findings he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa Sounding the call to continue searching ancient remote and formerly forbidden regions for lost cultures and genetic root races Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time By finding lost peoples and their forgotten worlds we can truly begin to understand the human race and learn from its long history

The Return of Odin Richard Rudgley, 2018-03-13 A controversial examination of the influence and presence of the Norse god Odin in contemporary history and culture Documents Odin's role in the rise of Nazi Germany the 1960s counterculture revolution nationalist and ecological political movements and the occult revival Examines the spiritual influence of Odin in relation to Jesus Christ Profiles key individuals instrumental in the rise of the modern pagan renaissance Exploring the influence of the Norse god Odin in the modern world Richard Rudgley reveals Odin's central role in the pagan revival and how this has fueled a wide range of cultural movements and phenomena including Nazi Germany the 1960s counterculture revolution the Lord of the Rings the ecology movement and the occult underground Rudgley argues that it is Odin and not Jesus Christ who is the single most important spiritual influence in modern Western civilization He analyzes the Odin archetype first revealed by Carl Jung's famous essay on Wotan in the context of pagan religious history and explains the ancient idea of the Web a cosmic field of energies that encompasses time space and the hidden potentials of humanity the pagan equivalent to the Tao of Eastern tradition The author examines the importance of the concept of *wyrd* which corresponds to fate or destiny exploring techniques to read destiny such as the Runes as well as the existence of yoga in prehistoric and pagan Europe which later produced the Norse *Uti-seta* an ancient system of meditation Rudgley documents how the Odin archetype came into play in Nazi Germany with the rise of Hitler and the pagan counterculture of the 1960s He examines how the concept of subterranean and mythic realms such as the Hollow Earth Thule and Agartha and mysterious energies like Vril were manifested in both occult and profane ways and investigates key occult figures like Madame Blavatsky Guido von List and Karl Wiligut He provides pagan analyses of Tolkien and the Lord of the Rings and documents the impact the Odin archetype has had on nationalist and fascist groups in America and Europe Examining pagan groups in Europe and America that use the Norse template Rudgley reveals true paganism as

holistic and intimately connected with the forces at work in the life of the planet Showing how this green paganism can be beneficial for dealing with the adverse consequences of globalization and the ongoing ecological crisis he explains how when repressed the Odin archetype is responsible for regressive tendencies and even mass psychosis a reflection of the unprecedented chaos of Ragnarok but if embraced the Odin archetype makes it possible for like minded traditions to work together in the service of life

Mysterious Objects The World s Most Mysterious People Unsolved Mysteries of the Sea **Flood Legends: Sorted R.**
Pilotte,2019-07-16 There are hundreds of ancient flood legends around the world that tells of vast inundations in ancient times caused by catastrophic events It s often assumed that these legends refer to the flood of Noah and his ark Although many do mirror this biblical story some people say these legends simply refer to local floods that only affected the world of the locals not the whole globe There are three types of flood legends global local and a confusion of global mixed with local floods We sorted these legends into categories presented the evidences and exhibited the causes of each type From this discussion emerges a frightful picture of the ancient world where civilizations were affected time and time again by vastly destructive cataclysmic events The world changed mountains rose continents shifted cities and islands sunk species were obliterated and whole populations were wiped off the face of the earth Legends regularly validate others as true histories If the floods they spoke of were not global their effect was This roller coaster ride of evidence will challenge the worldview of ancient and geologic history that have been taught to us Legends of the floods often mentioned God or the gods which were considered to be either responsible for the floods or saved people from them The age when the gods ruled is associated with advanced technology and flood legends Atlantis is considered central in flood legends and many researchers have incorrectly linked its destruction with all flood legends The gods too are related to Atlantis and are frequently tied with floods which necessitated a section devoted to the age of the gods wherein we discover their origins and who they are *Genesis Unveiled* Ian Lawton,2004 Our oldest texts and religious writings speak of a golden race dwelling in utopian bliss before losing their way and suffering annihilation In a reappraisal of the sacred texts of antiquity Ian Lawton uncovers what he believes is the key to deciphering the origins of our antediluvian ancestors *Whitaker's Cumulative Book List* ,1978
