The Oral Instruction Tantra from the Secret Quintessential Instructions on the Eight Branches of the Ambrosia Essence Tantra [Men-Tsee-Khang-ཀུན་གྱི་ཡེ་ཤེས་ཀྱི་མཁའ་མཛོད་] Yuthok Yonten Gonpo, 2017-03-23. PREFACE. The traditional Tibetan medical system is composed of vast indigenous healing knowledge and practices and offers holistic treatment aimed at regulating and maintaining the balance of the functional principles of the mind and body. These principles are related to the characteristics of the elemental cosmic energies and as such it is understood that any disturbances in the environment can directly or indirectly affect the health of a person. The long history it enjoys, the sound foundations on which it is established, and the increasing popularity it has earned are clear indications that Tibetan Medicine is relevant and important even in the modern world. This valuable medical treasure is found in the highly esteemed Gyeshhi Four Tantras, a complete and profound multi-faceted text encompassing the unabridged theories and practices of Tibetan Medicine. It is the creation of eminent ancient scholars of Tibet and was achieved by practice, invention, and development through their intellectual wisdom. Based on practical experience with the ancient medical knowledge of the Tibetans, which relates to their unique culture, customs, and environment, the legendary Yuthok Yonten Gonpo, Father of Tibetan Medicine, composed the Gyeshhi by incorporating the essence of the then-known Asian medical systems such as Ayurvedic, Chinese, and Greek medicine, making it one of the oldest, most comprehensive, and reliable medical systems in the world. Tibetan Medicine offers a complete system.

of diagnostic and treatment methods based on an enormous herbal pharmacopoeia produced by complex and systematic manufacturing processes The essential principles of Tibetan Medicine are harmony and balance which lends it an inspiring relevance to the health problems of the modern world including the prevention of various psychosomatic disorders The teaching and practice of Tibetan Medicine is mainly concentrated in Tibet however the entire belt of the Himalayan region India Mongolia Kalmykia and Buryatia as well as a few Western countries also share in the practice of Tibetan Medicine Due to the growing popularity of Tibetan Medicine worldwide the increasing number of people interested in this discipline and in line with the enduring wishes of His Holiness the Dalai Lama the time has come to pass on this precise knowledge and instruction Our goal is to share Tibetan medical knowledge and its practices by making it available particularly to non Tibetans and for it to be widely used by English speaking medical practitioners scientists and researchers who have a commitment to providing quality health care to all human beings Hence overcoming the narrow attitudes of seclusion and secrecy Men Tsee Khang started a translation project to make an authentic interpretation of the original Tibetan medical knowledge available to interested people everywhere so that new thoughts and methods can be introduced into daily practice and provide greater benefits for the peoples of the world **Secret Cities of Old South America** Harold T.

PREFACE The Tibetan medical system more popularly known as Sowa Rigpa Knowledge of Healing is undoubtedly as old as Tibetan civilization itself The earliest inhabitants of Tibet were confronted with a host of difficulties due to the way they had to live during those ancient times The only means of sustenance and survival was to rely on the various natural resources around them These early people gradually learned the uses and medical efficacy of natural resources The inherent discernment of these early people led them to discover natural remedies for various healthrelated problems Their innate urge to overcome physical discomfort combined with their curiosity about the world around them made them create some effective natural remedies for many common illnesses Drinking and sprinkling cold water against fever compressing cold stone on an inflamed swelling using heated oil to stop bleeding drinking hot water for indigestion eating boiled foods rather than eating them raw these insights¹ and many others have proven their effectiveness and have continued to be of use even to this day The development of the Tibetan science of healing is based on the wisdom of such ancient medical practices The application of a medical remedy against poisoning² as pronounced by Tsiblhya Karma Yolde to the first king of Tibet Nyatri Tsenpo circa 300 B C clearly demonstrates that the early inhabitants of Tibet had knowledge of the therapeutic value of herbs and minerals even during that time Medical knowledge continued to be passed on by means of various oral traditions and has kept alive the knowledge of numerous remedies over many centuries Before Buddhism and the present Tibetan script were introduced to Tibet the Bon religious and cultural traditions flourished in the region of Shang Shung in southwestern Tibet The legendary Bon master and cultural founder Tonpa Shenrab Miwoche was born in Purang Tibet at the time of the Lord Buddha The Bon master authored many important medical literatures such as Sojay Kyi Do Ghu Sorig Chegyud Daser Sojay Nadbum Nagpo³ Sojay Manbum Karp⁴ Sothab Chedbum Trawo⁵ and Tsawa Thukbum Khangon⁶ and he established the foundation for the development of the Bon medical tradition His eldest son Chebu Trishey learned the art of medicine from his father and later became a very important figure in the development of the Bon medical system At that time Bon religion and culture were at their height and shamanistic ways of healing were very popular throughout Tibet They undoubtedly influenced the existing

Tibetan medical knowledge and practices The Gyueshi Four Tantras which is the fundamental text of Tibetan medicine contains mantras and the names of some medicinal substances compounds and diseases in the original Bon language This is a clear indication of the influence of Bon on Tibetan medicine We can therefore assume that there was knowledge and practices of medicine before the reign of King Lha Thothori Nyentsen and before the introduction of the present Tibetan script during the 7th century
