Secrets Of The Past:

Secrets of Long Ago Bess Sherman Cowden, 1926 Secret Preston Keith Johnson, 2015-11-15 Explore Preston's secret history through a fascinating selection of stories, facts and photographs **Learning from the Secret Past** Robert Dover, Michael S. Goodman, 2011-11-04 Identifying lessons learned is not new; the military has been doing it for decades. However, members of the worldwide intelligence community have been slow to extract wider lessons gathered from the past and apply them to contemporary challenges. *Learning from the Secret Past* is a collection of ten carefully selected cases from post World War II British intelligence history. Some of the cases include the Malayan Emergency, the Cuban Missile Crisis, Northern Ireland, and the lead up to the Iraq War. Each case is accompanied by authentic documents that illuminate important lessons that today's intelligence officers and policymakers in Britain and elsewhere should heed. Written by former and current intelligence officers, high-ranking government officials, and scholars, the case studies in this book detail intelligence successes and failures, discuss effective structuring of the intelligence community, examine the effective use of intelligence in counterinsurgency, explore the ethical dilemmas and practical gains of interrogation, and highlight the value of human intelligence and the dangers of the politicization of intelligence. The lessons learned from this book stress the value of past experience and point the way toward running effective intelligence agencies in a democratic society. Scholars and professionals worldwide who specialize in intelligence, defense and security studies, and international relations will find this book to be extremely valuable.

Hollywood's Frontier Captives Barbara A. Mortimer, 2018-10-24 The captivity narrative, the earliest genre of American popular literature, continues to be of cultural significance in late 20th-century Hollywood. Many popular films of the last four decades incorporate the most common elements of the captivity narrative tradition, including a politically contested frontier setting and a plot involving innocent family-oriented white Americans held captive by hostile culturally alien natives. At the same time, these films offer something new to the narrative tradition: they focus on the captive who resists rescue and the challenge this resistance poses to American cultural self-confidence. By focusing on the lost captive, these films, beginning with *The Searchers* (1956), deal with questions about American identity raised by a white American's cultural and potentially political transformation. Films as diverse as *Little Big Man*, *Taxi Driver*, and *The Deer Hunter* adapted the captivity narrative's conventions to criticize aspects of contemporary American society and reject outworn models of male heroism. At the same time, however, they retained the genre's traditional assumption of white superiority and its fear of female sexuality.
