## **Secular Socialists The Ccf Ndp In Ontario A Biography:**

Secular Socialists J.T. Morley, 1984-01-01 *Secular Socialists* is a comprehensive history of the NDP in Ontario and its predecessor the CCF from its beginnings in the early 1930s to the contemporary period. It is also a provocative analysis of the survival of the CCF NDP in the ideologically hostile environment of Ontario. Morley considers the party structure, the ideological forces that have shaped the party platform, the relationship between the caucus and the party executive and membership, the membership and ordinary conventions, and such factional disputes as the expulsion of Communists and the Waffle affair. Morley draws an analogy between the party individual and the human individual. His description of party development has a biographical character and allows an analysis of the complex relationships that exist between the party and the environment in which it grows. That environment, generally the political culture of Ontario, more specifically labelled the union class culture of Ontario, shapes the party's organizational, ideological, and political choices. The author also critically examines several prevailing theories about CCF NDP development, including the view that over the years the party has consistently drifted towards the right, a view that is specifically contradicted here. Ontario Since Confederation Edgar-André Montigny, Anne Lorene Chambers, Lori Chambers, 2000-01-01 Articles ranging widely with politics, economics, and social history contain some of the most recent scholarship in the field of post Confederation Ontario history, encompassing both traditional and newly emerging topics. *Canadian History: Confederation to the present* Martin Brook Taylor, Doug Owsen, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History, experts provide a select and critical guide to historical writing about pre and post Confederation Canada, with an emphasis on the most recent scholarship. Cover *Keeping the Dream Alive* Dan Azoulay, 1997-07-30 Azoulay delineates the central themes and determining factors of the party's development during the 1950s and early 1960s. The CCF NDP had to contend with not only a booming postwar economy and a very popular premier, but also a Cold War induced phobia toward the Left and serious intraparty divisions. Despite this, the party slowly recovered, led by a core of dedicated activists and employing an array of strategies, including the much publicized transformation of the CCF into the NDP in the early 1960s. The author counters allegations that the CCF NDP opportunistically abandoned its essential qualities, such as its socialist ideology or democratic structure, for the sake of electoral gain, and that organized labour played a leading role in the party in these years, contributing to the dilution of the movement. Although the party sought new alliances among the province's less privileged groups, especially organized labour, it did so cautiously and even hesitantly, always conscious of the need to preserve its basic identity. **Left, Right** Engler Yves Engler, 2019-10-15 The left is supposed to be opposed to colonialism and at least skeptical of nationalism. However, *Left Right* shows that for decades now, this hasn't been the case in Canada. Yves Engler marshals damning detail on the long, surprising history of support from the New Democratic Party and labor unions for such policies and international interventions as the coup in Haiti, the assassination of Patrice Lumumba, the Bay of Pigs invasion.

the Korean War and much more The rhetoric of the mainstream left he shows has also tended to concede major points to the dominant war mongering ideology with prominent commentators such as Linda McQuaig and Stephen Lewis echoing the terminology of right wing politicians and thinkers More than simply diagnosing a problem however Left Right offers a path forward laying out ways to get us working for an ecologically sound peace promoting and non exploitative foreign policy

**The Measure of Democracy** Daniel J. Robinson, 1999-04-24 Politicians government officials and public relations officers lean heavily on polling when fashioning public policy Proponents say this is for the best arguing that surveys bring the views of citizens closer to civic officials Critics decry polling s promotion of sycophantic politicians who pander to the whims of public sentiment or conversely the use of surveys by special interest groups to thwart the majority will Similar claims and criticisms were made during the early days of polling When George Gallup began polling Americans in 1935 he heralded it as a bold step in popular democracy The views of ordinary citizens could now be heard alongside those of organized interest groups When brought to Canada in 1941 the Gallup Poll promised similar democratic rejuvenation In actual practice traditionally disadvantaged constituencies such as women the poor French Canadians and African Americans were often heavily underrepresented in Gallup surveys Preoccupied with election forecasting Gallup pollsters undercounted social groups thought less likely or unable to vote leading to a considerable gap between the polling results of the sampled polity and the opinions of the general public Examining the origins and early years of public opinion polling in Canada Robinson situates polling within the larger context of its forerunners market research surveys and American opinion polling and charts its growth until its first uses by political parties

*Towards a Godless Dominion* Elliot Hanowski, 2023-10-15 In recent surveys one in four Canadians say they have no religion A century ago Canada was widely considered to be a Christian nation and the vast majority of Canadians claimed they were devoutly religious But some were determined to resist In the 1920s and 30s groups of militant unbelievers formed across Canada to push back against the dominance of religion *Towards a Godless Dominion* explores both anti religious activism and the organized opposition unbelievers faced from Christian Canada during the interwar period Despite Christianity s prominence anti religious ideas were propagated by lectures in theatres through newspapers and out on the streets Secularist groups in Montreal Toronto Winnipeg and Vancouver actively tried to win people away from religious belief In the first two cities they were met with stiff repression by the state which convicted unbelievers of blasphemous libel broke up their meetings and banned atheistic literature from circulating In the latter two cities unbelievers met social disapproval rather than official persecution Looking at interwar controversies around religion such as arguments about faith healing and fundamentalist campaigns against teaching evolution Elliot Hanowski shows how unbelievers were able to use these conflicts to get their skeptical message across to the public Challenging the stereotype of Canada as a tolerant secular nation *Towards a Godless Dominion* returns to a time when intolerant forms of Christianity ruled a country that was considered more religious than the United States

*Secular Socialists* John Terence Morley, 1984-01-01

*Party Movements in the United States and Canada* Mildred A. Schwartz, 2006 Party movements can be described as political organizations that both participate in the electoral process and have social movement qualities They appear frequently in both Canada and the United States Many of these movements face huge organizational problems and yet they display remarkable resilience signaling both continuing political dissatisfactions as well as possibilities for changing political outcomes This book demonstrates how organizational theory can be useful for understanding party movements and also expands on the idea of continuity contributing new ways of thinking about how organizations change and survive in the face of recurring dilemmas

This look inside party movements at the organizational problems they face and the strategies employed to deal with them represents a new way of accounting for their history that contrasts with perspectives focusing solely on external conditions
