The Making of an Alliance David Tal,2022-01-06 A critical overview and re evaluation of the origins and development of the special relations between Israel and the United States Israeli Exceptionalism M. Alam,2009-11-09 This book discusses the small band of European Zionists who entered the world stage in late 19th century determined to create a Jewish state and considers how at that time in Europe Jewish Gentile frictions were local problems whilst today in Israel they have come to form the pivot of global conflict US Foreign Policy and Global Standing in the 21st Century Efraim Inbar,Jonathan Rynhold,2016-01-13 This book examines US foreign policy and global standing in the 21st Century The United States is the most powerful actor in world politics today Against this backdrop the present volume examines how the foreign policies pursued by Presidents George W Bush and Barack Obama have affected elite and public perceptions of the United States By examining America s standing from the perspective of different actors from across various regions including China Russia Latin America and the Middle East while also assessing how these perceptions interact with America s own policies this book presents a fresh interpretation of America s global standing In doing so the volume evaluates how these perceptions affect the realities of US power and what impact this has on moulding US foreign policy and the policies of other global powers A number of books address the question of which grand strategy the United States should adopt and the issue of

whether or not America is in relative decline as a world power However the debate on these issues has largely been set against the policies of the Bush administration By contrast this volume argues that while Obama has raised the popularity of America since the low reached by Bush America's credibility and overall standing have actually been damaged further under President Obama This book will be of much interest to students of US foreign policy US national security strategic studies Middle Eastern politics international relations and security studies generally

**American Christian Support for Israel** Eric R. Crouse, 2014-10-28 The dominant political theme of the State of Israel is the perpetual quest for security In its first 25 years Israel experienced five wars with Arab states declaring their goal to destroy Israel In American Christian Support for Israel Standing with the Chosen People 1948-1975 Eric R Crouse examines how American Christians responded to Israel's wars and the persistent threats to its security While some were quick to condemn Israel as it made difficult and unpopular decisions in its fight for survival in a hostile region conservative Christians were trustworthy supporters routinely voicing uplifting reports Crouse argues that Israel's embodiment of western ideals and its remarkable economic development gave conservative Christians good reasons to favor Israel in a troubled Middle East but the main reason for their unconditional support was the key biblical text of Christian Zionism I will bless those who bless you Abraham and his descendants and I will curse him who curses you Genesis 12:3

until 2003      **To Stand with Palestine** Karam Dana, 2025-02-04 In recent years attitudes in the United States toward the Palestinian cause have shifted dramatically Although Palestinians have long been demonized in U S media and politics their struggle portrayed as illegitimate emergent progressive voices increasingly challenge the status quo on Israel and Palestine and express solidarity with Palestinian resistance What accounts for this change and its evolution This book provides a new lens on activism around Palestinian issues demonstrating how the global Palestinian diaspora has driven transnational political movements Karam Dana explores the ways that exile has shaped Palestinian identity and allowed for new forms of global activism He examines the social political economic and technological forces that have created space for Palestinian voices to be heard by wider audiences worldwide Drawing on interviews with scholars and advocates including members of the Palestinian diaspora and Jewish American activists as well as public opinion data and media analysis Dana traces how global Palestinian communities have influenced American views He addresses the backlash against pro Palestinian advocacy but argues that solidarity with Palestinians both in the United States and globally will continue to strengthen Timely and insightful To Stand with Palestine offers an inside look at how Palestinians have shared their story with the world and why sympathy for their plight is growing with significant implications for the global political landscape      *The American Deep State* Peter Dale Scott, 2017-05-02 Now in a new edition updated through the unprecedented 2016 presidential election this provocative book makes a compelling case for a hidden deep state that influences and often opposes official U S policies Prominent political analyst Peter Dale Scott begins by tracing America s increasing militarization restrictions on constitutional rights and income disparity since World War II With the start of the Cold War he argues the U S government changed immensely in both function and scope from protecting and nurturing a relatively isolated country to assuming ever greater responsibility for controlling world politics in the name of freedom and democracy This has resulted in both secretive new institutions and a slow but radical change in the American state itself He argues that central to this historic reversal were seismic national events ranging from the assassination of President Kennedy to 9 11 Scott marshals compelling evidence that the deep state is now partly institutionalized in non accountable intelligence agencies like the CIA and NSA but it also extends its reach to private corporations like Booz Allen Hamilton and SAIC to which 70 percent of intelligence budgets are outsourced Behind these public and private institutions is the influence of Wall Street bankers and lawyers allied with international oil companies beyond the reach of domestic law Undoubtedly the political consensus about America s global role has evolved but if we want to restore the country s traditional constitutional framework it is important to see the role of particular cabals such as the Project for the New American Century and how they have repeatedly used the secret powers and network of Continuity of Government COG planning to implement change Yet the author sees the deep state polarized between an establishment and a counter establishment in a chaotic situation that may actually prove more hopeful for U S democracy      **The Middle East and South Asia 2018-2019** Seth Cantey, 2018-10-26 This annually updated

volume of the World Today Series is designed to place in context the passionate controversies and emotional attachments of the two billion people who live study work and die in the Middle East and South Asia Despite room for optimism in some areas many parts of the Middle East and South Asia continue to face extraordinary challenges and difficult outlooks Much of this has to do with conflict across the region which extends well beyond atrocities perpetrated by the Islamic State and the Assad regime in Syria This volume depicts a region where hundreds of millions seek dignity as humans and respect from their governments This volume helps the general reader understand recent and past developments from these countries

*The Middle East and South Asia 2017-2018* Seth Cantey, 2017-08-25 This volume is designed to place in context the passionate controversies and emotional attachments of the two billion people who live study work love and die in the Middle East and South Asia Understanding these regions means more than annually updated details of the governments politics cultures and economies of the twenty four nations and assorted territories Special chapters address significant issues of continuing international importance including access to water the role of oil and the 2011 Arab spring Both regions after all contain types of people misunderstood and often intensely disliked by others Where religion intrudes on politics the Afghan Taliban oppose educating girls Hindu fanatics rampage in India Iranian militiamen shoot demonstrators Islamic extremists impose sharia and Jewish Ultra Orthodox send women to the back of the bus readers bombarded with superficial news bites and slanted reporting might never sense the other accomplishments of these same societies Islamic charities and societies bring relief to the impoverished Israel's scholars win Nobel prizes and most Indians cherish long standing religious toleration The author of this volume attempts to let the reader draw conclusions from the evidence

*The US Public and American Foreign Policy* Andrew Johnstone, Helen Laville, 2010-06-10 Though often overlooked public opinion has always played a significant role in the development and promotion of US foreign policy and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays The volume evaluates the role of organizations and movements that look to represent public opinion and assesses the nature of their relationship with the government The contributors utilize a number of different approaches to examine this impact including polling data assessments of the role of the media and the wider consideration of ideas and ideology moving on to examine the specific role played by the public in the policy making and policy promotion process Engaging with new questions as well as approaching old questions from a new angle the work argues that whilst the roles change and the extent of influence varies the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated This work will be of great interest to all those with an interest in American foreign policy American politics and American history

*Israel* Edgar S. Marshall, 2002 There has probably never been a country in the history of the world like Israel the homeland for Jews from all around the world a visceral enemy of Arab countries called a client state of the United States a developed country in its own right by its own hands Israel has seen many events since its founding in 1948 but peace it has not found The book

examines current issues swirling about Israel as well as presents the historical background necessary for grasping its place in the world today     *Jacob Schiff and the Art of Risk* Adam Gower, 2018-06-19 Jacob Henry Schiff 1847 1920 a German born American Jewish banker facilitated critical loans for Japan in the early twentieth century Working on behalf of the firm of Kuhn Loeb Co Schiff s assertiveness in favour of Japan separated him from his fellow German Jewish financiers and the banking establishment generally This book s analysis differs from the consensus that Schiff funded Japan largely out of enmity towards Russia but rather sought to work with Japan for over thirty years This was as much a factor in his actions surrounding the Russo Japanese War 1904 1905 as his concern to thwart Russian antisemitism Of interest to financial historians alongside Japanese historians and academics of both genres this book provides a lively and thoroughly researched volume that precisely focuses on Schiff s mastery of banking
