Security For Peace Israels Minimal Security Requirements In Negotiations With The Palestinians:

Palestinian Autonomy, Self-government, And Peace Harvey Sicherman, 2019-06-04 Describing the changes of heart and mind that reordered the Middle East in the wake of the First World War Albert Hourani one of the great scholars of the modern Middle East has written Wars are catalysts bringing to consciousness feelings hitherto inarticulate and creating expectations of change The Gulf War of early 1991 bears the signs of having been such a catalyst Having proved its assertiveness and strength and having led a wide ranging coalition into battle the United States has since the war's end embarked on an energetic diplomatic effort aimed at settling the long standing conflict between the majority of the Arab states and Israel The peace conference that Secretary of State James A Baker III has organized will grapple with a number of issues One of the most contentious and significant will be the future of the Palestinians of Gaza and the West Bank

The Israeli-Palestinian Peace Process Yair Hirschfeld, 2024-04-30 This book describes the evolution of the Israeli Palestinian peace seeking process from 1967 to the present Written from the perspective of Israel's most prominent peace activist it offers an unparalleled insider's account of a crucial set of negotiations intended to settle a seemingly endless conflict Hirschfeld's historical narrative provides a wealth of knowledge and experience that is indispensable to anyone seeking to seriously approach the Middle East conflict The book's thorough analysis of the successes and failures of all peace efforts since the Six Day War represents an essential asset for future negotiators politicians diplomats and peace activists alike Moreover the book shares pearls of human wisdom that anyone searching to resolve conflicts in general should take to heart The book is of burning topicality Not only with a view to the normalisation process between Israel and Arab countries that began with the recent Abraham Accords 2020 but also regarding the new age of war in Europe sparked by Russia's war of aggression against Ukraine The book includes a foreword by Jackson al Khoury a humanitarian based in Gaza during the 2023 war who offers a perspective for a younger Palestinian generation

Power and Policy in Syria Radwan Ziadeh, 2012-12-20 As Bashar al Asad rescinds emergency rule in the face of demonstrations and protests Syria finds itself in a key position in a Middle East beset by regional tensions the repercussions of the global war on terror and popular uprisings The bloodless coup by General Hafez al Assad in 1970 put in place a powerful autocratic machinery at the core of the state which continues till today under the control of his son Bashar Here Radwan Ziadeh presents a fresh and penetrating analysis of Syria's political structure a despotic state monopoly a bureaucratic climate marked by fear and the administrative structure through which centralized control is exercised With a focus on Syria's intelligence services which have significant influence in legal and policy decisions and the conditions and patterns of foreign policy decision making particularly vis a vis the US Power and Policy in Syria is essential reading for all those interested in Syria the modern Middle East International Relations and Security Studies

The Arab-Israeli Conflict Kirsten E. Schulze, 2013-11-14 In this fully revised new edition Kirsten Schulze brings us to a new understanding of the causes course and consequences of the Arab Israeli Conflict Schulze analyses the dynamics of the violence and explores the numerous attempts at resolving the conflict She assesses why in the cases of Israel Egypt in 1978 and Israel Jordan in 1994 negotiations succeeded in bringing about a lasting peace and why in the cases of Israel and the Palestinians Syria and Lebanon they failed to do so Written in a clear and accessible style this fully updated second edition Traces the origins of the conflict from their first intellectual roots in the 19th century Examines the actions and aims of the competing nationalist movements during the period of the British Mandate which led to the creation of the state of Israel Outlines and analyses each of the Arab Israeli conflicts from the creation of the state of Israel in 1948 to the 2006 Lebanon war and the on going second Palestinian uprising With a diverse collection of documents and a Chronology Glossary Guide to Further Reading and a Who's Who summarizing the careers and contributions of the main figures this book is absolutely vital to understanding the current Israeli Palestinian violence the intra Palestinian rift between Hamas and Fatah and why the Arab Israeli conflict has become the centre of Muslim politics both violent and non violent across the world

Routledge Companion to the Israeli-Palestinian Conflict Asaf Siniver, 2022-10-27 This Companion explores the Israeli Palestinian conflict from its inception to the present day demonstrating the depth and breadth of the many facets of the conflict from the historical political and diplomatic to the social economic and pedagogical aspects The contributions also engage with notions of objectivity and bias and the difficulties this causes when studying the conflict in order to reflect the diversity of views and often contentious discussion surrounding this conflict The volume is organized around six parts reflecting the core aspects of the conflict historical and scholarly context of the competing narratives contemporary evolution of the conflict and its key diplomatic junctures key issues of the conflict its local dimensions international environment of the conflict the other images of the conflict as reflected in public opinion popular culture the boycott divestment and sanctions BDS movement and academia and pedagogy Providing a comprehensive approach to the Israeli Palestinian conflict this companion is designed for academics researchers and students interested in the key issues and contemporary themes of the conflict

Netanyahu and Likud's Leaders Gil Samsonov, 2020-02-20 This research discusses the second generation Likud leaders known as the Princes who have dominated Israeli politics for most of the last three decades their relations with their parents and the extent to which they have followed in or diverged from their footsteps The main theme seeks to explore the unique perhaps unprecedented socio political phenomenon of generational duplication in a western type democracy This volume examines the ways and means through which the disciples of Zionist leader Ze'ev Jabotinsky managed not only to maintain lasting

control of their mentor's creation to transform after Israel's establishment from a small opposition party into the country's dominant and ruling party but also hand down this political pre-eminence to their descendants. Prime Minister Benjamin Netanyahu is the son of Ben Zion Netanyahu, foreign minister of Jabotinsky's movement. President Reuven Rivlin is the son of resistance warrior Rachel Rivlin. MP Benny Begin is the son of Menachem Begin. Former Prime Minister Ehud Olmert, Tzipi Livni and many others were also part of those Princes. A breakthrough in the world's inter-generational research, the book is for readers interested in political science, sociology and the politics of Israel and the Middle East.

Think Palestine Jamil Effarah, 2013-09-13. Dr. Effarah's weekly editorials and articles in this volume are based on developing events that took place involving the USA Administrations and their policies of support to Israel in the conflicts among Palestinians, Arabs and Israelis. This book is intended to those students, teachers, politicians, executives, policy makers and others who are interested or involved in the Middle East. Dr. Effarah interprets these events and policies as reflected by his six years (2007-2012) of writings that started since 1952. As an Arab American independent thinker, he judges events according to their merits while acting as a participant observer to the one-sided American policy toward the Middle East. He records and highlights the facts in an attempt to find the key to unlock the Palestinian, Arab and Israeli conflicts. His personal feelings and interpretations towards the proceedings represent a major part in presenting the events that took place in that period. Dr. Effarah attempts to create a voice for Arab Americans to stand up and be counted and act as an integral part of the American society. He keeps pressing for more American Arab participation in the political process for more transparency and for faster and farther reaching to the Americans' hearts and minds by trying to make them understand the Arabs' situations and Arab Christian Patrimony culture and heritage. Dr. Effarah attempts to create an Arab American balanced policy to reach Americans and convince them that there are special interests groups and influential lobbyists in Washington D.C. who misinform media and try to spin around while beholding to the fabricated Israeli points of view. To counterbalance the Zionist efforts, Arab Americans should think Palestine and ask the American citizens to find answers for why the American citizens, the taxpayers give money outright to Israel more than 8.5 million per day according to the CIA Factbook in 2012.

Water in the Middle East Waltina Scheumann, Manuel Schiffler, 2013-04-17. The former Egyptian Minister of State for Foreign Affairs and former UN Secretary General Boutros Boutros Ghali stated after the second Gulf War: "The next war in the Middle East will not be fought for oil but for water." This famous statement has been echoed by many politicians shortly before becoming president of Turkey, Süleyman Demirel declared that the waters of the Euphrates and Tigris belonged to Turkey just as oil belongs to the Arabs. Rafael Eytan at that time and now again Israeli Minister of Agriculture declared in 1990 in full-page advertisements in the Jerusalem Post that Israel would never cede the West Bank to the Palestinians because Israel's water supply would otherwise be endangered. Finally, Ismail Serageldin, vice president of the World Bank, declared in 1995 that the wars of the next century will be over

water These statements are typical of the atmosphere reigning in the Middle East and in several other places around the world concerning the issue of international fresh water resources Whether these perceptions correspond to an actual threat to a nation s water supply or whether they correspond to the official position of states in negotiations often conducted secretly is an entirely different matter A closer analysis of the issue of international fresh water resources as we attempt in this book admittedly reveals a dangerous potential for conflict over water
