Security In North Africa Internal And External Challenges:

Security in North Africa: Internal and External Challenges Ian O. Lesser, RAND CORP SANTA MONICA CA., 1993
The emotional reaction across North Africa during the Gulf War and the deepening turmoil in Algeria as the country grapples with an assertive Islamic movement have awakened Western interest in the prospects for stability along the southern shore of the Mediterranean. The alarming demographic imbalance between north and south and the resulting flow of migrants to an increasingly inhospitable Europe is now a feature of the European security debate. To these concerns must be added the risk of nuclear and ballistic missile proliferation emanating from Libya and Algeria. Among foreign and security policy elites and publics in southern Europe, France and to a growing degree in Europe as a whole, it has become fashionable to refer to a new arc of crisis in the south. Previous RAND reports have charted this new aspect of the European security environment and the significance for U.S. policy. The North African dimension of the evolving security situation in the Mediterranean was not systematically explored in these reports except as it was reflected in the views of southern Europeans. This report attempts to fill this gap focusing on regional developments as seen from the south. The report discusses the prospects for stability in Morocco, Algeria, and Tunisia, identifies regional flash points, and assesses the implications for U.S. policy. Economic and Political change in Tunisia E. Murphy, 1999-03-08. This book examines the processes of economic and political reform in Tunisia, placing the current policies of Zine el Abidine Ben Ali within their historical context. The book develops a theoretical understanding of the relationship between economic liberalisation and political change in the Arab world, developing the concept of the disarticulation of the corporatist state and concluding that despite efforts at democratization, an authoritarian political system is a more likely successor in the era of economic transformation. *Terrorist Threats in North Africa from a NATO Perspective* J. Tomolya, L.D. White, 2015-11-06. According to the editors of this book, North Africa has become a hotbed of terrorist activity in recent years, as demonstrated by several events in the region. Representing as it does a potential threat to NATO's southern flank, this area can no longer be ignored, they say. This book presents the proceedings of the NATO Centre of Excellence Defence Against Terrorism COE DAT Advanced Research Workshop entitled 'The Terrorist Threat in North Africa from a NATO Perspective' held in Ankara, Turkey, in November 2013. Subjects covered include the changing nature of North African terrorism, the rise of Al Qaeda in North Africa, financing terrorism in North Africa, the legal framework of military operations against terrorism in North Africa, and the relationship between international terrorism and terrorism in North Africa, among others. Also included in the book is the keynote address given by Prof. Yonah Alexander of the Inter University Center for Terrorism Studies, entitled 'Terrorism in North Africa and the Sahel: Threats and Responses'. The book provides insights to further the understanding of terrorism in North Africa and will be of interest to all those involved in the development of counterterrorism policies to combat this threat. **All for One: Terrorism, NATO and the United States** Tom Lansford, 2018-02-06. This title was first published in 2002. This detailed examination of the role of the

Transatlantic Alliance in support of the America led military and intelligence operations against the Taliban and the Al Qaida network since the terrorist attacks on the United States provides the first in depth analysis of NATO s historic first invocation of Article V of the Washington Treaty Including a substantial overview of NATO s place in the broad security framework of the Western Atlantic powers and both the shared history and ideals that form its common basis the book specifically analyzes the political machinations behind the decision to invoke Article V and the impact of political differences among the Alliance partners The book also looks at efforts to prevent future incidents by expanding the security framework of the Alliance An essential reference source for military and foreign policy academics courses and practitioners this text offers the reader an unprecedented insight into NATO s response to this most significant event **A Sense Of Siege** Graham Fuller,2018-02-12

The clash of civilizations has become a common phrase in discussions of U S Middle East relations This book explores the nature of the friction between the Muslim world and Western states looking at legitimate perceptions and grievances on both sides involving historical political economic cultural psychological and strategic elements Arguing that Islam versus the West does not represent the arena of the next global ideological struggle the authors examine specific issues of a bilateral nature that require careful handling to prevent the consolidation of states into opposing blocs They discuss Islam s efforts to politically enhance the real power of Muslim states and to equalize relations with the West in the strategic arena the enlarged role of Islam in the internal politics of Muslim countries and the urgency of political economic and social change to break away from traditional authoritarian orders A central theme of the book is that political Islam threatens the established order in most Muslim countries far more than it threatens the West and that violent confrontation can best be circumvented by integrating Islamist forces into the political process Parameters ,1998 The European Neighbourhood Policy in a Comparative Perspective Sieglinde Gstohl,2016-07-22

The European Neighbourhood Policy ENP has evolved into one of the European Union s major foreign policy instruments and received considerable attention However other EU neighbourhood policies and their relevance for the ENP also require examination The Arab uprisings civil wars in Libya and Syria the continuing Israeli Palestinian conflict the crisis in Ukraine and Russia s annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU s other policy frameworks with neighbouring countries Mapping the EU s bi lateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced it provides a comprehensive up to date view of the EU s relations with its neighbours Focusing on current affairs and future challenges the comparison with the ENP and the lessons to be drawn generate novel insights into the EU s closest external relations This book will be of key interest to students and scholars studying European Politics policies and comparative politics Energy Security Cooperation in Northeast Asia Bo Kong,Jae Ku,2015-04-24

Genugten, 2013-10-31 The future of European foreign policy is of vital significance to the developing world order The failure of US policy in Iraq has underscored the need for Europe to play a constructive global role Nevertheless divisions within Europe over the Iraq war and over the future development of the European Union have raised questions about the potential for an effective European foreign policy whether organized through EU institutions or via individual member states This book will consider why Europe should assume global responsibilities how they will be organized institutionally whether they will be adequate to address pressing regional and security concerns and how they will reflect the foreign policy interests of Europe's major powers It is the intention of this book to cover both thematic and country specific issues ranging from Europe's responsibility as a global actor and EU NATO relations to the specific influence of Germany France Italy and the United Kingdom The contributors come from across the European Union and represent a mix of established and rising scholars This book was published as a special issue of the Journal of European Integration China in the Mediterranean Emilie
