Stephens,2020-05-12 Christianity has become increasingly careless about Biblical truth doctrine and the Christian s testimony Building Thereupon demonstrates how after salvation carefully laying steadfast doctrinal truths one upon another forms the proper structure for fruitful and victorious Christian living The Bible admonishes believers to lay precept upon precept line upon line Christian faith and truth are to be built upon the firm Foundation Jesus Christ But what happens to faith if the first great truths are misunderstood Building Thereupon offers an in depth discussion of Biblical doctrine the knowledge of the things that relate to God and to the Lord Jesus Christ It shows that believers need to understand the details of their own salvation or else be vulnerable to deception in other critical parts of the Christian life The Lord gives truths intended for every Christian and these truths better equip each child of God to realize steadfastness maturity and the will of God Building Thereupon presents a convincing validation to earnest Bible believers demonstrating that the body of correct Christian theology need not be rife with obscurity contradiction and inconsistencies The great Biblical truths flow together fit seamlessly and fall into order when doctrine is believably laid precept upon precept and line upon line *The Cloaking of Power* Paul O. Carrese,2010-02-15 How did the US judiciary become so powerful powerful enough that state and federal judges once vied to decide a presidential election What does this prominence mean for the law

constitutionalism and liberal democracy In *The Cloaking of Power* Paul O Carrese provides a provocative analysis of the intellectual sources of today s powerful judiciary arguing that Montesquieu in his *Spirit of the Laws* first articulated a new conception of the separation of powers and strong but subtle courts Montesquieu instructed statesmen to cloak power by placing judges at the center of politics while concealing them behind juries and subtle reforms Tracing this conception through Blackstone Hamilton and Tocqueville Carrese shows how it led to the prominence of judges courts and lawyers in America today But he places the blame for contemporary judicial activism squarely at the feet of Oliver Wendell Holmes Jr and his jurisprudential revolution which he believes to be the source of the now prevalent view that judging is merely political To address this crisis Carrese argues for a rediscovery of an independent judiciary one that blends prudence and natural law with common law and that observes the moderate jurisprudence of Montesquieu and Blackstone balancing abstract principles with realistic views of human nature and institutions He also advocates for a return to the complex constitutionalism of the American founders and Tocqueville and for judges who understand their responsibility to elevate citizens above individualism instructing them in law and right

Humanist Christology of Paul Juan L. Segundo, 2007-09-01. Segundo's groundbreaking exegesis focuses chiefly on Paul's treatment of sin, faith, and the impact of their intersection on human existence. In a brilliant concluding chapter, Segundo rejects liberation theology's reading of Paul as apolitical and shows how Paul's thought opens up for us a humanizing political realm that no repression can control or render useless. This profound and passionately written study will fascinate advanced students and scholars for years to come.

The Roman Catholic Church Challenged in the Discussion of Thirty-two Questions with the Catholic Laymen's Association of Georgia Caesar Augustus Yarbrough, 1920. ***The Law Journal Reports***, 1890. *Engaging the Spirit World* Kirsten W. Endres, Andrea Lauser, 2012-03-01. In many parts of the contemporary world, spirit beliefs and practices have taken on a pivotal role in addressing the discontinuities and uncertainties of modern life. The myriad ways in which devotees engage the spirit world show the tremendous creative potential of these practices and their innate adaptability to changing times and circumstances. Through in-depth anthropological case studies from Indonesia, Malaysia, Thailand, Myanmar, Laos, and Vietnam, the contributors to this book investigate the role and impact of different social, political, and economic dynamics in the reconfiguration of local spirit worlds in modern Southeast Asia. Their findings contribute to the re-enchantment debate by revealing that the spirited modernities that have emerged in the process not only embody a distinct feature of the contemporary moment but also invite a critical rethinking of the concept of modernity itself.
