American-Japanese Security

Agreements, Past and Present Thomas A. Drohan, 2015-01-28 What led two mortal enemies to become allies nine years after the end of World War II When the Allies began their occupation of defeated Axis countries many people favored a program of harsh reparation and demilitarization For the United States this was tempered with a desire not only to prevent such a war from happening again but to help the occupied countries rebuild their economic and political infrastructure This aspiration coupled with the rise of communist China and its perceived threat not only to Southeast Asia but the world formed the catalyst for a U S Japanese alliance The alliance between the United States and Japan persists in spite of changing political world views The changes which have affected world politics have often resulted in corresponding adjustments to the U S Japan security agreement From 1954 to the present day this volume takes an in depth look at the fundamental nature of the relationship The book addresses the historical origins of security relations in both countries and the ways in which these formed the basis for their postwar security cooperation and examines the negotiated set of shared military economic and political agreements and expectations which have shaped their relationship The work's main focus however is the way in which this alliance has evolved Four cases of significant policy change in 1960 1981 1987 and 1997 are analyzed along with a discussion of the relevant strategic and tactical realities of the time The reactions of the United States and Japan to recent events such as Iraq's Kuwait invasion and the 2001 terrorist attacks on America are also discussed Numerous tables are included

The Geopolitics of Australia's Regional Relations D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a

trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda Satow's Diplomatic Practice Ivor Roberts, 2023-08-29 An indispensable guide for anyone working in or studying the field of diplomacy this eighth edition of Satow's Diplomatic Practice provides a comprehensive overview and analysis of all areas of diplomacy and diplomatic practice *Japanese Defence* Syed Javed Maswood, 1990 This book focuses on the defence policy of the Nakasone administration and attempts to provide an explanation for the policy measures which its administration implemented or initiated It suggests that the widening disparity between economic interests and political power forced Japan to review the traditional bases for defence policy making and prompted the search for a balance that would allow the country a more active role in the international sphere The book is organized around the central theme that Nakasone's defence policy can be understood as an attempt to rehabilitate Japan as a normal state and end the state of affairs that had relegated it to a unique and low position **Contested Multilateralism 2.0 and Asian Security Dynamics** Kai He, 2020-04-28 In the 1990s there was a wave of multilateralism in the Asia Pacific led primarily by ASEAN Since the Global Financial Crisis of 2008 however many non ASEAN states have attempted to seize the initiative including the USA Japan China South Korea and Australia Kai He and his contributors debate the reasons for this contested multilateralism and the impacts it will have on the region's security and political challenges Will the Indo Pacific turn be a blessing or a curse for regional stability and prosperity Using a diverse range of theoretical and empirical perspectives these leading scholars contribute views on this question and on the diverse strategies of the great and middle powers in the region This collection will be of great interest to scholars and students of international relations in the Asia Pacific and of great value to policy makers in the region and beyond

Countries Relations Li Xiangyang, 2013-03-01 China has a myriad and diverse range of neighbours who are significant in their own right but are also of global importance Asia accounts for 25% of global GDP This book evaluates the potential for both co operation and conflict within the Asian region Border problems and historical problems are still plaguing countries in the region and are affecting the relations between them China and India have not yet resolved their land frontier issues Furthermore China has maritime disputes with Japan South Korea Vietnam and the Philippines The historical issues among China Japan and South Korea make the cooperation between them lack a basis of political mutual trust Therefore although there are close trade contacts among these countries China Japan and South Korea have not reached any FTA In South Asia because of long term India Pakistan conflicts South Asia s Association for Regional Cooperation SAARC has been useless and is unable to effectively promote regional economic cooperation which is a factor in pushing India to develop towards the East These unstable factors have not only hindered the formation of long term institutional arrangements on economic and trade cooperation within the region but have also caused various unexpected events to disrupt existing cooperation Throughout this book economic data and analysis is provided which gives an insight into the trade and financial links that bind this region together Written by experts in China it gives a fascinating view of China s approach to its neighbours China is assuming a more important role on the world stage but it is important to not forget the key role it plays in its own neighbourhood

Asian Security and the Rise of China David Martin Jones, Michael Lawrence Rowan Smith, Nicholas Khoo, 2013-01-01 Khoo Jones and Smith have pulled off a remarkable balancing act crafting a well grounded and multifaceted survey of China s rise in the context of Asian security In a field which is often marked more by scholarly effervescence than substance the authors provide a refreshingly detailed portrait of the last two decades and fair minded point out evidence which might support both extremes of the debates they challenge with their own third way Frank Scott Douglas US Naval War College US Congratulations to the authors for a clearly argued and comprehensive treatment of China s post Cold War

rise and what it means for existing and future dynamics of the Asia Pacific region Effectively employing realist theory in a fair minded treatment of regional developments the volume shows how and why power realities are more important than non material factors in determining the region s trajectory and thereby demonstrates that China s ascendancy in Asia remains complicated and conflicted Robert Sutter George Washington University US East Asia is without question a region of huge economic political and security significance Asian Security and the Rise of China offers a comprehensive overview and assessment of the international politics of the Asia Pacific since the end of the Cold War seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia s international relations Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states this timely book addresses the core issue in contemporary Asian politics the rise of China The contributors expertly evaluate China s rise and the impact it has had on the dynamics of regional relations in North East and South East Asia It demonstrates that China s economic development and its regional and international ambition increasingly conflict with the existing consensus based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism As a consequence smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony This leaves the region in the grip of a complex and potentially destabilizing security dilemma The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations Postgraduate and Master s students on courses addressing East and South East Asia will also find plenty of information in this invaluable book *The Chinese and Their Future* Zhiling Lin,1994 Policy analysts and scholars in China Taiwan Hong Kong and the United States discuss the major issues arising in the aftermath of the explosive events in China in 1989 Contributors include Arthur Hummel the former U S ambassador to the People s Republic of China and Ding Mou Shih the representative of the Coordination Council for North American Affairs to the United States
