environment **The Middle East, Oil, and the U.S. National Security Policy** Donald M. Snow, 2016-03-17 Three interrelated subject areas are at the heart of the current foreign and national security dilemma One is the Middle East which has been the epicenter of most U S policy activity for over a third of a century The second is energy policy particularly as it is affected by the development and exploitation of shale oil and gas reserves in the United States This is linked to the Middle East because it has been American dependence on Middle East petroleum that has created the interest the U S has in this region The third area is military manpower policy and two simultaneous wars in the new century have raised questions about the all volunteer force policy in place since 1972 It is increasingly evident that foreign and defense policy are strained and in need of fresh conceptualization The three areas identified are the most obvious examples of policy dysfunction The key area is the Middle East region As long as the United States remains heavily committed to this part of the world especially with military force and essentially because of its energy needs there will be strains on manpower resources that could force a reexamination of the all volunteer concept At the same time the reduction of U S dependence on Middle Eastern oil loosens the bonds that seem to impel American activism in the region The result could be true opportunities for a less confrontational adversary driven foreign and defense posture *U.S. Policy in the Middle East, November 1974-February 1976* United States. Department of State. Office of Media Services, 1976 **Turkey's Foreign Policy and Security Perspectives in the 21st Century** Sertif Demir, 2016-04-23 This books aims at analyzing Turkish foreign and security policies in the 21st century Turkey s foreign and security policies have become the focus of academic discussions since Turkey is located in the middle of the most unstable region in the world Turkey s self assured foreign policy has similarly attracted the attention of academicians worldwide Meanwhile Turkey s security policy has also been the subject of discussions as the country has been struggling with ethnic terrorism for 35 years Furthermore the US invasion of Iraq and the recent Syrian civil war along with other factors have caused religious radicalism to expand its power throughout the Middle East which has heavily impacted on Turkey s security Turkey s longstanding problems with its neighbors have also affected the general characteristics of its foreign policy particularly leading to its securitization
