Bolden, 2020-10-21 Tony Bolden presents an innovative history of funk music focused on the performers regarding them as intellectuals who fashioned a new aesthetic Utilizing musicology literary studies performance studies and African American intellectual history Bolden explores what it means for music or any cultural artifact to be funky Multitudes of African American musicians and dancers created aesthetic frameworks with artistic principles and cultural politics that proved transformative Bolden approaches the study of funk and black musicians by examining aesthetics poetics cultural history and intellectual history The study traces the concept of funk from early blues culture to a metamorphosis into a full fledged artistic framework and a named musical genre in the 1970s and thereby Bolden presents an alternative reading of the blues tradition In part one of this two part book Bolden undertakes a theoretical examination of the development of funk and the historical conditions in which black artists reimagined their music In part two he provides historical and biographical studies of key funk artists all of whom transfigured elements of blues tradition into new styles and visions Funk artists like their

blues relatives tended to contest and contextualize racialized notions of blackness sexualized notions of gender and bourgeois notions of artistic value Funk artists displayed contempt for the status quo and conveyed alternative stylistic concepts and social perspectives through multimedia expression Bolden argues that on this road to cultural recognition funk accentuated many of the qualities of black expression that had been stigmatized throughout much of American history

Ali,2017-06-26 ANGELS AND DEMONS AT War for your Soul People aren t your problem The answer to your problem is found in Ephesians 6 12 For we wrestle not against flesh and blood but against principalities against powers against rulers of the darkness of this world against spiritual wickedness in high places Learn how these powers work together to destroy a family by using forces of darkness to manipulate and control from within You will see how Angels fight forcefully in battle to keep us safe Demons are real Angels engage in battle Prayer is the key We Win L O L James Marsh Sternberg MD,Danny Kleinman,2021-08-29 Just what is LOL Yes a common abbreviation for Laughing Out Loud and often used to refer to a Little Old Lady but in bridge it means a Loser On Loser play At times a declarer can improve his her situation by playing a losing card from one hand on a loser in a different suit from the hand opposite This occurs when a player has a loser in two suits but can arrange to lose them both on one trick thereby reducing the number of losers from two to one Often this looks like a Ruff and Sluff play but instead of ruffing declarer or dummy discards a loser in each hand When and why would one do this This

technique has many uses One example is to keep the Danger hand off lead Often in the end game it serves as the exit in assisting the process of elimination and placing the lead in the hand of the desired opponent for an endplay The advantage of this procedure is that declarer divests himself of two losers while simultaneously placing the lead in the desired quarter

Elimination & Endplays James Marsh Sternberg MD, Danny Kleinman, 2022-02-17 Card play at bridge embraces both declarer play and defense Hundreds of books have been written about it Our approach here as in our previous books is to focus on a particular deal type Repeated experience with a theme makes it easier to recognize deal types and employ the appropriate techniques for each A common and important line of play is elimination play eliminating the side suits to remove an opponent's safe exit cards before throwing him in to make a fatal lead More than most other deal types endplays require planning and preparation In this as in our previous books we show deals as they were misplayed at rubber bridge or its sister form of contest team play at IMPs Usually you will see a deal in which declarer falls short of his contract by one trick Do not concern yourself with overtricks In the forms of contest assumed here making and breaking contracts is the objective Take each misplayed deal as a challenge to find a better line usually one that works but no guarantees An 80% play fails 20% of the time but is significantly better than a 60% play and much better than a 40% play *Louisiana Rocks!* Tom Aswell, 2010-09-23 An in depth history of rock and roll's Louisiana roots Taking the position that rock and roll started in New Orleans in 1947 when Roy Brown recorded Good Rockin Tonight Aswell provides an expansive history of this beloved American music form By looking at the Louisianan influences of swamp pop Cajun zydeco R B rockabilly country and blues music the author explores the way these musical forms gave birth to rock and roll as we know it today
