Paradigm after the End of Communism, 2022-06-08 Concepts of totalitarianism have undergone an academic revival in recent years particularly since the breakdown of communist systems in Europe in 1989 91 the totalitarian paradigm so it seems to many scholars today had been discarded prematurely in the heat of the Cold War The demise of communism as a

social system is however not only an important cause of the recurring attractiveness of the totalitarian paradigm but provides at the same time new evidence and correspondingly new problems of explanation for all approaches in communist studies and totalitarianism theory in particular This book contains articles by philosophers social scientists and historians who reassess the validity of the totalitarian approach in the light of the recent historical developments in Eastern Europe A first group of authors focus on the analytical usefulness and explanatory power of classic concepts of totalitarianism after having observed the failed reforms of the Gorbachev era and the collapse of Europe's communist systems in 1989-91 In these contributions the totalitarian paradigm is contrasted with other approaches with respect to cognitive power as well as normative implications In the second group of contributions the focus is on the reassessment of methodological and theoretical problems of the classic concepts of totalitarianism The authors attempt to reinterpret the classic concepts so as to meet the objections which have been put forward against those concepts during the last decades The study thereby traces some of the intellectual roots of the totalitarian paradigm that precede the outbreak of the Cold War such as the work of Sigmund Neumann and Franz Borkenau It also focuses on the most famous authors in the field Hannah Arendt and Carl Joachim Friedrich In addition it discusses theorists of totalitarianism like Juan Linz whose contributions to totalitarianism theory have too often been overlooked

The Lysenko Affair David Joravsky, 2010-12-15 The Lysenko affair was perhaps the most bizarre chapter in the history of modern science For thirty years until 1965 Soviet genetics was dominated by a fanatical agronomist who achieved dictatorial power over genetics and plant science as well as agronomy A standard source both for Soviet specialists and for sociologists of science American Journal of Sociology Joravsky has produced the most detailed and authoritative treatment of Lysenko and his view on genetics New York Times Book Review

The Avro Arrow New Edition Lawrence Miller, 2024-09-16 The Avro Arrow was one of the most innovative supersonic aircraft ever designed This book looks at the history of its creation and the legacy of Canadian innovation that lasts to this day The Avro Arrow was one of the most innovative supersonic aircraft ever designed but before it could enter service it was ordered destroyed This book follows its creation fanfare and destruction In this new revised edition The Avro Arrow's legacy of Canadian innovation is explored by highlighting the first all Canadian electric car also designed and built by Avro Canada

American Heart of Darkness Robert Kirkconnell, 2013-05 These days most Americans know that the country has serious problems Problems that will have to be addressed before the country can move forward What are these problems Where did they come from Before we can move forward we have to know where we are and how we got there American Heart of Darkness paints an unvarnished picture of the seeds of destruction that were sown into the foundations of the Republic from the very beginning How did slavery come about in the land of the free How did a pre-Columbian native population in North America alone of over eighteen million yes you heard it right native peoples dwindle down to about two hundred thousand Was it really Small Pox Why has a people who constantly talk about freedom democracy equality human rights life liberty and the pursuit of

happiness continually practiced racism genocide and war How do drugs come into the country and who is really behind the most profitable product sold in the world There are also other unanswered questions that need to be explored Why were thousands of the worst Nazi war criminals given refuge in the U S Who financed Hitler Where did Hitler get his master race and genocidal ideas from Was Lee Harvey Oswald a C I A agent Were Oswald Sirhan Sirhan Ted Kaczynski Timothy McVey and the Peoples Temple all mind control MKULTRA subjects What really happened in the Jeffery MacDonald so called Fatal Vision case How does hundreds of billions of dollars come into the United States every year without detection The answers to these questions and many more will surprise you They are not in the History books although they should be American Heart of Darkness Volume I explores the ugly side of America that has been hidden for far too long and it is literally killing us This book is not for the reader looking for an uplifting story to escape everyday life for a few hours It is for true patriots who are sick and tired of being lied to and stolen from It is for those who know they need to do something but do not know where to start It is for those who feel powerless and that America s problems are far too big for little ol me to handle It is for those with the courage to go from darkness to light As comedian and activist Dick Gregory once said If you been in the DARK for so long LIGHT will hurt your eyes This book will hurt your eyes The reader will be shocked then angry then motivated and finally in the author s next two books empowered and liberated It is better to see where we are and where we need to go right now before it is too late Congratulations If you have read this far this book is probably for you Please keep in mind the universal truth that with any form of government the leaders only have the power that the people allow them have This was true in India when a little skinny guy named Gandhi with no money and only a rag wrapped around his middle took on the British Empire and won There is no question that the American people have the power to reclaim a government that is clearly not being run for them We have to empower ourselves to take this government back from only a handful of selfish and greedy individuals who have proven that they only care about making more and more money Let us all stop giving them the power that belongs to us Reading this book is a beginning and then we will talk about what to do about it in the author s next two books

The Invention and Reinventions of Methodism Andrew J. Cheatle,2025-03-06 This book focuses on the transformative journey of Methodism and tackles a profound question How did a radical revival movement evolve into an established mainstream Church With a global family of around eighty million Methodism and its Holiness offshoots have come a long way since their origins as a fervent revival within the Church of England in the late 1730s Once perceived as controversial and charismatic early Methodists led by John and Charles Wesley

preached salvation to unruly crowds often facing fierce opposition Despite its turbulent beginnings the Wesleys skilfully kept the movement anchored to its Anglican roots preventing it from fracturing entirely This allowed Methodism to evolve into an established church while maintaining its distinct identity The volume delves into the enduring legacy of early Methodism exploring its theological influences and developments over time With its identity wrapped up in dual focus on mission and holiness Methodism s impact on global Christianity is profound From the Holiness movement to the rise of Pentecostalism its early radical and charismatic practices still resonate in the Church today Featuring essays from leading Wesleyan scholars this book is valuable for anyone interested in the dynamic history and lasting influence of the Methodist tradition *The Kennedy Family* S. J. Fuller, 2007 America has no official royalty by design Yet there have been the Roosevelts the Adams the Bushes the wanabee Clintons and most intriguing of all the Kennedys The Kennedys have so far only reached the presidency once but the assassination of JFK and his brother Robert and the trials and tribulations of the family members and society in general continue to fascinate the world This new book presents more than 1200 citations of books and related materials arranged by family member The accompanying CD ROM offers ready access and easy searching
